Purpose of This Package

This package contains two types of payment vouchers, one for making estimated tax payments for the 2022 tax year and another for paying the balance due on your 2021 tax return. Read the information below to see if you need to use any of the vouchers. If not, you can discard them.

Estimated tax is the method used to pay tax on income that isn't subject to withholding (for example, earnings from self-employment, interest, dividends, rents, alimony, etc.). In addition, if you don't elect voluntary withholding, you should make estimated tax payments on other taxable income, such as unemployment compensation and the taxable part of your social security benefits.

Change of name or social security number (SSN). The estimated tax payment vouchers are preprinted with your name, address, and SSN. If your name or SSN isn't correct, make

the necessary changes on the vouchers. Cross out the name and SSN of a deceased or divorced spouse.

Change of address. If your address has changed, file Form 8822 to update your record.

Form 1040-V Included in This Package

We have included Form 1040-V, Payment Voucher, and its instructions with your estimated tax payment vouchers. Use Form 1040-V when sending in a check or money order to pay any balance due shown on your 2021 Form 1040 or 1040-SR, line 37.

However, if you do not have a balance due on your 2021 tax return, discard the Form 1040-V in this package.

Don't use Form 1040-V to make any 2022 estimated tax payments.

Payments made with Form 1040-V will be credited only to your 2021 tax.

Future Developments

For the latest information about developments related to Form 1040-ES and its instructions, such as legislation enacted after they were published, go to [IRS.gov/Form1040ES](https://www.irs.gov/Form1040ES).

Who Must Make Estimated Tax Payments

The estimated tax rules apply to:

- U.S. citizens and resident aliens;
- Residents of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa; and
- Nonresident aliens (use Form 1040-ES (NR)).

If you filed a Schedule H or Schedule SE with your Form 1040 or 1040-SR for 2020, and deferred some of the household employment and/or self-employment tax payments you owe for 2020, don't use Form 1040-ES to make this payment. Instead, make this payment separate from other payments and apply the payment to the 2020 tax year where the payment was deferred. You can use Direct Pay, available only on

IRS.gov, to make the payment. Select the "balance due" reason for payment or, if paying with a debit or credit card, select "installment agreement." Go to [IRS.gov/Payments](https://www.irs.gov/Payments) to see all your payment options.

General Rule

In most cases, you must pay estimated tax for 2022 if both of the following apply.

1. You expect to owe at least \$1,000 in tax for 2022, after subtracting your withholding and refundable credits.
2. You expect your withholding and refundable credits to be less than the smaller of:
 - a. 90% of the tax to be shown on your 2022 tax return, or
 - b. 100% of the tax shown on your 2021 tax return. Your 2021 return must cover all 12 months.

Note. These percentages may be different if you are a farmer, fisherman, or higher income taxpayer. See *Special Rules*.

Exception. You don't have to pay estimated tax for 2022 if you were a U.S. citizen or resident alien for all of 2021 and you had no tax liability for the full 12-month 2021 tax year. You had no tax liability for 2021 if your total tax was zero or you didn't have to file an income tax return.

Special Rules

There are special rules for farmers, fishermen, certain household employers, and certain higher income taxpayers.

Farmers and fishermen. If at least two-thirds of your gross income for 2021 or 2022 is from farming or fishing, substitute 66 2/3% for 90% in (2a) under General Rule, earlier.

Household employers. When estimating the tax on your 2022 tax return, include your

household employment taxes if either of the following applies.

- You will have federal income tax withheld from wages, pensions, annuities, gambling winnings, or other income.
- You would be required to make estimated tax payments to avoid a penalty even if you didn't include household employment taxes when figuring your estimated tax.

Higher income taxpayers. If your adjusted gross income (AGI) for 2021 was more than \$150,000 (\$75,000 if your filing status for 2022 is married filing separately), substitute 110% for 100% in (2b) under *General Rule*, earlier. This rule doesn't apply to farmers or fishermen.

Increase Your Withholding

If you also receive salaries and wages, you may be able to avoid having to make estimated tax payments on your other income

by asking your employer to take more tax out of your earnings. To do this, file a new Form W-4, Employee's Withholding Certificate, with your employer.

Generally, if you receive a pension or annuity, you can use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments, to start or change your withholding from these payments.

You can also choose to have federal income tax withheld from certain government payments (see Form W-4V, Voluntary Withholding Request) or from nonperiodic payments and eligible rollover distributions (see Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions).

You can use the Tax Withholding Estimator at [IRS.gov/W4App](https://www.irs.gov/W4App) to determine whether you need to have your withholding increased or decreased.

Additional Information You May Need

You can find most of the information you will need in Pub. 505, Tax Withholding and Estimated Tax, and in the 2021 Instructions for Form 1040.

To download forms and publications, go to [IRS.gov/FormsPubs](https://www.irs.gov/forms-pubs).

What's New

In figuring your 2022 estimated tax, be sure to consider the following.

Standard deduction amount increased.

For 2022, the standard deduction amount has been increased for all filers. If you don't itemize your deductions, you can take the 2022 standard deduction listed in the following chart for your filing status.

IF your 2022 filing status is...	THEN your standard deduction is...
Married filing jointly or Qualifying widow(er)	\$25,900
Head of household	\$19,400
Single or Married filing separately	\$12,950

However, if you can be claimed as a dependent on another person's 2022 return, your standard deduction is the greater of:

- \$1,150, or
- Your earned income plus \$400 (up to the standard deduction amount).

Your standard deduction is increased by the following amount if, at the end of 2022, you are:

- An unmarried individual (single or head of household) and are:

65 or older or blind \$1,750

65 or older and blind \$3,500

- A married individual (filing jointly or separately) or a qualifying widow(er) and are:

65 or older or blind \$1,400

65 or older and blind \$2,800

Both spouses 65 or older \$2,800*

Both spouses 65 or older and blind
..... \$5,600*

* Only if married filing jointly. If married filing separately, these amounts do not apply.

Your standard deduction is zero if (a) your spouse itemizes on a separate return, or (b) you were a dual-status alien and

you don't elect to be taxed as a resident alien for 2022.

Social security tax. For 2022, the maximum amount of earned income (wages and net earnings from self-employment) subject to the social security tax is \$147,000.

Adoption credit or exclusion. For 2022, the maximum adoption credit or exclusion for employer-provided adoption benefits has increased to \$14,890. In order to claim either the credit or exclusion, your modified adjusted gross income must be less than \$263,410.

Reminders

Individual taxpayer identification number (ITIN) renewal. If you were assigned an ITIN before January 1, 2013, or if you have an ITIN that you haven't included on a tax return in the last 3 consecutive years, you may need to renew it. For more

information, see the Instructions for Form W-7.

Advance payments of the premium tax credit. If you buy health care insurance through the Health Insurance Marketplace, you may be eligible for advance payments of the premium tax credit to help pay for your insurance coverage. Receiving too little or too much in advance will affect your refund or balance due. Promptly report changes in your income or family size to your Marketplace. See Form 8962 and its instructions for more information.

Access your online account (individual taxpayers only). Go to [IRS.gov/Account](https://www.irs.gov/Account) to securely access information about your federal tax account.

- View the amount you owe and a breakdown by tax year.
- See payment plan details or apply for a new payment plan.

- Make a payment, view 5 years of payment history and any pending or scheduled payments.
- Access your tax records, including key data from your most recent tax return, your economic impact payment amounts, and transcripts.
- View digital copies of select notices from the IRS.
- Approve or reject authorization requests from tax professionals.
- Update your address or manage your communication preferences.

How To Figure Your Estimated Tax

You will need:

- The [2022 Estimated Tax Worksheet](#), later;
- The [*Instructions for the 2022 Estimated Tax Worksheet*](#);

- The [2022 Tax Rate Schedules](#); and
- Your 2021 tax return and instructions to use as a guide to figuring your income, deductions, and credits (but be sure to consider the items listed under [What's New](#), earlier).

Matching estimated tax payments to income. If you receive your income unevenly throughout the year (for example, because you operate your business on a seasonal basis or you have a large capital gain late in the year), you may be able to lower or eliminate the amount of your required estimated tax payment for one or more periods by using the annualized income installment method. See chapter 2 of Pub. 505 for details.

Changing your estimated tax. To amend or correct your estimated tax, see *How To Amend Estimated Tax Payments*, later.

You can't make joint estimated tax payments if you or your spouse is a nonresident alien, you are separated under a decree of divorce or separate maintenance, or you and your spouse have different tax years.

Additionally, individuals who are in registered domestic partnerships, civil unions, or other similar formal relationships that aren't marriages under state law cannot make joint estimated tax payments. These individuals can take credit only for the estimated tax payments that they made.

Payment Due Dates

You can pay all of your estimated tax by April 18, 2022, or in four equal amounts by the dates shown below.

1st payment April 18, 2022

2nd payment June 15, 2022

3rd payment Sept. 15, 2022

4th payment..... Jan. 17, 2023*

* You do not have to make the payment due January 17, 2023, if you file your 2022 tax return by January 31, 2023, and pay the entire balance due with your return.

If you mail your payment and it is postmarked by the due date, the date of the U.S. postmark is considered the date of payment. If your payments are late or you didn't pay enough, you may be charged a penalty for underpaying your tax. See *When a Penalty Is Applied*, later.

You can make more than four estimated tax payments. To do so, make a copy of one of your unused estimated tax payment vouchers, fill it in, and mail it with your payment. If you make more than four payments, to avoid a penalty make sure the total of the amounts you pay during a payment period is at least as much as the amount required to be paid by the due date

for that period. For other payment methods, see How To Pay Estimated Tax, later.

No income subject to estimated tax during first payment period. If, after March 31, 2022, you have a large change in income, deductions, additional taxes, or credits that requires you to start making estimated tax payments, you should figure the amount of your estimated tax payments by using the annualized income installment method, explained in chapter 2 of Pub. 505. If you use the annualized income installment method, file Form 2210, Underpayment of Estimated Tax by Individuals, Estates, and Trusts, including Schedule AI, with your 2022 tax return even if no penalty is owed.

Farmers and fishermen. If at least two-thirds of your gross income for 2021 or 2022 is from farming or fishing, you can do one of the following.

- Pay all of your estimated tax by January 17, 2023.

- File your 2022 Form 1040 or 1040-SR by March 1, 2023, and pay the total tax due. In this case, 2022 estimated tax payments aren't required to avoid a penalty.

Fiscal year taxpayers. You are on a fiscal year if your 12-month tax period ends on any day except December 31. Due dates for fiscal year taxpayers are the 15th day of the 4th, 6th, and 9th months of your current fiscal year and the 1st month of the following fiscal year. If any payment date falls on a Saturday, Sunday, or legal holiday, use the next business day.

Name Change

If you changed your name because of marriage, divorce, etc., and you made estimated tax payments using your former name, attach a statement to the front of your 2022 paper tax return. On the statement, show all of the estimated tax payments you

(and your spouse if filing jointly) made for 2022 and the name(s) and SSN(s) under which you made the payments.

Be sure to report the change to your local Social Security Administration office before filing your 2022 tax return. This prevents delays in processing your return and issuing refunds. It also safeguards your future social security benefits. For more details, call the Social Security Administration at 800-772-1213 (TTY/TDD 800-325-0778).

How To Amend Estimated Tax Payments

To change or amend your estimated tax payments, refigure your total estimated tax payments due (see the 2022 Estimated Tax Worksheet). Then, to figure the payment due for each remaining payment period, see *Amended estimated tax* in chapter 2 of Pub. 505. If an estimated tax payment for a previous period is less than one-fourth of your

amended estimated tax, you may owe a penalty when you file your return.

When a Penalty Is Applied

In some cases, you may owe a penalty when you file your return. The penalty is imposed on each underpayment for the number of days it remains unpaid. A penalty may be applied if you didn't pay enough estimated tax for the year or you didn't make the payments on time or in the required amount. A penalty may apply even if you have an overpayment on your tax return.

The penalty may be waived under certain conditions. See Form 2210 for details.

How To Pay Estimated Tax

Pay Online

Paying online is convenient and secure and helps make sure we get your payments on time. To pay your taxes online or for more

information, go to [IRS.gov/Payments](https://www.irs.gov/Payments). You can pay using any of the following methods.

Once you are issued an SSN, use it when paying your estimated taxes online. Use your SSN even if your SSN does not authorize employment or if you have been issued an SSN that authorizes employment and you lose your employment authorization. An ITIN will not be issued to you once you have been issued an SSN. If you received your SSN after previously using an ITIN, stop using your ITIN. Use your SSN instead.

Pay by Cash

Cash is an in-person payment option for individuals provided through retail partners with a maximum of \$1,000 per day per transaction. To make a cash payment, you must first be registered online at fed.acipayonline.com, our official payment

provider. Don't send cash payments through the mail.

Pay by Check or Money Order Using the Estimated Tax Payment Voucher

Before submitting a payment through the mail using the estimated tax payment voucher, please consider alternative methods. One of our safe, quick, and easy online payment options might be right for you.

If you choose to mail in your payment, there is a separate estimated tax payment voucher for each due date. The due date is shown in the upper right corner. Complete and send in the voucher only if you are making a payment by check or money order. If you and your spouse plan to file separate returns, file separate vouchers instead of a joint voucher.

To complete the voucher, do the following.

- Enter in the box provided on the estimated tax payment voucher only the amount you are sending in by check or money order. When making payments of estimated tax, be sure to take into account any 2021 overpayment that you choose to credit against your 2022 tax, but don't include the overpayment amount in this box.
- Make your check or money order payable to "United States Treasury." Don't send cash. To help process your payment accurately, enter the amount on the right side of the check like this: \$XXX.XX. Don't use dashes or lines (for example, do not enter "\$XXX—" or "\$XXX xx/100").
- Enter "2022 Form 1040-ES" and your SSN on your check or money order. If you are filing a joint estimated tax payment voucher, enter the SSN that you will show first on your joint return.

- Enclose, but don't staple or attach, your payment with the estimated tax payment voucher.

Notice to taxpayers presenting checks.

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment, and you will not receive your check back from your financial institution.

No checks of \$100 million or more accepted. The IRS can't accept a single check (including a cashier's check) for amounts of \$100,000,000 (\$100 million) or more. If you are sending \$100 million or more by check, you'll need to spread the payment over 2 or more checks with each check made

out for an amount less than \$100 million. This limit doesn't apply to other methods of payment (such as electronic payments). Please consider a method of payment other than check if the amount of the payment is over \$100 million.

Where To File Your Estimated Tax Payment Voucher

Mail your estimated tax payment voucher and check or money order to the address printed on the right-hand side of the voucher. Use the window envelopes that were included with the vouchers. Don't mail your tax return to this address. Also, don't mail your estimated tax payments to the address shown in the Instructions for Form 1040.

Only the U.S. Postal Service can deliver to P.O. boxes. Therefore, you can't use a private delivery service to make estimated tax payments required to be sent to a P.O. box.

Note. Residents of Guam and the U.S. Virgin Islands, mail your payment and voucher to the applicable address, shown next.

Instructions for the 2022 Estimated Tax Worksheet

Line 1. Adjusted gross income. When figuring the adjusted gross income you expect in 2022, be sure to consider the items listed under *What's New*, earlier. For more details on figuring your AGI, see Expected AGI—Line 1 in chapter 2 of Pub. 505.

If you are self-employed, be sure to take into account the deduction for self-employment tax. Use the 2022 Self-Employment Tax and Deduction Worksheet for Lines 1 and 9 of the Estimated Tax Worksheet to figure the amount to subtract when figuring your expected AGI. This worksheet will also give you the amount to enter on line 9 of your estimated tax worksheet.

Line 7. Credits. See the 2021 Form 1040 or 1040-SR, line 19, and Schedule 3 (Form 1040), lines 1 through 6z, and the related instructions for the types of credits allowed.

Line 9. Self-employment tax. If you and your spouse make joint estimated tax payments and both of you have self-employment income, figure the self-employment tax for each of you separately. Enter the total on line 9. When estimating your 2022 net earnings from self-employment, be sure to use only 92.35% (0.9235) of your total net profit from self-employment.

Line 10. Other taxes. Use the 2021 Instructions for Form 1040 to determine if you expect to owe, for 2022, any of the taxes that would have been entered on your 2021 Schedule 2 (Form 1040), lines 8 through 12 and 14 through 17z (see *Exception 2*, later). On line 10, enter the total of those taxes, subject to the following two exceptions.

Exception 1. Include household employment taxes from Schedule 2 (Form 1040), line 9, on this line only if:

- You will have federal income tax withheld from wages, pensions, annuities, gambling winnings, or other income; or
- You would be required to make estimated tax payments (to avoid a penalty) even if you didn't include household employment taxes when figuring your estimated tax.

If you meet either of the above, include the total of your household employment taxes on line 10.

Exception 2. Because the following taxes are not required to be paid until the due date of your income tax return (not including extensions), do not include them on line 10.

- Uncollected social security and Medicare or RRTA tax on tips or group-term life insurance (Schedule 2, line 13),
- Recapture of federal mortgage subsidy (Schedule 2, line 17b),

- Excise tax on excess golden parachute payments (Schedule 2, line 17k),
- Excise tax on insider stock compensation from an expatriated corporation (Schedule 2, line 17m), and
- Look-back interest under section 167(g) or 460(b) (Schedule 2, line 17n).

Additional Medicare Tax. For information about the Additional Medicare Tax, see the Instructions for Form 8959.

Net Investment Income Tax (NIIT). For information about the Net Investment Income Tax, see the Instructions for Form 8960.

Repayment of first-time homebuyer credit. You must repay the first-time homebuyer credit if you bought the home in 2008.

For details about repaying the first-time homebuyer credit, see the Instructions for Form 5405.

Line 12b. Prior year's tax. Enter the 2021 tax you figure according to the instructions in *Figuring your 2021 tax* unless you meet one of the following exceptions.

- If the AGI shown on your 2021 return is more than \$150,000 (\$75,000 if married filing separately for 2022), enter 110% of your 2021 tax as figured next.

Note. This doesn't apply to farmers or fishermen.

- If you will file a joint return for 2022 but you didn't file a joint return for 2021, add the tax shown on your 2021 return to the tax shown on your spouse's 2021 return and enter the total on line 12b.
- If you filed a joint return for 2021 but you will not file a joint return for 2022, first figure the tax both you and your spouse would have paid had you filed separate returns for 2021 using the same filing status as for 2022, then multiply the tax

on the joint return by (The tax you would have paid had you filed a separate return / The total tax you and your spouse would have paid had you filed separate returns). This is your share of the 2021 tax to enter on line 12b.

- If you didn't file a return for 2021 or your 2021 tax year was less than 12 full months, don't complete line 12b. Instead, enter the amount from line 12a on line 12c.

Figuring your 2021 tax. Use the following instructions to figure your 2021 tax. The tax shown on your 2021 Form 1040 or 1040-SR is the amount on Form 1040 or 1040-SR, line 24, **reduced** by:

1. Unreported social security and Medicare tax or RRTA tax from Schedule 2 (Form 1040), lines 5 and 6;

2. Any tax included on Schedule 2 (Form 1040), line 8, on excess contributions to an IRA, Archer MSA, Coverdell education savings account, health savings account, and ABLE account, or on excess accumulations in qualified retirement plans;
3. Amounts on Schedule 2 (Form 1040), as listed under *Exception 2*, earlier; and
4. Any refundable credit amounts on Form 1040 or 1040-SR, lines 27a, 28, 29, and 30, and Schedule 3 (Form 1040), lines 9, 12, 13b, 13c, 13d, 13g, and 13h.
