ANNUAL REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

ON THE OPERATIONS OF

THE INTERNAL REVENUE SYSTEM

FOR

THE YEAR 1872.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1872.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, November 30, 1872.

SIR: I have the honor to transmit herewith the tabular statements made up from the accounts of this Office, which the Secretary of the Treasury is required to lay before Congress, as follows:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1872.

Table B, showing the number and value of internal revenue stamps ordered monthly by the Commissioner, the receipts from the sale of stamps, and the commissions allowed on the same; also the number and value of stamps for tobacco, cigars, snuff, distilled spirits, and fermented liquors, issued monthly to collectors during the fiscal year ended June 30, 1872.

Table C, showing the territorial distribution of internal revenue from various sources in the United States for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, and 1872.

Table D, showing the aggregate receipts from each collection district, State, and Territory for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, and 1872.

Table E, showing the total collections from each specific source of revenue for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, and 1872.

Table F, showing the ratio of receipts from specific sources to the aggregate of all collections for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, and 1872.

Table G, an abstract of reports of district attorneys, concerning suits and prosecutions under the internal revenue laws during the fiscal year ended June 30, 1872.

Table H, an abstract of seizures of property for violation of internal revenue laws during the fiscal year ended June 30, 1872.

Table I, showing the number of proof gallons of spirits in each collection district, State, and Territory in the United States, exclusive of the quantity in internal revenue warehouses, May 1, 1872.

The aggregate receipts from all sources, exclusive of the duty upon the capital, circulation, and deposits of national banks, were for the fiscal years ended June 30—

1870	$185,235,867 97
1871	144,011,176 24
1872	131,770,946 73

These amounts include sums refunded and allowed on drawbacks.

The decrease in the aggregate receipts for the last two years is due to legislation approved July 14, 1870, which reduced the revenue to the estimated amount of $55,000,000 per annum, but which did not go into full operation before the close of the fiscal year 1871.

The amount of drawbacks and sums refunded for taxes illegally assessed and collected for the last three years, were as follows:

	Drawback.	Sums refunded.
1870	$5,838 55	$196,809 81
1871	22,887 97	617,581 07
1872	13,704 67	587,609 19

The total amount of drawback allowed by this Office prior to June 30, 1872, was $6,526,514 67, and of sums refunded, $4,719,806 56. During the fiscal year ended June 30, 1872, drawbacks were allowed only on general merchandise under section 171, act of June 30, 1864, limited by act of March 31, 1868.

TOTAL AMOUNT OF TAXES RETURNED FROM SEVERAL SPECIFIC AND ALL GENERAL SOURCES PRIOR TO JUNE 30, 1872.

The following table exhibits the aggregate amount of taxes returned from the several general sources of revenue from the organization of this Office to the close of the last fiscal year.

INCOME.

Of the $341,706,036 returned on income prior to June 30, 1872, exclusive of the special income tax of 1864, the sum of $260,700,986 was paid by individuals; $29,048,443 were withheld from dividends and additions to surplus of banks; $5,680,392 from the dividends of insurance companies; $20,655,808 from dividends of railroad companies; $9,852,202 from the interest on bonds of railroad companies, and $13,772,062 from salaries of United States officers and employés.

The following statement shows the number of persons in the United States who paid the income tax from 1867 to 1870, in each of the five classes below named. These returns were made under act of March 2, 1867, which provides that the amount of exemption shall be $1,000, and the rate of tax 5 per cent:

Classes.	Number of persons assessed for income in—			
	1867.	1868.	1869.	1870.
First class, tax $20 or less	101,219	100,558	107,997	112,874
Second class, tax over $20 and not over $50	68,680	55,949	69,184	68,900
Third class, tax over $50 and not over $100	40,899	38,957	41,196	40,839
Fourth class, tax over $100 and not over $500	46,055	51,188	45,002	44,732
Fifth class, tax over $500	9,282	7,965	9,464	9,316
Total	266,135	254,617	272,843	276,661

The following is a similar statement of returns made for the years 1871 and 1872, under act of July 14, 1870, the exemption being $2,000 and the rate of tax 2½ per cent:

Classes.	Number of persons assessed for income in—	
	1871.	1872.
First class, tax $20 or less	25,479	22,619
Second class, tax over $20 and not over $50	19,795	18,887

	Taxable gallons.
The quantity of spirits in bond July 1, 1871, was	6,742,118
The quantity entered in bond during the year ended June 30, 1872, was	68,275,745
The quantity withdrawn from bond during the same period was	64,914,471
The quantity remaining in bond June 30, 1872, was	10,103,392
The quantity remaining in bond July 1, 1871, as per present report, less than the quantity stated in the report for 1871, as shown by corrected reports of collectors received subsequent to the publication of the report for 1871, was	2,242

The total quantity of spirits in the United States not in internal revenue warehouses on the 1st of May, 1872, was 39,672,197 proof-gallons.

I would recommend that section 54 of the act of July 20, 1868, as amended by the act of June 6, 1872, be further amended so as to authorize you, in a more explicit manner than at present provided, to require export bonds of persons applying to export distilled spirits for the benefit of drawback. It is desirable that the language on this point should be perfectly clear and unquestionable, inasmuch as the exportation of spirits on which the tax has not been paid will be affected thereby as well as that provided for in section 54.

By the act of June 6, 1872, the fees of gaugers and the *per diem* compensation of storekeepers were made payable by the United States without re-imbursement by distillers, except by the increased rate of tax on distilled spirits, this increased rate having been determined partly by taking into account the amount heretofore paid for the services of such officers. But experience has already demonstrated that the amount to be paid will be not only greater (notwithstanding my most strenuous efforts to the contrary) than ever before, but also greater in proportion to the quantity of spirits produced.

It is apparent that the retention of spirits in the warehouse after the distiller has ceased operations, extends the time for payment of the tax due, and is therefore for his benefit only. In view of this, and the foregoing statement, I would recommend that when a distiller has ceased operations, the pay of the storekeeper for subsequent services at his distillery warehouse, in consequence of spirits remaining therein, shall be re-imbursed to the United States by the distiller.

FERMENTED LIQUORS.

By the act of June 6, 1872, the act of July 13, 1866, so far as it relates to fermented liquors, was re-enacted with some amendments, made at the solicitation of the principal brewers of the United States, designed to afford brewers better facilities than heretofore for the conduct of their business under internal revenue laws.

These concessions do not appear to have been of a character to endanger the public interests, as the following statement will show:

The tax received on fermented liquors at $1 per barrel during the first quarter of the fiscal year ended June 30, 1872, was $2,217,291 93, while the receipts from the same source during the first three months of the present fiscal year amount to $2,684,241, an increase of $466,949 07.

The average increase of about a million dollars annually during the last three fiscal years, as contrasted with the stationary character of the receipts during the four years next preceding, is certainly gratifying, but the increase during the first three months of the present fiscal year, as above stated, far exceeds that of any corresponding period in any other year since the organization of this Office.

The tax received on fermented liquors, at $1 per barrel, was, for the years—

1867	$5,819,345 49	1870	$6,081,520 54
1868	5,685,663 70	1871	7,159,740 20
1869	5,866,400 93	1872	8,009,969 72

The number of persons engaged in the manufacture of fermented liquors during the fiscal year ended June 30, 1872, was 3,421, distributed as follows: Alabama, 5; Arizona, 10; Arkansas, 1; California, 226; Colorado, 36; Connecticut, 25; Dakota, 6; Delaware, 2; District of Columbia, 15; Florida, 2; Georgia, 4; Idaho, 12; Illinois, 216; In-

diana, 169; Iowa, 171; Kansas, 46; Kentucky, 46; Louisiana, 16; Maine, 1; Maryland, 72; Massachusetts, 56; Michigan, 189; Minnesota, 114; Mississippi, 2; Missouri, 124; Montana, 36; Nebraska, 23; Nevada, 41; New Hampshire, 5; New Jersey, 83; New Mexico, 8; New York, 479; North Carolina, 1; Ohio, 288; Oregon, 31; Pennsylvania, 443; Rhode Island, 4; South Carolina, 2; Tennessee, 11; Texas, 44; Utah, 16; Vermont, 4; Virginia, 13; Washington, 14; West Virginia, 17; Wisconsin, 292.

I would recommend that sections 18 and 22 be so amended as to provide for packages known as "thirds." The act of March 2, 1867, authorized their use to accommodate brewers west of the Rocky Mountains, who are compelled to send their products from their breweries to the consumer or retailer on the backs of mules; this sized package being specially adapted to such a mode of conveyance. "Thirds" appear to have been omitted in the act of June 6, 1872, through inadvertence, and they should be restored.

The amendments made by the act of June 6, 1872, to section 59 of the act of July 20, 1868, as amended April 10, 1869, relating to the special taxes for selling spirituous and malt liquors and wines, were, it has appeared to me, intended simply to provide that, in addition to the former classes of liquor dealers, there should be two classes at a lower special tax authorized to sell malt liquors only, leaving to the former classes of liquor dealers the privilege of selling malt liquors which they previously possessed; also leaving unchanged the exemption from special tax as wholesale dealers extended to brewers who sold fermented liquors of their own production at the brewery in the original packages. Nevertheless that intention is not so clearly expressed by the language of the section as amended as is desirable in so important a provision of law.

To prevent the injustice which might be done by acting upon a more technical construction of the language used as to the several classes of liquor dealers and malt liquor dealers, I issued on the 30th of September last instructions to assessors and collectors to make assessments and collections in accordance with the above expressed view of the intentions of Congress, until I could bring the question to the attention of that body; and I also suspended the collection of all assessments which had been made contrary to that construction.

In view of this, I would respectfully recommend that the language of the section be made more explicit. I would also recommend that retail dealers in malt liquors be limited in their sales to quantities less than five gallons, and that those selling in quantities of five gallons and upwards be required to pay the wholesale dealer's tax.

TOBACCO.

The total receipts from tobacco for the fiscal year ended June 30, 1872, were $33,736,170 52. Compared with the total receipts for the fiscal year ended June 30, 1871, the following results are shown:

Year ended June 30, 1872, tobacco—chewing, &c., and snuff	$18,674,569 26
Year ended June 30, 1871, tobacco—chewing, &c., and snuff	20,677,717 84

Showing an increase in the total receipts from the manufacture and sale of tobacco in all its forms, over the receipts from the same sources for the preceding fiscal year, of $157,263 34.

ANNUAL PRODUCTION.

The quantity of manufactured tobacco represented by the collection of taxes from this source for the fiscal year ended June 30, 1872, is as follows:

	Pounds.
Of chewing tobacco, snuff, &c., class 32 cents	58,358,029
Of smoking tobacco, scraps, shorts, &c., class 16 cents	36,851,290
Exported to foreign countries	9,565,981
Excess in warehouses June 30, 1872, over June 30, 1871	2,485,555
Total product for the year	107,260,855

The number of cigars, cheroots, &c., on which taxes were collected during the last fiscal year, was 1,527,705,972.

From the above statement it will be seen that the entire product of manufactured tobacco reported for the fiscal year ended June 30, 1872, exceeds the total product of the preceding fiscal year by 1,431,892 pounds, while the aggregate quantity which reached taxation for the last fiscal year was only 73,815 pounds in excess of the quantity which reached taxation the preceding year.

During the last fiscal year the quantity of class 16 cents, or smoking tobacco, was increased by 6,333,654 pounds, while the quantity of class 32 cents, or chewing tobacco, was diminished by 6,259,839 pounds, as compared with the preceding year. This change in the relative proportions of the two classes of tobacco was owing, no doubt, in a great measure, to the agitation of the question of taxation during several

months prior to the passage of the act of June 6, 1872, which provides for a uniform rate of 20 cents per pound on all descriptions of manufactured tobacco, in lieu of a graded tax. The anticipated increase of tax on class 16 cents smoking tobacco greatly stimulated the production and sale of this grade of tobacco during the last months of the year, while the prospect of a decrease of tax on class 32 cents, or chewing tobacco, operated largely to diminish the sale or removal, except in bond, of this grade of tobacco. Since July 1, the time when the new rate of taxation took effect, the sale and removal of plug and other kinds of tobacco on which the tax was diminished has been unprecedently large, and the collections for the first quarter of the present fiscal year from tobacco are greatly in excess of those made from the same source during the same quarter for any previous fiscal year.

UNIFORM RATE OF TAX.

So far as I am able to judge, the law providing for a uniform rate of tax on all manufactured tobacco, whether chewing or smoking, is operating very satisfactorily. There is now no reason why revenue officers should examine into the modes of manufacturing tobacco employed by any one, or for opening or examining any package to ascertain the character of its contents. If the package is a legal one, and has upon it a proper revenue stamp denoting the payment of the tax, with such additional marks, brands, and labels as the law prescribes, no officer is authorized to examine it further. Owing to the disturbing causes already referred to which have affected the trade for some months past it is now too early to predict with entire certainty what will be the actual result of the present uniform tax on the amount of revenue to be collected. I have, however, reason to believe that, with the additional safe guards provided by the new law against the sale of manufactured tobacco in fraud of the revenue, and with the taxes imposed upon the sale at retail of raw or leaf tobacco for consumption without its being subjected to any process of manufacture, the collections from tobacco under the uniform rate of 20 cents a pound, which is a reduction of more than six cents a pound from the average rate for the last two fiscal years, will reach nearly if not quite the sums realized for either of the same years. In making this estimate I am relying upon making collections on from eight to ten millions of pounds more of manufactured tobacco in consequence of the restrictions which the act of June 6, 1872, has placed upon the sale, for consumption, of raw or leaf tobacco.

EXPORT BONDED WAREHOUSES AND MANUFACTURED TOBACCO IN BOND.

	Pounds.
There were remaining in store in the several export bonded warehouses on the 1st day of July, 1871	5,650,597
Placed in bond during the fiscal year ended June 30, 1872	21,194,662
Making a total of	26,845,259
There were withdrawn for export during the fiscal year ended June 30, 1872	9,565,981
Withdrawn on payment of tax during the fiscal year ended June 30, 1872	9,143,126
Making a total withdrawn during the fiscal year ended June 30, 1872	18,709,107
And leaving a balance in the warehouses July 1, 1872, of	8,136,152

By the act of June 6, 1872, the system of export bonded warehouses authorized by the act of July 20, 1868, was abolished, and the several warehouses established under said act are to be discontinued after the expiration of six months from the passage of the first named act. As the average quantity of tobacco withdrawn for export and consumption for the fiscal years ended June 30, 1871, and June 30, 1872, respectively, exceeded twenty millions of pounds, it was thought at the time of the passage of the law that six months would be ample time for the holders of tobacco then in bond, which was considerably less than eight millions of pounds, but increased after the passage of the act to the quantity given above as the balance on the 1st day of July, either to withdraw the same for export, or for sale and consumption, upon the payment of the tax. The reports received from month to month from the collectors in charge of bonded warehouses show that this quantity has been constantly diminishing, so that no great hardship will be imposed upon the owners of this tobacco by requiring them to affix stamps and withdraw the comparatively small quantity remaining in the warehouses at the expiration of the six months which the law allows for closing them out. This view of the case is especially apparent when the fact is taken into consideration that the owners of this tobacco have already had six months' credit for the taxes due on all of it, and on a considerable portion, a much longer time; and also the further fact, that these tobaccos, after having been stamped, can at any time be exported, and the owners obtain a drawback for the amount of tax which shall be shown to have been paid on them. In Baltimore the two warehouses have already been closed out by the action of the warehouse men, and I have given instructions to the different collectors under whose control the other warehouses are, to take the proper steps to close them all out immediately upon the expiration of the time fixed by law, by advertising for sale by the Government all tobacco which shall not then have been withdrawn by the owners.

The act of June 6, 1872, provides two modes for the exportation of manufactured tobacco to foreign countries. First, directly from the manufactory without the payment of any tax; and secondly, from the store or warehouse of the jobber, dealer, or commission merchant, after the tax has been paid, with an allowance of drawback on the presentation of proper evidence that the tobacco has been exported and landed in a foreign country or lost at sea. The few months that have intervened since the adoption of the new system have by no means afforded sufficient opportunity to test its practicability. Thus far, the two systems have both been in operation at the same time, the tobacco stored in warehouses being exported under the regulations in force at the time when the late act was passed, while direct exportations from the manufactories have been made under the new regulations. The two systems operating concurrently have not tended to harmony. I have seen nothing, however, as yet, which leads me to distrust the practicability and complete success of the provisions made by the act of June 6, 1872, for facilitating the exportation of tobacco to foreign countries. Any radical change in the law and regulations touching a business so varied and extensive as is the tobacco trade, requires time for persons engaged in it to accustom themselves to the alteration. For this reason such changes should be as infrequent as possible, and only made upon urgent necessity. That such a necessity existed for abolishing the old system of bonded warehouses at ports of entry, which allowed tobacco to be stored therein for home consumption as well as for export, and to be withdrawn therefrom at any time upon the payment

of the tax, few persons except those who enjoyed the privileges of such warehouses have expressed a doubt. Under the present law the credit system is entirely dispensed with, and no special privileges are given for making a monopoly of the trade in manufactured tobacco. All tobacco is required to have proper stamps affixed, indicating the payment of the tax, before it is removed from the place where it is made, except that which is intended for and actually bonded for export to a foreign country before it leaves the manufactory. This system, it is believed, will greatly widen the field for exportation, since it provides for direct shipments from any district in the country, the manufacturer filing his bonds and completing his shipping papers in his own district. It provides, also, for the shipment of tax-paid tobacco by any person who desires to export, giving him an allowance of drawback for the taxes paid; a privilege which was not allowed under the previous law. Persons having in their possession tax-paid tobacco, however badly damaged and unsalable, even to such a degree as to render it worthless for sale or consumption, can, by exporting the same, always realize therefrom an amount equal to the tax.

NEW DIES FOR CANCELLATION OF STAMPS.

Since the passage of the act of June 6, 1872, which authorizes the Commissioner of Internal Revenue to prescribe such instruments for cancelling stamps for tobacco, &c., as he and the Secretary of the Treasury may approve, a steel die for the cancellation of registered tobacco stamps has been prepared and furnished to every manufacturer of plug and fine-cut chewing tobacco in the country at the expense of the Government. This die is so constructed as to drive several portions of every stamp into the wooden package and lodge them there, so that if the stamp should be taken from the package it would be quite impossible to supply the portions thus driven into the wood to be re-used on any other package; and without the presence of the portions required to be driven into the wood, the fraud would immediately be apparent.

The use of this die is made imperative by regulations, and its operation is very generally satisfactory. With an entire re-issue of tobacco stamps, which has been made within the last year, printed on paper which the Government has made for this special use, and printed with different colored impressions, so as to preclude the possibility of counterfeiting by photography, with a more perfect cancellation effected with the new die, I am not aware that any new or additional device or contrivance of a mechanical nature is required to perfect the machinery which the Government is employing to collect the taxes on tobacco. Some additional device may be required to prevent the re-use of cigar-boxes from which the stamps have not been removed or destroyed. Should any such device hereafter be found which commends itself to the Government, there is authority given in the amended law for its adoption.

The present law relating to tobacco, though not claimed to be perfect, undoubtedly contains in its various provisions the practical results obtained from ten years of experience in internal revenue enactments. Under this law the tobacco business is believed to be safe and prosperous, while equal and ample protection is given to all. For these reasons I advise that there be no additional legislation on this subject at present.

ABSTRACT OF SEIZURES.

Seizures of property for violation of internal revenue law during the fiscal year ended June 30, 1872, were as follows:

187,619 gallons of distilled spirits, valued at	$211,544 71
9,633 barrels of fermented liquors, valued at	47,847 00
102 pounds of snuff, valued at	65 85
254,836 pounds of tobacco, valued at	72,113 76
1,181,099 cigars, valued at	18,274 87
Miscellaneous property, valued at	296,417 08
Total value of seizures	646,263 27

The following table exhibits a comparison of the receipts from all sources taxable during the last two fiscal years, not already presented in this report:

	Receipts, fiscal year 1871.	Receipts, fiscal year 1872.	Increase.	Decrease.

Adhesive stamps	15,342,739 46	16,177,320 60	834,581 14	

The increase on banks and bankers is $983,988; on gas, $258,596; and on adhesive stamps, $834,581. The decrease in the receipts of income from individuals was $6,510,961. $1,785,172 were, however, offset by the increase in the returns from corporations, so that the balance shows a total decrease of only $4,725,789. The large apparent falling off in the receipts of income from individuals is chiefly owing to a difference in the rate of tax. Of the $14,434,950, exclusive of the salary-tax returned in 1871, $10,680,967, or nearly 75 per cent. were collected at 5 per cent. under act of March 2, 1867, while the balance for that year and the whole amount for 1872 were returned under act of July 14, 1870, at 2½ per cent. Estimating 2½ per cent. on the taxable income of the two years, there is a difference of only $677,781 in favor of 1871. The collections on the annual and monthly lists of 1871 amounted to $7,625,409. The receipts to date on the lists of 1872 are slightly in excess of eight millions of dollars.

I present herewith a statement of the receipts for the first quarter of the present fiscal year, in connection with those of like character for the corresponding period of the year preceding. Returns from the following districts not having been received at the date of this report are not included in the receipts for the first quarter of the current year,

viz: Nebraska for July, August, and September; 7th Tennessee for September; 4th Texas for July, August, and September, and Utah for September.

Comparative statement showing the collections of internal revenue for the first three months of the fiscal years ending June 30, 1872 and 1873; also the increase and decrease from each source.

Articles and occupations formerly taxed but now exempt	1,262,467 90	674,666 90		587,801 00

The increase on spirits for the above period is $1,279,273; on tobacco, $481,256; on fermented liquors, $468,331; on penalties, 37,789. Total increase, $2,266,649. The falling off in receipts from banks and bankers is due to provisions in the act of June 6, 1872, one of which raises the exemption of all sums deposited in savings banks, &c., in the name of one person from $500 to $2,000, and the other exempts certain borrowed capital.

The decrease in the receipts from income is owing to the expiration of the tax by limitation with the assessment on incomes for the calendar year 1871. The receipts from stamps for the first quarter of the present fiscal year were doubtless diminished in anticipation of the repeal, October 1, ultimo, of all general stamps except those on bank checks, drafts, or orders. The receipts from sources formerly taxed, but now exempt, being collections on old lists, are of course constantly decreasing.

The receipts for the last fiscal year exceeded my estimate by $6,770,946 73.

Important changes having been made in the law by act of June 6, 1872, touching spirits and tobacco, it is impossible to state with certainty at this early day how much the receipts for the current fiscal year will be affected by the modified provisions of the law. From the best information now obtainable, I estimate that they will not fall short under the present law of $110,000,000.

CONSOLIDATION OF DISTRICTS.

The act of June 6, 1872, required the reduction of the internal revenue districts in the United States to not exceeding eighty in number, by uniting two or more districts into one; and also the reduction of the minor officers in the service to as small a number as would be consistent with their limited duties. Immediately upon the passage of this act general inquiry for information was made with a view to a prompt compliance with the law. This inquiry early developed the opinion of the leading officers in the service, whose positions rendered them impartial in the matter, that to consolidate at once would largely interfere, to the loss of the Government, with the collection of taxes from assessments under repealed laws then in the hands of collectors. These collections could only be made with dispatch and certainty by those acquainted with the special localities and circumstances of tax-payers. To avoid a much greater loss by this untimely disturbance than could possibly be compensated by the consequent reduced expenditure, temporary delay was universally advised and finally determined upon. The interim was used in pushing to a rapid close the collection of these balances. The result has justified the propriety of the delay. It was estimated that by the act of June, 1872, the whole amount of internal revenue, exclusive of the balances under repealed laws, would be about $110,000,000 per annum; while the actual receipts for the first quarter of the current fiscal year were at the rate of $135,400,000, showing several millions of dollars in excess of the estimated receipts, and this very considerably from taxes due under the repealed laws. To have violently taken the lists containing these evidences of taxation out of the hands of almost every two of three collectors and committed them to the care of the remaining one would have introduced dangerous delay in the receipts and would probably have caused large loss at last. The collections have been large, and reflect great credit upon the officers.

The act of June 6 reduced the duties of assessors and assistant assessors so as to leave but *three things*, which could not be done with equal propriety by the collectors and their deputies, two classes of officers remaining, both numerous and expensive, for a work that one class could as well do. The three duties referred to are the assessment of the *deficiency taxes on distillers*, an exceptional tax, only occasionally due, and the *data* for assessing which are always at hand from daily reports in this office. The majority of such assessments being reviewed and re-adjusted under the present system, all of them could as readily be certified from this Office to the collectors in the first instance. This would insure uniformity of adjustment, a thing almost impossible where two or three hundred unassociated minds are reading and interpreting law and regulations. Second, the *special* or license taxes, which are collected as a general rule but once (May) each year. The special tax certificates can be issued in books, as are the spirit and tobacco stamps, and charged to the collectors at their face value, crediting them (collectors) only with cash or the unused certificates returned to this Office. This system works admirably in the matter of spirits and tobacco, and can be very easily adapted to this other source of revenue. The *third*, and only remaining duty with which the collectors might not be entirely intrusted, is the tax on banks and bankers. This tax is payable but twice during each year, and is the sole remaining tax on corporations. The tax upon corporations was at one period all collected directly by this Office, at a time when it extended to railroad, insurance, canal and turnpike companies, in addition to banks and bankers. The history of this class of taxation shows that when so collected it was well collected, and the whole work done by less than fifteen clerks, at an average salary not exceeding $1,400 per annum each. If fifteen men could collect this tax when it reached $13,000,000 per annum and embraced five species under the class, all of them requiring monthly returns, it is not seen why a comparatively smaller number may not now manage one-fifth of the class, and only yielding, as estimated for the current fiscal year, $800,000 in all. It further appeared that the exceptional labor could be done in this Office without increasing its force materially, and thus enable the discharge of the entire body of assessing officers. Inasmuch as the plan of reduction under the act of June 6 only provided *absolutely* for the reduction of some two-thirds of the principal officers, (460 in all,) and left the reduction of the assistants (over 1,300) *discretionary*, it seemed to be the better plan to ask Congress to make the larger reduction and make that absolute. It is not an easy matter to put out of commission a thousand or more officers. Experience has demonstrated that nothing short of unequivocal, inexorable law can surely do it. Discretion admits of doubt and suggests delay.

In view of the great confusion and loss of revenue anticipated by a general disturbance of the collecting offices; the simplicity and security of a system which shall have but one class of officers and those all under bonds; the fact that nothing is left for the assessing class to do that cannot be done either by the collectors or this Office; and that a saving of from one to two millions per annum of expense in salaries, &c., greater than would be effected under the act of June last, can safely be anticipated, I have had prepared the outlines of a law which will give effect to the above idea. This will be presented to the proper committees of the House of Representatives and the Senate immediately upon their assemblage in December proximo. If it is the judgment of Congress that this plan is preferable to that contemplated by the act of June, I ask their early adoption of its provisions, that it may be put into operation completely by the 30th of June, 1873.

In preparing the proposed plan I have consulted freely with the leading officers now in the service, as well as with many of those who heretofore have been prominent in it. Without an exception it has met their hearty concurrence. They have commended it with a view to its simplicity, concentration of responsibility, economy, and the just expectation of the nation that no more officers shall be retained than are clearly necessary for the due enforcement of the law. In this recommendation I have not forgotten that the plan, if accepted by Congress, will bring personal inconvenience to many of the ablest and best citizens of the country, now and for years in the service; and while I express the tribute of this Office to their intelligent, faithful, and efficient discharge of important duties, I cannot but suppose that their individual loss will be largely compensated in the consciousness of a great public gain.

Respectfully,

J. W. DOUGLASS,
Commissioner.

Hon. GEORGE S. BOUTWELL,
Secretary of the Treasury.
