REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

FOR THE

FISCAL YEAR ENDED JUNE 30, 1876.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1876.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, November 27, 1876.

SIR: I have the honor to transmit herewith certain tabular statements, made up from the accounts of this office, to enable you, as required by law, to lay them before Congress, to wit:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1876.

Table B, showing the number and value of internal revenue stamps ordered monthly by the Commissioner; the receipts from the sale of stamps, and the commissions allowed thereon; also, the number and value of stamps for special taxes, tobacco, cigars, snuff, distilled spirits, and fermented liquors, issued monthly to collectors during the fiscal year ended June 30, 1876.

Table C, showing the territorial distribution of internal revenue from various sources in the United States for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, and 1876.

Table D, showing the aggregate receipts from each collection district, State, and Territory for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, and 1876.

Table E, showing the total collections from each specific source of revenue for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, and 1876.

Table F, showing the ratio of receipts from specific sources to the aggregate of all collections for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, and 1876.

Table G, showing the receipts from special taxes in each collection district, State, and Territory, for the special-tax year ended April 30, 1876.

Table H, an abstract of reports of district attorneys concerning suits and prosecutions under the internal revenue laws during the fiscal year ended June 30, 1876.

Table I, an abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1876.

The number of distilleries registered and operated during the fiscal year ended June 30, 1876, is shown in the following statement:

SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors for fiscal year 1876 were based upon the following table:

For collection of—	
$25,000 or less	$2,000
25,000 to $37,500	2,125
37,500 to 50,000	2,250
50,000 to 75,000	2,375
75,000 to 100,000	2,500
100,000 to 125,000	2,625
125,000 to 175,000	2,750
175,000 to 225,000	2,875
225,000 to 275,000	3,000
275,000 to 325,000	3,125
325,000 to 375,000	3,250
375,000 to 425,000	3,375
425,000 to 475,000	3,500
475,000 to 550,000	3,625
550,000 to 625,000	3,750
625,000 to 700,000	3,875
700,000 to 775,000	4,000
775,000 to 850,000	4,125
850,000 to 925,000	4,250
925,000 to 1,000,000	4,375
1,000,000 and upward	4,500

The recommendations made for the salaries of collectors for the current fiscal year were based upon an estimate of their probable collections according to the above scale with the qualification that if the actual collections vary from the amounts estimated, the salaries will be re-adjusted at the end of the fiscal year.

CONSOLIDATION OF COLLECTION DISTRICTS.

Upon the passage of the appropriation-act approved August 15, 1876, providing that the number of internal-revenue collection-districts should be reduced to not exceeding one hundred and thirty-one, and that said reduction should take effect on September 1, 1876, or as soon thereafter as may be practicable, the work of making such reduction was entered upon and is now about completed.

A plan for such consolidations had been sketched by my predecessor, and an estimate of the expenses of collecting the revenues based upon said plan was submitted to Congress. Upon reviewing the same, however, I found it necessary to make some important modifications, so as to preserve, as near as might be, the large collection-districts intact, and in doing so the reduction in the expenses contemplated when said estimate was made, has not been fully realized. I am satisfied, though, that the interests of the public service will be better subserved by maintaining the districts as now established, than to have consolidated a number of the large collection-districts, as contemplated in said plan.

After the consolidation was ordered by the President a careful examination was made of the subject of the expense of maintaining the consolidated districts during the current fiscal year upon a basis that would insure the greatest efficiency in the collection of the revenues with the appropriation made by Congress for that purpose. Certain recommendations were made to you for allowances for the various collection-districts of the United States, which allowances were approved by you and are now in force. It was found, however, that more time was required for collectors to execute the necessary bonds and make the requisite arrangements for transfers than was at first contemplated, and thus the expense of maintaining the districts as they existed before the act of Congress providing for the reduction, has been much greater than was expected.

It is proper to state that, as the appropriation for the pay of collectors, deputies, &c., is a good deal less than the estimates therefor, it was found necessary to reduce the pay of deputy collectors and clerks about 6 per cent. below the allowances of last year, and in some instances to reduce the number of employés in the districts. As now arranged, many deputy collectors have five or six counties under their charge. These officers are required by law and regulations to travel through their divisions from time to time, to prevent the perpetration of frauds upon the revenue, to collect the revenue, and to accumulate the necessary facts upon which assessments are made. This involves large expense, which the officer has to pay out of his salary, and which, in a majority of instances, leaves him a very small sum as net salary.

A very important question arises, whether the efficiency of the service and the collection of the revenues are not endangered by an inadequate appropriation. Persons and firms liable to pay internal-revenue taxes are constantly changing, and their number increasing, and there is a steady increase of the revenue collected, so that it becomes highly important that a liberal appropriation should be made, in order to provide that all persons liable to such taxes shall be required to pay the same; and I am satisfied that while one hundred and thirty-one collectors may superintend the business of collecting the revenue it will be the best economy to appropriate a sum sufficient to increase the force of deputies at least 10 per cent.

As soon as the accounts of the collectors of the consolidated districts are closed, I will again go over the subject of the expense for the current fiscal year, and report to you whether, in my opinion, the service can be maintained with the present appropriation.

GAUGERS AND GAUGERS' FEES.

The provisions of the appropriation-act approved August 15, 1876, dispensing with "the gauging of packages of distilled spirits filled on the premises of wholesale liquor-dealers," and providing that such packages "shall thereafter be stamped under such regulations as the Commissioner of Internal Revenue may prescribe," and also authorizing "the Secretary of the Treasury, upon the recommendation of the Commissioner of Internal Revenue, to impose the duties of storekeeper and gauger upon the same officer," have so recently become law that this office is unable now to speak definitely as to their effect upon the service.

It is clear, however, that while the provision first mentioned above will result in a very considerable saving in the amount heretofore paid as fees and expenses to the gaugers employed at wholesale liquor dealers, the addition of clerical labor thus imposed upon the collectors in the issue of wholesale liquor-dealers' stamps direct from the collector's office will doubtless, in some districts, involve some additional expense for clerical force, not considered when the estimates for expenses of collectors were prepared. While, therefore, said act reduces very considerably the expenses to be paid from the appropriation for "subordinate officers of internal revenue," it will increase the amount to be paid from the appropriation for "expenses of collectors," and form one of the reasons that may make it necessary to ask for a deficiency appropriation under that head.

The amount of the expense of maintaining storekeepers and gaugers is dependent upon the production of spirits. Such expense will diminish or increase in proportion as the production of spirits diminishes or increases; and as the production of spirits is now steadily increasing, a sufficient force of storekeepers and gaugers must necessarily be kept to properly superintend the work and protect the revenues of the Government. This expense, therefore, is not a subject of exact calculation.

The amount appropriated for this service, including pay and expenses of agents, and for miscellaneous expenses connected with the service, was one million four hundred and seventy-five thousand dollars, ($1,475,000,) being four hundred and twenty-five thousand dollars ($425,000) less than the amount actually expended for the service during the last fiscal year. Although a number of gaugers have been discharged under the act dispensing with the gauging of wholesale liquor-dealers' packages, and the offices of storekeeper and gauger have in many instances been consolidated as provided by said act, yet it is certain that there will not be a saving of four hundred and twenty-five thousand dollars ($425,000) thereby, so that it will be absolutely necessary to ask Congress for a deficiency-appropriation to maintain this service.

This subject shall receive careful attention when a greater amount of data is obtained upon which to base a calculation as to the amount of money required for this expense during the present fiscal year.

The total of the expenses of every description incident to the collection of the internal revenue for the year ending June 30, 1876, as shown by the books of the Department, is four million seven hundred and thirty-seven thousand four hundred and thirty-five dollars and eighty-four cents, ($4,737,435.84.) To this sum should properly be added certain accounts for service during that period not yet adjusted, aggregating,

it is estimated, about thirty-five thousand dollars, ($35,000,) making the entire cost of collecting the internal revenue, including expenses of the office of the Commissioner of Internal Revenue, during the year, not over four million seven hundred and seventy-five thousand dollars, ($4,775,000.) As the total collections for the year were one hundred and seventeen million two hundred and thirty-six thousand six hundred and twenty-five dollars, ($117,237,087,) the cost of collection is thus shown to be four and one-fourteenths ($4\frac{1}{14}$) cents on each dollar collected.

ASSESSMENTS.

The following table shows the assessments made by the Commissioner of Internal Revenue during the period specified:

Article or occupation.	Assessment-years.		Fiscal year.
	1875.	1876.	1876.
Tax on deficiencies in the production of distilled spirits	.....	$82,223 39	$71,577 75
Tax on excess of materials used in the production of distilled spirits	$93,124 15	24,278 82	22,203 73
Tax on deposits, capital, and circulation of banks and bankers	3,983,951 00	3,968,087 61	3,970,683 23
Distilled spirits seized or fraudulently removed	2,385,520 41	2,116,959 51	1,963,231 51
Fermented liquors removed from brewery unstamped	24,345 85	95,603 67	96,329 93
Tobacco, snuff, and cigars removed from factory unstamped	120,766 20	114,792 19	104,802 98
Proprietary articles removed from manufactory unstamped	5,228 92	9,793 38	9,811 07
Assessed penalties	331,993 02	113,686 99	116,387 12
Legacies and successions	161,145 38	138,813 51	110,927 52
Unassessed and unassessable penalties, interest, taxes previously abated, conscience money and deficiencies in bonded accounts which have been collected; also fines, penalties, and forfeitures paid to collectors by order of court or by order of Secretary, and amount of penalties and interest received for validating unstamped instruments, (Form 58)	320,408 71	402,681 54	421,475 21
Special taxes, (licenses)	214,711 48	75,245 56	85,804 31
Tax on income and dividends	588,808 10	268,497 51	217,524 98
Total	8,230,003 22	7,410,663 68	7,190,759 34

Upon comparison, it is observed that there was an increase of assessments during the year ended April 30, 1876, over those made during the year ended April 30, 1875, as follows:

On deficiencies and on excess of materials used in the production of distilled spirits	$13,378 06
On fermented liquors removed from brewery unstamped	71,257 82
Proprietary articles removed from manufactory unstamped	4,564 46
Items reported on Form 58	82,272 83

And a decrease as follows:

On deposits, capital, and circulation of banks and bankers	$15,863 39
On distilled spirits seized or fraudulently removed	268,560 90
On tobacco, snuff, and cigars, removed from factory unstamped	5,974 01
Assessed penalties	218,306 03
Legacies and successions	22,331 87
Special taxes	139,465 92
Incomes and dividends	320,310 59

The net decrease being, $819,339.54.

The great falling-off in assessments has been on incomes and dividends, spirits fraudulently removed, assessed penalties, and special taxes.

The taxes on incomes and dividends are those which have accrued under laws repealed in 1870, and the data for assessment of such taxes

have been obtained through special investigations by internal-revenue officers.

Special taxes as well as all other taxes payable by stamps are not assessed when the tax is paid at the time and in the manner required by law, and the decrease in the amount of special taxes assessed is regarded as indicating that the proportion of such taxes which were promptly paid was greater in 1876 than in 1875. In proof of the correctness of this view, attention is called to the fact that the collection of special taxes in the first month of the special-tax year 1876 was three hundred and forty-two thousand seven hundred and sixty-seven dollars and sixty-eight cents ($342,767.68) larger than the collection in the same month of the year 1875, while the collections for the two succeeding months show a considerable decrease for the year 1876, as will appear from the following statement:

Collected May, 1875	$3,304,508 43	Collected May, 1876	$3,647,276 11
June, 1875	471,192 78	June, 1876	415,709 53
July, 1875	227,962 49	July, 1876	202,990 39

The great bulk of special taxes having been promptly paid when due in 1876, the assessment of penalties was necessarily decreased, although an additional reason for this decrease is found in the fact that during the previous year the amount assessed was rendered unusually large by penalties amounting to one hundred and thirteen thousand nine hundred and fourteen dollars and fifty-six cents, ($113,914.56,) which were assessed against certain manufacturing and other corporations, as set forth in the report of the Commissioner of Internal Revenue for the fiscal year 1875. Upon reference to the same report, it will be seen that the decrease of fifteen thousand eight hundred and sixty-three dollars and thirty-nine cents ($15,863.39) on deposits, capital, and circulation of banks and bankers is more than counterbalanced by assessments made against the manufacturing associations of taxes which were due and assessable during previous years. These assessments amounted to two hundred and twenty-seven thousand seven hundred and fifteen dollars and eighty cents, ($227,715.80,) which being deducted from the total tax, three million nine hundred and eighty-three thousand nine hundred and fifty-one dollars, ($3,983,951,) leaves a balance of three million seven hundred and fifty-six thousand two hundred and thirty-five dollars and twenty cents ($3,756,235.20) tax on the current banking business of that year, or two hundred and eleven thousand eight hundred and fifty-two dollars and forty-one cents ($211,852.41) less than that assessed during the year ended April 30, 1876.

The increase of eighty-two thousand two hundred and seventy-two dollars and eighty-three cents ($82,272.83) in items reported on Form 58 is in consequence of fines, penalties, and forfeitures recovered from distillers and others engaged in the production of illicit spirits, and paid to collectors by order of the courts.

The assessments of taxes on fermented liquors are usually those which have been made under the rule adopted July 15, 1874, that one barrel of beer should be produced from every two and one-half bushels of malt, or its equivalent. Assessments of this character made during the year ended April 30, 1876, exceeded those made during the year ended April 30, 1875, by seventy-one thousand two hundred and fifty-seven dollars and eighty-two cents ($71,257.82.)

The foregoing statement shows the assessments made during the fiscal year ended June 30, 1876, as well as the assessments made during the assessment years 1875 and 1876. Previous statements have shown amounts assessed by assessment years only.

OPERATIONS AT DISTILLERY WAREHOUSES.

The following table shows the quantity of distilled spirits in taxable gallons, at seventy cents and ninety cents tax, placed in distillery warehouses, withdrawn therefrom, and remaining therein at the beginning and close of the fiscal year ended June 30, 1876.

*Including 4,273 gallons tax paid in June, 1875, (fourth district of Ohio,) and not included in report for that year.

†Including 1,502 gallons in second district of Kentucky, and 97 gallons in second district of Missouri, tax paid, during the year ended June 30, 1875, and not included in the report for that year.

Of the 184,512 gallons spirits at seventy cents remaining in bond June 30, 1876, only 278 gallons were actually in warehouse. The following statement shows the balance unaccounted for, by districts, action taken to secure the tax, &c.:

Districts.	Gallons.	Remarks.
Fourth Georgia	668	Bonds in suit.
Fifth Kentucky	2,758	Seized and sold for violation of internal-revenue laws.
Sixth Kentucky	250	Bonds in suit.
Seventh Kentucky	116,533	Ninety-four gallons actually in warehouse; bonds in suit for balance.
First Missouri	11,417	Spirits forfeited and sold by marshal; bonds in suit.
Sixth Missouri	1,545	Spirits forfeited and sold by marshal; judgment on bonds obtained.
Fourth North Carolina	184	Tax paid by order of court, and accounted for since June 30, 1876.
Fourth Ohio	25,350	Claimed to have been destroyed by fire; bonds in suit.
Eighteenth Ohio	3,496	Bonds in suit.
Twenty-third Pennsylvania	8,397	Seized by United States marshal; bonds in suit.
Fourth Tennessee	13,914	Bonds in suit; part of the spirits are reported as stolen and part as destroyed by casualties.
	184,512	

Of the spirits remaining in bond at 90 cents, 272,660 gallons were not actually in warehouse, portions having been destroyed by fire, seized, forfeited, &c., as shown in the following table:

Location.	Gallons.	Remarks.
First district, California	37,243	Seized for taxes.
Fourth district, Georgia	1,759	Bonds in suit.
First district, Illinois	41,443	Do.

EXPORTATION OF DISTILLED SPIRITS.

The quantity of distilled spirits removed from distillery-warehouses for export during the year ended June 30, 1875, was 587,413 gallons; the quantity so removed during the year ended June 30, 1876, was 1,308,900 gallons, an increase of 721,487 gallons, consisting principally of rum.

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The quantity of tobacco and snuff which had been removed in bond for exportation prior to July 1, 1875, and unaccounted for by landing-certificates on that day, is as follows:

	Pounds.
Amount removed from bonded warehouse at 20 cents tax	77,830.50
Amount removed under export-bonds at twenty cents tax	1,679,893.50
Amount removed under export-bonds at 24 cents tax	1,604,852.50
Snuff removed under export-bonds at 32 cents tax	7,284.00
Tobacco removed under transportation-bond, of which 78,067 pounds have been accounted for by clearance-certificates	244,674.00
Total removed and unaccounted for	3,614,534.50

Removed for exportation in bond during the fiscal year ended June 30, 1876:

	Pounds.
Under export-bonds at 20 cents tax	18,360.00
Under transportation-bonds at 24 cents tax	9,385,907.75
Snuff under transportation-bonds at 32 cents tax	30,217.00
Total removed from manufactories during fiscal year	9,434,484.75
Grand total	13,049,019.25

Exported during fiscal year and accounted for:

	Pounds.
Tobacco at 20 cents tax	1,157,113.00
Snuff at 32 cents tax	2,164.00
Removed under transportation-bonds at 24 cents tax	7,312,160.87
Snuff removed under transportation-bonds at 32 cents tax	30,342.00
Total accounted for	8,501,779.87

Remaining unaccounted for June 30, 1876:

	Pounds.
Tobacco removed under export-bonds at 20 cents tax	618,971.00
Tobacco removed under transportation-bonds at 24 cents tax	3,923,273.38
Snuff removed under transportation-bonds at 32 cents tax	4,995.00
Total unaccounted for	4,547,239.38
Grand total	13,049,019.25

The quantity removed from manufactories for exportation during the fiscal year ending June 30, 1876, is 255,168.67 pounds greater than that removed during the fiscal year ending June 30, 1875; and the quantity remaining unaccounted for at the close of the fiscal year 1876 is 732,704.87 pounds in excess of that remaining unaccounted for at the beginning of the year.

DRAWBACK.

The following table shows the amount of drawback of internal-revenue taxes allowed on different articles exported during the fiscal year ending June 30, 1876:

Port of export.	No. of claims.	Proprietary articles.	Tobacco.	Cigars.	Manufactured cotton.	Total.
Baltimore	13		$1,677 72			$1,677 72
Boston	63	$8,776 01	81 84			8,857 85
New York	315	18,033 40			$359 10	18,392 50
Philadelphia	14	1,237 48				1,237 48
San Francisco	4		237 64	$75 00		312 64
Suspension Bridge	2	36 29				36 29
Troy	1	32 40				32 40
Total	412	28,115 58	1,997 20	75 00	359 10	30,546 88

Total amount of drawback allowed during the fiscal year ending June 30, 1875, was twenty-eight thousand nine hundred and forty-one dollars and eighty-three cents, ($28,941.83;) showing an increase of one thousand six hundred and five dollars and five cents ($1,605.05) in the claims allowed during the past year.

TOBACCO.

The total receipts from tobacco from all sources, including special taxes upon the manufacture and sale of the same, special taxes upon raw or leaf tobacco, and from the sale of export stamps, in addition to the collections of the specific taxes imposed upon manufactured tobacco, snuff, and cigars, for the fiscal year ending June 30, 1876, were thirty-nine million seven hundred and ninety-five thousand three hundred and thirty-nine dollars and ninety-one cents ($39,795,339.91.)

A comparative statement of the receipts from these different sources for the last fiscal year with the same sources for the fiscal year ending June 30, 1875, shows the following results:

Manufactured tobacco, at 24 cents per pound	$25,689,656 09
Manufactured tobacco, at 20 cents per pound	4,656 47
Snuff, taxed at 32 cents per pound	1,061,467 64
Total for the year ended June 30, 1876	26,755,780 20
Total for the year ended June 30, 1875	25,200,759 51
Increase of collections on tobacco and snuff	1,555,020 69

The above exhibit of collections on manufactured tobacco, including snuff, for the last fiscal year, shows an increase of nearly six and two-tenths per centum over the collections of the previous fiscal year; and the increase over the collections for the fiscal year ending June 30, 1874, when the tax on manufactured tobacco, except snuff, was collected at twenty cents a pound, was four million eight hundred and sixteen thousand eight hundred and twenty-four dollars and sixty-one cents, ($4,816,824.61,) or nearly twenty-two per cent.

Limiting the comparison to manufactured tobacco, without including snuff, the percentage of increase would be still larger, being nearly six and one-half per cent. over the fiscal year ending June 30, 1875, and nearly twenty-three per cent. over the fiscal year ending June 30, 1874, when the tax was collected at twenty cents a pound.

CIGARS AND CIGARETTES.

Cigars taxed at $6 per thousand	$10,954,501 81
Cigars taxed at $5 per thousand	15,285 47
Cigarettes taxed at $1.75 per thousand	135,480 04
Cigarettes taxed at $1.50 per thousand	5 13
Total collections for year ended June 30, 1876	11,105,272 45
Total collections for year ended June 30, 1875	10,205,827 53
Increase of collections on cigars and cigarettes	899,444 92

Total increase of the year 1876 over the collections for the year ending June 30, 1874, one million seven hundred and seventy-one thousand six hundred and eighty dollars and twenty-one cents, ($1,771,680.21.)

The increase of collections on cigars and cigarettes for the last year was eight and eighty-one hundredths per cent. over the collections of the previous year, and eighteen and ninety-eight hundredths per cent., or nearly nineteen per cent., over the year ending June 30, 1874, when the tax on cigars was collected at five dollars per thousand, and on cigarettes at one dollar and a half per thousand.

OTHER COLLECTIONS.

Export stamps, year ended June 30, 1876	$6,694 30
Export stamps, year ended June 30, 1875	6,981 20
Decrease from sale of export stamps	286 90
Dealers in leaf-tobacco, year ended June 30, 1876	$112,962 96
Dealers in leaf-tobacco, year ended June 30, 1875	92,228 33
Increased collections from dealers in leaf-tobacco	20,734 63
Dealers in manufactured tobacco, year ended June 30, 1876	$1,616,318 85
Dealers in manufactured tobacco, year ended June 30 1875	1,596,460 95
Increased collections from dealers in manufactured tobacco	19,857 90
Special taxes, manufacturers of tobacco and cigars, 1876	$163,244 65
Special taxes, manufacturers of tobacco and cigars, 1875	160,554 45
Increased collections, manufacturers of tobacco and cigars	2,690 20
Special taxes, peddlers of tobacco, year ended June 30, 1876	$35,066 50
Special taxes, peddlers of tobacco, year ended June 30, 1875	40,627 91
Decrease in collections from peddlers of tobacco	5,561 41

The total increase of collections from all sources for the last fiscal year over the year immediately preceding, as shown by the foregoing figures, is two million four hundred and ninety-one thousand eight hundred and seventy-eight dollars and three cents, ($2,491,878.03,) and larger by the last-named sum than the collections for any previous fiscal year from the same source since the internal-revenue law has been in force.

PRODUCTION OF MANUFACTURED TOBACCO AND CIGARS.

Computing the number of pounds of tobacco and snuff and the number of cigars, cigarettes, &c., produced from the amounts of taxes collected on the same, and we have the following exhibit as the result:

	Pounds.
Tobacco taxed at 24 cents per pound	107,040,233.71
Tobacco taxed at 20 cents per pound	23,282.35
Total quantity of tobacco removed for consumption	107,063,516.06
Add snuff, taxed at 32 cents per pound	3,317,086.37
Total tobacco and snuff removed for consumption	110,380,602.43
Tobacco taxed at 24 cents removed for export	9,385,907.75
Snuff taxed at 32 cents removed for export	30,217
Total production of manufactured tobacco	119,796,727.18
Total production for year ended June 30, 1875	128,615,190.50
Apparent decrease in production	8,818,463 32

This apparent decrease in the production of the fiscal year ending June 30, 1876, from the production of the previous fiscal years is believed to be apparent only. The collections since the inauguration of the present stamp system, and particularly since the adoption of the uniform tax on all grades of manufactured tobacco excepting snuff, show a uniform increase in the production and sale or removal, annually, of manufactured tobacco. The large increase for the fiscal year ending June 30, 1875, was undoubtedly owing to the fact that prior to the passage of the act of March 3, 1875, which increased the tax on manufactured tobacco twenty per cent., nearly all manufactured tobacco on hand was stamped and reported. Had not the rate of tax been changed at that time, much of this stock of unstamped tobacco would have been carried forward into the next fiscal year before it was reported for taxation, and consequently would have appeared in this report as the product of the last fiscal year instead of being reported, as it was, as the product of the previous fiscal year.

The number of cigars, cigarettes, &c., on which tax was collected during the fiscal year ending June 30, 1876, including the imported cigars which paid an internal-revenue tax in addition to the import duty, was as follows:

Cigars, cheroots, &c., taxed at $5 per thousand	3,057,094
Cigars, cheroots, &c., taxed at $6 per thousand	1,825,750,302
Cigarettes taxed at $1.50 per thousand	3,420
Cigarettes taxed at $1.75 per thousand	77,417,166
Cigars and cigarettes exported	1,913,075
Total production	1,908,141,057
Year ended June 30, 1875	1,967,959,662
Decrease from previous year	59,818,605

This decrease in the number of cigars and cigarettes is undoubtedly owing to the same cause as has just been stated in regard to the production of tobacco.

In comparing the report of the previous year with this report, the large relative increase in the reported production of cigarettes, namely, from 41,297,883 to 78,289,586, including 869,000 exported, is a noticeable fact. This increased number of cigarettes will account for the fact shown in this report, that, while the entire collection of taxes from cigars and cigarettes for the last fiscal year shows an increase of about 19 per cent. over the collections for the fiscal year ending June 30, 1874, when the tax was 20 per cent. less than last year, the actual number of cigars and cigarettes produced and sold for the last fiscal year exceeds that of 1874 by about 1 per cent.

That there should have been an actual increase, both in the amount of taxes collected and in the annual production, during the last three years of financial revulsion, general depression in almost every branch of business in the country, and of almost universal shrinkage in values, is a result alike gratifying to the Government, which has derived therefrom so large an amount of its revenue, and to those interested in this important branch of industry.

In connection with this subject of tobacco, I have to call the attention of the honorable Secretary, and through him of Congress, to the several amendments and additions to the law now in force, heretofore recommended by this office, and which are incorporated into the bill reported by the honorable chairman of the Committee of Ways and Means, being House bill No. 3926. Many of these amendments and additions are admitted to be of great importance to the trade as well as to the Government, and therefore I deem it my duty to urge upon Congress action thereon at the earliest day practicable.

I would recommend, however, that the tobacco-factories authorized to be established by section 16 of said bill be called "Export tobacco-factories" instead of "Government tobacco-factories," as now contemplated by said section.

DISTILLERIES.

During the past fiscal year, the Government collected the sum of fifty-one million three hundred and ninety thousand four hundred and ninety dollars and forty-three cents ($51,390,490.43) upon distilled spirits. The greater part of these spirits were produced by six hundred and forty-seven (647) grain-distilleries. These distilleries were superintended by 1,440 storekeepers and gangers, and were located in one hundred and three (103) collection districts.

It would be quite impossible to select any other object for taxation that would produce an equal amount of revenue with so few persons to superintend its collection. It is confidently believed that the amount of taxes realized from distilled spirits will steadily increase from year to year if the business of the distilleries is not so hampered with legal restrictions as to prevent the owners from realizing a fair profit from their business. Although great frauds have heretofore been perpetrated by distillers in various parts of the country in combination with officers of the Government, yet it is believed that these fraudulent combinations are now entirely broken up, and that the past experience of those engaged in them has been so fruitful of misfortune and pecuniary disaster that there is but little probability of whisky frauds ever

reaching the gigantic proportions of a few years past with anything like reasonable surveillance on the part of the Government.

In many portions of the country, men of great experience and large means are engaged in this business, and, in my opinion, they now feel a deep interest in the prevention of frauds upon the Government in regard to its revenue from distilled spirits, and will co-operate with the Government in the prevention thereof; and I am free to say that the distillers, rectifiers, and wholesale liquor-dealers are manifesting a disposition to co-operate cordially in every effort made by this office to lessen the opportunities for fraud, and to secure the collection of the revenues due the Government.

Since entering upon the discharge of the affairs of this bureau, I have endeavored to assure the persons engaged in this business that while they will be required to conform strictly to all provisions of law and pay all taxes imposed thereby, yet, in administering the law, it would not be my object to ensnare them in its technicalities, but to give them a just and fair construction of all its provisions, so that their business could be carried forward without unnecessary restraint.

When the recent whisky frauds were discovered, this office resorted to all legal remedies for its suppression and for the punishment of the offenders.

Sixty-two (62) distilleries and rectifying-houses and other property were seized, of the estimated value of one million five hundred and thirty thousand seven hundred and forty-four dollars, ($1,530,744;) assessments were made against various distillers to the amount of one million six hundred and twenty-five thousand seven hundred and seventy-two dollars, ($1,625,772;) numerous suits were instituted upon distillery and other bonds, and for the recovery of taxes to the amount of three million two hundred and sixty-eight thousand four hundred and fourteen dollars, ($3,268,414;) and numerous indictments were preferred against three hundred and twenty one (321) persons charged with offenses.

These proceedings have been pushed from time to time during the past two years, and have been fruitful in breaking up the conspiracies to defraud the Government of its revenues, in bringing many distillers and their sureties to bankruptcy and ruin, and numerous persons to disgrace, and in the sale of a number of distilleries and rectifying houses. And, as a result of the foregoing proceedings, about five hundred thousand dollars ($500,000) have been paid into the Treasury.

Some of the distilleries and rectifying houses have been bought in by the Government, and others have remained idle since their seizure. These distilleries are now falling to ruin, and in a short time will be of little or no value. A distillery is really of little value except as a means of making spirits. When you come to convert it to any other use, the great mass of machinery and fixtures have to be torn out, and either thrown away or sold as old material. Besides, when a distillery is sold at the end of a suit for condemnation, it rarely ever brings more than 10 per cent. of its appraised value.

In view of these facts, I state as my opinion that the interests of the Government will be subserved by having all the distilleries and rectifying houses that have been bought in by the Government, and all those that are now under seizure, as soon as may be, pass into the hands of private individuals who will operate them, whereby this property will be converted into a means of producing revenue for the Government.

I will add that when the Government has acquired title to distilleries and rectifying-establishments, their care and protection constantly involve a considerable outlay of money, and there is no direct provision of law authorizing the leasing of this sort of property to be used for the purposes for which it was constructed, so that up to this time nothing has been realized by the Government for the use of distilleries or rectifying-establishments purchased at sales upon distraint, or in payment of debts arising under the laws relating to internal revenue. Property so acquired is by law placed in charge of this office, and, upon a careful examination of the statute, I have come to the conclusion that it will be competent to rent such property for short periods of time, to be used for such other purpose as the tenant may see fit to put it to; and I hope soon to be able to relieve the Government of the expense of caring for some of its property by renting it to persons who will pay a reasonable compensation for its use.

As the law now stands, distilleries and rectifying-houses acquired under decrees of forfeiture remain under the orders of the court until they are sold at public sale by United States marshals. Such of this property as has been sold has been knocked off at a low price. Much of it has been offered for sale without bidders, and now remains in the custody of United States marshals at great expense to the Government, and is also rapidly going to decay.

It seems to me that this office should be invested by law with the charge and authority over this class of property acquired by forfeiture under the laws relating to internal revenue, to the same extent as over property acquired under the same laws by distraint or in payment of debts. I would, therefore, respectfully urge the speedy enactment of the fourth section of House bill, No. 3926, before referred to, which relates to this subject.

STAMPS.

Since the last report made by my predecessor was forwarded, the plan of requiring the return of a portion of the tax-paid stamps whenever a package to which it is attached is dumped for rectification, has been found to be such a valuable preventive of fraud that it has been extended to include all stamps for rectified spirits and wholesale liquor-dealers' stamps.

These three varieties of stamps for distilled spirits are now prepared at a trifling additional cost, with a paper back affixed to each in such a way that the portion of the stamp containing all the important data can be cut therefrom and filed with the Commissioner or collector, thus furnishing conclusive evidence of the complete destruction of the stamps, (rendering its re-use impossible,) and furnishing also evidence as to the contents of the package bearing the stamp.

It is believed that this system affords the Government a very effectual protection against the perpetration of frauds in connection with the collection of the tax on distilled spirits.

Obstacles to fraud by checks against the covering of illicit spirits in rectifying establishments being thus introduced, this office turned its attention to the protection of the Government against fraud in establishments of wholesale liquor-dealers. A new form of stamp was prepared to be affixed to packages of spirits filled on the premises of a wholesale liquor-dealer. These stamps are only issued upon the receipt by the collector of a statement furnishing all the information regarding the package from which the new package is filled, which is shown by the stamps, marks, and brands thereon.

The following statement shows the number and value of internal-revenue stamps of the various kinds issued by this office to collectors of

internal revenue and purchasers of documentary and proprietary stamps during the fiscal year ending June 30, 1876, viz:

Description.	Number.	Value.
Stamps for distilled spirits	5,352,700	$64,842,160 00
Stamps for tobacco, cigars, cigarettes, and snuff	223,063,152	39,822,820 47
Stamps for fermented liquors	32,784,320	9,970,410 00

This enormous business has been conducted, I am happy to report, without the loss to the Government of a stamp.

The act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1877, provided that, from and after the passage thereof, the transmission of internal-revenue stamps to the officers of the internal-revenue service should be made through the mails of the United States in registered packages.

It is estimated that the annual cost of transporting internal-revenue stamps under the contract entered into between the Secretary of the Treasury and the Adams Express Company has been—

For transportation of stamps and coupons from this office to collectors of internal revenue	$44,000
For transportation of stamps and coupons from collectors to their deputies, and *vice versa*	5,000
For transportation of stamps and unused coupons from collectors to this office	1,000
Total	50,000

The contract included the transportation upon all established express-lines at the following schedule of rates, viz: Between any two points in the territory of the Adams Express Company, and reached by it, twenty-five cents per one thousand dollars; between any two points in the territory of the Southern Express Company, except to points within the States of Arkansas and Texas, accessible as aforesaid, thirty-five cents per one thousand dollars, (it being understood that the territory of the Southern Express Company includes the States of North and South Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee, and that part of the State of Virginia lying south of Richmond and west of Lynchburgh;) between any two points in the State of Texas, or in the State of Arkansas, or between any two points severally in those two States, respectively, reached by the lines of the Southern Express Company, in manner aforesaid, fifty cents per one thousand dollars; between any two points in the territory of another express company than the Adams and the Southern Express Companies, reached as aforesaid, thirty-five cents per one thousand dollars; between any two points, one of which is in the territory of one express company and the other within the territory of another express company, reached as aforesaid, excluding herefrom the States of Texas and Arkansas, sixty cents per one thousand dollars; between any two points, one of which is in the State of Texas or Arkansas and the other in any of the other States, eighty-five cents per one thousand dollars.

Considering the fact that many of the stamps transported under this contract were exceedingly bulky, it often happening that a package of stamps weighing thirty pounds was transported from Washington or

New York to Nebraska City, Nebr., for twenty-five cents, with absolute protection to the United States against loss, the rates would seem to have been reasonable.

Stamps shipped by express are packed in iron safes and are in charge of trusted messengers of the express company, with the same surveillance as is given to currency or the precious metals, and the Government is guaranteed against loss by the express companies. In sharp contrast to the security thus afforded is the security offered by the postal service of the country for registered packages.

The failure to furnish iron safes in which to secure registered packages, the necessity which frequently exists for throwing the mails from a car while in rapid motion, the transportation of the mails in sparsely-settled portions of the country by wagon and upon horseback, the frequent wetting of the mails when such means of transportation are resorted to, with no responsibility assumed by the Post-Office Department for safe delivery, all combine to warrant the conclusion that for safety or convenience the transportation by mail is not to be compared to that by express.

I find that I am confirmed in this opinion as to the great risk assumed in transporting stamps by mail, by two committees of the present House of Representatives.

On the 17th of March, 1876, the Committee of Claims reported upon a bill for the relief of William J. Pollock, late collector at Philadelphia, Pa., on account of certain coupons of special-tax stamps of the value of three thousand four hundred and thirty-three dollars and thirty-three cents, ($3.433.33,) which had been deposited in the post-office at Philadelphia for transmission to the Commissioner at Washington, but failed to reach their destination, that "it is not apparent why property of such valuation should have been committed to the risk of postal carriage as ordinary mail-matter.

"It occurs to your committee that common prudence dictated a safer mode of transit which existed unquestionably between Philadelphia and Washington, and at little cost, or they might have been sent by person."

The report of the committee was adverse to the passage of the bill.

July 17, 1876, the Committee of Ways and Means, to whom was referred H. R. bill 3921, being a bill for the relief of E. K. Snead, deceased, late collector first district of Virginia, on account of special-tax stamps and coupons lost while in course of transmission, by mail, from his deputy at Idaho, Va., to himself at Onancock, Va., reported favorably upon the bill, but took occasion to say in their report that "It is proper to add that the committee do not mean to sanction the transmission through the mails as proper. The danger of loss must be guarded against in each case in the mode most practicable. In this case there was no other mode for transmission, but by special messenger, as there was no express between the points."

The total value of stamps forwarded through express-lines has been about one hundred and sixty millions of dollars per annum, and while the same are in the course of transmission, either the Commissioner or collector of internal revenue, under their official bonds, are responsible to the United States, and in case of a loss of stamps while *in transitu* by mail, there is no authority conferred upon the accounting-officers of the Treasury Department to allow a credit of the value of the same to the Commissioner of Internal Revenue, if lost in transmission to collectors, or to collectors if lost in transmission to the Commissioner.

The responsible officer will thus be driven to Congress for special

legislation in each case. It is also believed that the shipment of stamps by mail affords peculiar opportunities for covering a defalcation where there is collusion between the responsible officer and an officer or agent of the postal service.

As single shipments are sometimes made of stamps amounting in value to over one million dollars, it will readily be seen that an officer of the Government might be seriously embarrassed by the loss of such a shipment, and, in the case of stamps which may be used without the signatures of internal-revenue officers, the Government might be subjected to great loss.

It frequently happens that a package of stamps which would be transported by express for 50 cents will require the attachment of official postage-stamps of the face value of perhaps $30.

The expenditure on account of official postage-stamps to be used in transporting internal-revenue stamps, coupons, and stubs of stamps by mail will, it is estimated, be over one hundred thousand dollars per annum. This amount may not be the cost to the United States, but, if the basis of compensation to railroad companies for transporting the mails is the weight of the matter transported, the addition of, say, two hundred tons in weight must, it would seem, cause an additional expense to the Government.

In view of these facts, therefore, it would seem to be worthy the serious attention of Congress whether the repeal of the statute referred to would not be conducive to the best interests of the Government.

REVENUE-AGENTS.

During the past fiscal year thirty-five persons have been employed, from time to time, as revenue-agents.

$53,944 91 have been expended for salaries, and
31,933 45 have been paid for expenses.

85,878 36 total.

I will not undertake to give a detailed statement of the services of these officers during the past year. They constitute a corps of intelligent, energetic, honest, and capable men, and have been and are of incalculable advantage to the bureau.

Since the repeal of the law authorizing the appointment of supervisors, I have deemed it expedient to subdivide the country into districts, and with this view have arranged eighteen revenue-agents' districts, and assigned one revenue agent to each district, leaving seven for other and more general duty, F. D. Sewall, one of that number, being in charge of revenue-agents, with his office in the bureau at Washington.

The duties of these agents are multifarious. They are required to visit all distilleries, breweries, and tobacco-factories in their respective districts, and see that all officers are diligently performing their duties and that the laws are strictly enforced. When ordered to do so, they make examinations of collectors' offices, and assist in the transfer of such offices where consolidations of districts or a change of collectors occur. In traveling through their districts, they are expected to detect all fraudulent practices perpetrated against the Government, and are required to report all derelictions of duty upon the part of officers of the internal revenue or persons liable to pay internal-revenue taxes. While it is true that many seizures have been made upon information obtained by revenue-agents, they are of more service for the prevention of frauds.

I regard the present force of revenue-agents as wholly inadequate for

the needs of the public service; and I have the honor to recommend that an act of Congress be passed increasing the numbers of revenue-agents from twenty-five to forty.

I would also recommend the immediate passage of House bill No. 3926, especially that provision which authorizes the Commissioner of Internal Revenue to confer upon revenue-agents the power to examine all persons, books, papers, accounts, &c., and to administer oaths, as these powers are quite essential to the proper performance of duties that are often required at their hands.

MISCELLANEOUS.

In compliance with an act of Congress, approved August 15, 1876, the number of officers, clerks, and employés in this bureau was reduced fifty-four, leaving the office-force and salaries as follows:

1 Commissioner, at	$6,000
1 deputy commissioner, at	3,200
2 heads of division, at	2,500
5 heads of division, at	2,250
1 stenographer, at	1,800
25 clerks, class four	
30 clerks, class three	
40 clerks, class two	
18 clerks, class one	
50 clerks, at	900
4 messengers	
10 laborers	

An aggregate of 187 persons.

I have estimated for the next fiscal year for

1 Commissioner, at	$6,000
1 deputy commissioner, at	3,500
7 heads of division, at	2,500
1 stenographer, at	2,000
25 clerks, class four	
35 clerks, class three	
45 clerks, class two	
18 clerks, class one	
50 clerks, at	900
5 messengers	
15 laborers	

An aggregate of 203, being an increase numerically of 16 persons, as well as an increase of the salaries of the deputy commissioner, 5 heads of division, and stenographer.

The special-tax stamps are printed by the Bureau of Engraving and Printing. All other stamps are printed in the city of New York, under contracts with the American Bank-Note Company, the National Bank-Note Company, the Continental Bank-Note Company, the Graphic Company, and John J. Crooke.

Seven persons are now engaged in that city in the superintendence of the manufacture and delivery of stamps, and a number of persons are required to receive and examine the special-tax stamps from the Bureau of Engraving and Printing. It has been the practice for some years past to pay these persons out of the appropriation "for stamps, paper, and dies;" and I found upon taking charge of this bureau nine persons performing duties at the office here in Washington who were carried on what was known as the "stamp-roll" and paid out of said appropriation. At least four of them have been and are still required to receive and examine the special-tax stamps as they are delivered to this bureau by the Bureau of Engraving and Printing. The others are

engaged upon the work of examining the stub-books returned by collectors, so as to verify their accounts.

While I am satisfied that it is perfectly legitimate to charge to the appropriation for stamps, paper, and dies the expense of superintending the work and verifying the count as the stamps are received from the printer, thus providing for eleven of the persons so employed, I have had serious doubts as to the propriety of paying from that appropriation for services rendered in keeping the stamp-accounts with collectors. The persons now employed in the examination of these stub-books and in keeping the accounts with collectors are experts in the business, and with the present force of this bureau their services cannot be dispensed with.

I will also state that, in the division of internal-revenue agents, it has been found necessary to employ six persons, who have been placed upon the work of the examination of the accounts of distillers, rectifiers, and wholesale liquor dealers, for the purpose of detecting any frauds that might exist. These persons have been paid out of the appropriation "For punishment for violating internal-revenue laws." They have been so employed for the reason that the regular force has been found insufficient for the performance of this duty.

I call your attention, and through you the attention of Congress, to these matters, for the purpose of having legislation upon this subject, if it is deemed advisable by Congress.

When an assessment is made by this bureau for unpaid taxes, the person or corporation assessed, under existing laws, has the right to file an application for the abatement of such assessment, and the Commissioner of Internal Revenue is invested with certain judicial powers for the purpose of investigating and deciding the justice or legality of such assessment.

There is no provision of law, however, for the taking of testimony for the trial of these questions, which from year to year involve very large sums of money. The practice heretofore has been, and now is, to determine these questions upon *ex-parte* affidavits. These answer a proper purpose in a large class of cases, involving small sums of money; but it often occurs that applications are made for the abatement of large assessments, which require the testimony of numerous witnesses, whose affidavits are frequently obtained without an opportunity for the cross-examination of the witnesses. This I regard as a very vicious system, and wholly unfitted for the just determination of judicial questions involving any considerable sum of money.

I therefore recommend very earnestly that Congress pass a law providing for the taking of depositions both on behalf of the Government and the tax-payer, with compulsory process for witnesses for the trial of such applications for the abatement of taxes as, in the opinion of the Commissioner of Internal Revenue, the public interests may require. The same may be said with regard to claims for the refunding of taxes alleged to have been erroneously or illegally assessed or collected.

It is believed that the Government has, in times past, been defrauded by the transportation and sale of illicit spirits in imported packages and packages manufactured in imitation of imported packages. I would, therefore, call your attention to this subject, and ask that you recommend suitable legislation to provide for stamping all packages containing wines and liquors imported into this country from foreign ports, in order to prevent the re-use of such packages and those made in imitation thereof.

Before the war, a large business was transacted on the Mississippi

River and its tributaries in what was known as "flatboats," which were navigated entirely by hand. These boats were fitted up and loaded at the various cities and towns upon the upper parts of those rivers, and often several months were occupied in legitimate trade from place to place as they descended the rivers. This business is being resumed to a considerable extent, and, while it may never reach its former proportions, will constitute a legitimate branch of trade.

Under existing laws, special licenses for the wholesale or retail of spirits and tobacco cannot be issued to persons owning such boats. I see no reason, however, why persons pursuing this sort of business should not be permitted to take out licenses in the same manner as though they were doing business on shore. I would therefore recommend that the laws be amended in this regard.

The following statement shows the withdrawal of spirits from bonded warehouses for the five years ending June 30, 1876:

	Gallons.
1872	64,914,471
1873	62,971,413
1874	64,763,700
1875	62,580,998
1876	56,989,389

It will be observed that there was a falling off in the withdrawals for the fiscal year 1876, when compared with the fiscal year 1875, of 5,591,609 gallons. It is somewhat difficult to assign a satisfactory reason for this falling off. It is believed, however, judging from the increased production of the first four months of the present fiscal year, that the withdrawals for the fiscal year ending June 30, 1877, will equal those of the year 1875.

The following table will show the daily spirit-producing capacity of the distilleries in operation for the months of July, August, September, and October of the fiscal years 1875, 1876, and 1877:

1874.		1875.		1876.	
August 1	145,667	August 1	108,411	August 1	168,963
September 1	168,180	September 1	171,009	September 1	182,580
October 1	198,561	October 1	189,883	October 1	196,156
November 1	225,539	November 1	217,458	November 1	232,659

From the above table it will be seen that the daily producing capacity of the distilleries on November 1, 1876, was 15,201 gallons in excess of that of November 1, 1875, and 7,120 gallons per day more than the producing capacity for November 1, 1874, in the fiscal year when the withdrawals from bonded warehouses amounted to 62,580,998 gallons.

From all the information received at this office in regard to the business of the distilleries, it is believed that the production for this year will equal that of the year 1875, and perhaps go beyond it.

For the months of July, August, September, and October of the current fiscal year, the receipts on account of tobacco were $14,239,749.07. while for the same months for the last fiscal year the receipts were $13,747,344.27, showing a gain of $492,404.80.

The following table shows the receipts from all sources for the months of July, August, September, and October of the current fiscal year, together with a comparison of the receipts for the same months of last year:

Aggregate receipts	37,819,029 18	38,893,764 23	1,569,292 36	494,557 31

It will be seen from this table that the aggregate gain for these four months over the corresponding months of last year is $1,074,735.05.

From a careful consideration of all these figures, I venture to express the opinion that the receipts for the current fiscal year will be $120,000,000. If no change is made in the rate of taxation, it is fair to assume that the percentage of increase of taxes for the fiscal year ending June 30, 1878, will be equal to the percentage of increase in the population of the country, and such increase of taxes might with safety be put down at $3,000,000, giving the estimated aggregate collections for the year ending June 30, 1878, at $123,000,000.

Very respectfully,

GREEN B. RAUM,
Commissioner.

Hon. LOT M. MORRILL,
Secretary of the Treasury.

*Balance of collections not reported prior to the final settlement of the collector's account.

D.—*Appendix showing the differences between the collections in the districts, States, Territories, and years below named as reported by collectors and published in the several annual reports of the Commissioner, and the true collections.*

[NOTE.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.
To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1876, add to, or subtract from, as the case may be, the collections for that district, State, or Territory in the "total" column in Table D the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.
On pages 150 and 151 the signs (+) and (−) are used to denote the amounts to be added and subtracted, respectively.]
