Forecasts Available Electronically

Forecasts from the most recent edition of this publication are also available on the IRS's web site. This site can be reached at ***www.irs.gov***. Select the "Tax Stats" link, then “Products and Publications”, and then "Projections" (under the Publications heading). IRS employees can also access this projection product on the IRWeb intranet site by selecting the “Research” link, followed by “Research, Analysis, and Statistics”, then “Publications,“ and then “Projections and Forecasting documents.”

Distribution

If you are an IRS employee and would like to receive a printed copy of this document on a continuing basis, please contact your local IMDDS coordinator and obtain the appropriate protocol for inclusion on the distribution list. All non-IRS customers, and IRS customers uncertain of their local IMDDS coordinator, can contact the Chief, Forecasting and Data Analysis at (202) 874-0831.

Calendar Year Return Projections by State
Document 6149 (Rev. 11-2010)
Washington, D.C. 2022

Overview

This 2010 edition of Document 6149 (Calendar Year Return Projections by State) provides state level forecasts of the number of tax returns to be filed in calendar years (CY) 2010 to 2017 by major form type and medium of filing. Internal Revenue Service (IRS) staff from the Office of Research, Analysis, and Statistics prepares these projections annually to reflect changes in filing patterns, economic and demographic trends, legislative requirements and IRS administrative processes. These forecasts are primarily used for resource planning and analysis at the local level. However, decisions about future workload realignment among the IRS processing campuses are made using these projections. This publication supplements the forecasts previously released in Calendar Year Projections of Individual Returns By Major Processing Categories, Document 6187 (Rev. 9-2010) and Calendar Year Return Projections for the United States and IRS Campuses, Document 6186 (Rev. 10-2010). Discussion of the major trends, the legislative and administrative initiatives embedded in the projections, and other important caveats about these forecasts can be found in those other documents.

These publications are available via the IRS website (www.irs.gov) as referenced in the inside front cover. The projections presented in this document are based on various forecasting methodologies including regression models, time series techniques, growth rates and historical ratio methods. The projection method employed depends upon the form type, the availability of historical data and applicability of relevant economic and demographic forecasts. Typically, returns are forecasted first for the United States. States are forecasted next and adjusted to the U.S. “controls”.

Data Sources and Projection Methodology

The reported actual volumes of returns filed in CY 2009 are based on returns processed and recorded on the IRS master files. With a few exceptions, these volumes are based on the same master file reporting systems as those used in the Internal Revenue Service Data Book (Publication 55B). However, master file counts were not available in a few instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located in the IRS processing campuses.

The forecasts presented in Document 6149 are based on various statistical models that capture and extrapolate historical filing trends, by each unique form type and medium of filing. Most models use time series extrapolation methods such as trended exponential smoothing approaches. However, some return types, particularly individual income tax filings, are based on regression models that use economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used by Research staff as the predictor variables are provided by IHS Global Insight (USA), Inc. Also, where historical data are limited or non-existent, such as for new e-file products, the filing pattern for a comparable return type is applied. Customers interested in obtaining

more detail on forecasting methodologies are welcome to contact the applicable staff member listed on the inside front cover.

Impact of Recent Legislative and Administrative Changes

As noted, the effects of enacted legislation and administrative plans are embedded in these projections. The more significant of these changes are discussed below.

The American Recovery and Reinvestment Act of 2009

On February 17, 2009 the American Recovery and Reinvestment Act (ARRA) of 2009 was signed into law. The consensus view in the IHS Global Insight macroeconomic forecasts was used as inputs to our return filing forecasts. Hence the forecast for CY 2009 and CY 2010 includes adjustments to reflect the estimated net impact of the downturn and the Federal response.

First-Time Homebuyer Credit

The American Recovery and Reinvestment Act (ARRA) of 2009 included expanded benefits for first-time homebuyers. The Housing and Economic Recovery Act of 2008 established a tax credit worth up to $7,500 to be repaid in the future. Under the ARRA, the credit amount for homes purchased in 2009 before December 1 is $8,000 and the credit does not have to be paid back as long as the home remains the taxpayer's primary residence for at least three years. Furthermore, first-time homebuyers could claim the credit on either a 2008 tax return or a 2009 tax return. If the home was purchased between April 16, 2009 and November 30, 2009, the taxpayer could still claim the credit on a 2008 tax return by requesting an extension of time to file (Form 4868) before the April 15th deadline or by filing an amended return (Form 1040-X). The projections in this document include adjustments to account for the estimated additional volumes in 2009, as well as some spillover volumes in 2010.

E-file Mandate

An e-file mandate on tax return preparers was introduced under the Worker, Homeowner, and Business Assistance Act which was signed into law in November 2009. The act requires preparers who expect to file more than ten individual tax returns (including forms 1040, 1040A, 1040EZ, and 1041) to file them electronically beginning in CY 2011. The current phase-in plan requires preparers to electronically file tax returns starting in CY 2011 if they expect to file more than 100 individual tax returns. The threshold drops to more than ten returns for the CY 2012 processing year. The projections in this update include our analysis of the current information available on the IRS implementation and communication plans.

Elimination of Fees to Electronically File Individual Returns

In September 2008, two major tax return preparation software companies announced that their respective desktop tax preparation software products would include free Federal e-filing, eliminating the additional fees for electronically filing the initial Federal tax returns. The development has contributed to strong growth in on-line filed returns, as well as a stronger drop in the number of computer generated paper returns in 2009.

Changes in Estate Tax

The estate tax and generation-skipping transfer taxes were scheduled to be repealed on January 1, 2010, under Title V of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). However, the estate tax repeal and all other provisions of EGTRRA are scheduled to sunset on December 31, 2010. If the sunset provision is not repealed by 2011, estate tax law would return to the law in place prior to the enactment of EGTRRA on June 7, 2001. Accordingly, the estate tax exclusion amount would rise to $1 million under the prior law. The estimates developed in this document reflect the provisions of EGTRRA. Analysts using these data are advised to monitor legislation in this area.

New Form 5500-SF

As a part of the revisions to Form 5500 series, Form 5500-SF (Short Form Annual Return/ Report of Employee Benefit Plan) was introduced to certain small pension and welfare benefit plans. Form 5500-SF is generally available to plans that 1) have fewer than 100 participants, 2) are eligible for the small plan audit waiver, 3) hold no employer securities, 4) have 100% of assets in investments that have a readily determinable fair market value, and 5) are not multiemployer plans. Most Form 5500-SF filers will not be required to file any schedules. The Form 5500-SF must be filed electronically from plan year 2009.

Changes in Form 990 series

The IRS has revised the filing requirements to file Form 990 series starting with tax year 2008 returns. Filers will be able to file the Form 990-EZ in lieu of the Form 990 if they meet the new filing requirements. For tax year 2008, organizations with gross receipts less than $1.0 million and total assets less than $2.5 million were able to file the Form 990-EZ. For the 2009 tax year, organizations with gross receipts less than $500,000 and total assets less than $1.25 million were able to file the Form 990-EZ. The Form 990-EZ filing thresholds will be adjusted permanently to gross receipts less than $200,000 and total assets less than $500,000 beginning in tax year 2010.

New Forms 8038-B, 8038-CP, and 8038-TC

The American Recovery and Reinvestment Act (ARRA) of 2009 includes provisions for Build America Bonds (BABs) to be issued in 2009 and 2010. These bonds allow state

and local governments to issue taxable bonds for capital projects and to receive a new direct federal subsidy payment from the Treasury Department for a portion of their borrowing costs. The new form 8038-B, Information Return for Build America Bonds and Recovery Zone Economic Development Bonds, must be filed by issuers of qualified BABs beginning on January 1, 2010. Issuers then file the new form 8038-CP, Credit for Qualified Bonds Allowed to Issuer, to claim the federal subsidy at each interest payment date. This edition of Document 6149 also includes projections for new form 8038-TC, Information Return for Tax Credit Bonds and Specified Tax Credit Bonds, to be filed by issuers of all tax credit bonds.

Additional Discussion of Trends and Issues in Individual Income Tax Returns

In CY 2009, the share of total electronic volumes over the grand total was around 46 percent; in CY 2010, this share is estimated to be 49 percent and steadily increases to 57 percent in 2017. Individual income tax returns make up over half of the grand total return filings in any given year. In CY 2010, the share of individual Form 1040 series filed electronically is estimated to be around 70 percent and is forecasted to reach 80 percent by 2017. Elimination of the additional fees for electronically filing Federal tax returns by the two largest desktop tax preparation software developers in CY 2009 contributed to the increase in individual e-file in CY 2009. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2010 update of IRS Document 6187, Calendar Year Projections of Individual Returns by Major Processing Categories.

Track Record of Projection Accuracy

In an effort to measure the quality of our products and services, this section, along with Table 54, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2006 through 2009, Table 54 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for gauging the overall reliability of our U.S. level return projections. The return categories considered in Table 54 consist of the following: Grand Total, Total Primary Returns, Individual (income tax) Total, Individual Estimated Tax, Fiduciary, Partnership, Corporation, Employment, Exempt Organization, and Excise. When there was sufficient data on prior forecasts, we also included selected breakouts of “paper” volumes versus “e-file/magnetic tape” filings.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE), and the number of over-projections. We also include the latest actual filing volumes for 2009 to provide perspective on the volume of returns being projected. The MAPE is computed as the average percent projection error regardless of whether they were over- or under- projections over the four most recently applicable projection cycles. The associated number of over-projections can show whether we consistently over- or under- project. A value of two indicates balanced forecasts over the four cycles.

The table groups these two measures by time horizon. The time horizon is determined by when the forecast was made and for what future year. For example, a forecast for 2003 made in 2000 would be part of the "3-years-ahead" time horizon. The table presents time horizons from one to five years ahead and factors in the most current four 6 observations. As an example, for the "3-years-ahead" information, we use the forecasts made in 2001 for 2004, those made in 2002 for 2005, those made in 2003 for 2006, and those made in 2004 for 2007.

Comments and Questions

We thank our customers for their support as we continually seek to improve our products and services wherever possible. Comments and suggestions regarding this document can be directed to Michael Sebastiani, Chief, Forecasting and Data Analysis at (202)874-0831. Questions concerning a specific tax return listed in this document may also be directed to the projections staff listed on the inside front cover. Finally, the tables contained in this document are also available electronically, as noted on the inside front cover.

2010

Table Notes

- Detail may not add to total due to rounding.

- Historical (actual) data for each state in this document have been rounded to the nearest tenth while projected volumes have been rounded to the nearest hundredth; therefore projections of 9 or fewer and 49 or fewer, respectively, were rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.

- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the "Report of Returns Posted to the IRS Master Files."

Tables 1 ~ 53

- "Grand Total" is the sum of "Total Primary Returns" and "Supplemental Documents." The "Total Primary Returns" category is the sum of all forms shown on the tables, excluding "Supplemental Documents."

- "Individual, Total" is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040-PR, and 1040-SS.

- "Forms 1040, 1040-A, and 1040-EZ" is the sum of paper and electronic Forms 1040, 1040-A, and 1040-EZ.

- The last category in the "Individual, Total" section includes the following: Form 1040-NR (U.S. Nonresident Alien Income Tax Return); Form 1040-PR (U.S. Self-Employment Tax Return--Puerto Rico); and Form 1040-SS (U.S. Self-Employment Tax Return--Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands [CNMI]). These forms are assigned to the International area.

- Various return categories, such as Form 1040-ES (Individual Estimated Tax) and other business and individual returns, include line items to account for alternative methods of tax filing (electronic and/or magnetic tape). However, due to space constraints most "paper only" breakouts were omitted in the states tables. The "paper only" components can be derived by subtracting the electronic and/or magnetic tape counts from their respective return totals.

- "Fiduciary, Form 1041, Total" includes both paper and electronic Form 1041.

- "Fiduciary Estimated Tax, Form 1041-ES" is the Estimated Income Tax for Estate and Trust.

- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms1065 and 1065-B.

- “Corporation Income Tax, Total” includes Forms 1120/1120-A (paper and electronic), 1120-F (paper and electronic), 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S (paper and electronic), and 1120-SF. Form 1120-A, U.S. Corporation Short-Form Income Tax Return, is obsolete and can no longer be filed for tax years beginning after December 31, 2006. As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining.

- “Form 1120-C” is the U.S. Income Tax Return for Cooperative Associations. This form replaced Form 990-C starting from CY 2007.

- “Form 2553” is the Election (to file Form 1120-S) by a Small Business Corporation.

- “Form 1066” is the U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return.

- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).

- “Gift, Form 709” is the United States Gift (and Generation-Skipping Transfer) Tax Return.

- “Employment, Total” includes paper, magnetic tape and electronic Forms 940, 940-EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 945, and CT-1. Form CT-2 is not included in “Employment, Total.”

- “Form 1042” is the Annual Withholding Tax Return for U.S. Source Income of Foreign Persons. This form is assigned to the International area. It is sometimes considered an employment tax return, but listed separately here.

- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically starting from CY 2008), 990-PF (paper and electronic), 990-T, 4720, and 5227.

- “Government Entities/Bonds, Total” includes Forms 8038, 8038-B, 8038-CP, 8038-G, 8038-GC, 8038-T, 8030-TC, and 8328.

- “Political Organizations, Total” includes both paper and electronic Forms 1120-POL (paper and electronic), 8871 and 8872.

- “Excise, Total” includes Forms 11-C, 720 (paper and electronic), 730, 2290 (paper and electronic) and Form 8849 (paper and electronic).

- “Form 5330” is the Return of Excise Taxes Related to Employee Benefit Plans.
- “Form 8752” is the Required Payment or Refund Under Section 7519.

“Supplemental Documents” consist mainly of applications for extensions of time to file and amended tax returns, and include Forms 1040-X, 4868 (both paper and electronic), 1120-X, 5558, 7004 (paper and electronic), and 8868 (total and electronic).

Other Projections Documents

Title	IRS Document Number	Typical Updates
