Date of Approval: September 09, 2022

PIA ID Number: 7228

SYSTEM DESCRIPTION

Enter the full name and acronym for the system, project, application and/or database.

System 7.3 ACA Data Mart, Sys 7.3 ACA Data Mart

Is this a new system?

No

Is there a PCLIA for this system?

Yes

What is the full name, acronym, and milestone of the most recent PCLIA?

System 7.3 Affordable Care Act (ACA) Data Mart, PCIA # 4395

What is the approval date of the most recent PCLIA?

9/27/2019

Changes that occurred to require this update:

Expiring PCLIA

Were there other system changes not listed above?

No

What governance board or Executive Steering Committee (ESC) does this system report to? Full name and acronym.

Application Development (AD) Data Delivery Services (DDS) Governance Board (GB)-AD:DDS:GB

Current ELC (Enterprise Life Cycle) Milestones:

Operations & Maintenance (i.e., system is currently operational)

Is this a Federal Information Security Management Act (FISMA) reportable system?

GENERAL BUSINESS PURPOSE

What is the general business purpose of this system? Provide a clear, concise description of the system, application or database, the reason for the system, and the benefits to the IRS to use the information, and how the information will be used.

Data Analytics supports the Internal Revenue Service (IRS) legislatively mandated implementation of the Affordable Care Act (ACA), the Information Technology (IT) and Application Development (AD) goals. Data Analytics primary focus is to support the ACA. Data Analytics includes analyzing and performing statistical or business operational reporting on the taxpayer, marketplace, issuer, employer, and waiver / extension requestor related data. For optimized reporting and analysis, ACA information will be collected from various sources and organized into System 7.3 - ACA Data Mart.

PII DETAILS

Does the system use, collect, receive, display, store, maintain, or disseminate IR Code 6103 taxpayer information: or any other type of Sensitive but Unclassified (SBU) information or PII such as information about IRS employees or outside stakeholders?

Yes

Does the system use, collect, receive, display, store, maintain, or disseminate Social Security Numbers (SSN's) or tax identification numbers (i.e., last 4 digits, etc.)?

Yes

What types of tax identification numbers (TIN) apply to this system?

Social Security Number (SSN)

List the approved Treasury uses of the SSN:

Legal/statutory basis (e.g., where collection is expressly required by statute)

When there is no reasonable alternative means for meeting business requirements

Statistical and other research purposes

Explain why the authorized use(s) above support the new or continued use of SSNs (or tax identification numbers).

SSNs are provisioned for Business Units (BU) access to accomplish their compliance related activities.

Describe the planned mitigation strategy and forecasted implementation date to mitigate or eliminate the use of SSN's (or tax identification numbers).

The Office of Management and Budget Circular A-130 requires that federal agencies develop a mitigation or elimination strategy for systems that use SSNs, which the Service continues to develop strategies to meet. An exception to that requirement is when the SSN is uniquely needed to identify a user's record. System 7.3 ACA Data Mart requires the use of SSN's because no other identifier can be used to uniquely identify a taxpayer at this time. SSNs are permissible from Internal Revenue Code (IRC) 6109, which requires individual taxpayers to include their SSNs on their income tax returns.

Employer Identification Number

Other Taxpayer Identification Number

Does this system use, collect, receive, display, store, maintain or disseminate other (non-SSN) PII (i.e., names, addresses, etc.)?

Yes

Specify the PII Elements:

Name Mailing Address Phone Numbers Date of Birth Tax Account Information

Does this system use, collect, receive, display, store, maintain, or disseminate SBU information that is not PII?

Yes

Specify the types of SBU from the SBU Types List:

Agency Sensitive Information Information which if improperly used or disclosed could adversely affect the ability of the agency to accomplish its mission.

Protected Information Information which if modified, destroyed, or disclosed in an unauthorized manner could cause loss of life, loss of property or funds by unlawful means, violation of personal privacy or civil rights, gaining of an unfair procurement advantage by contractors bidding on government contracts, or disclosure of proprietary information entrusted to the Government.

Are there other types of SBU/PII used in the system?

Yes

Describe the other types of SBU/PII that are applicable to this system.

Document Locator Number, Transmitter Control Code, and Individual Date of Death

Cite the authority for collecting SBU/PII (including SSN if relevant).

PII for federal tax administration is generally Internal Revenue Code Sections 6001, 6011, & 6012e(a)

SSN for tax returns and return information is Internal Revenue Code Section 6109

Has the authority been verified with the system owner?

Yes

BUSINESS NEEDS AND ACCURACY

Explain the detailed business needs and uses for the SBU/PII, and how the SBU/PII is limited only to that which is relevant and necessary to meet the mission requirements of the system. If SSNs (or tax identification numbers) are used, explicitly explain why use of SSNs meets this criteria. Be specific.

The SSN is used to evaluate and determine shared responsibility payment related to Premium Tax Credit. The date of birth, date of death, mailing address and individual name are used to establish identity when an SSN is not provided. The EIN is used to evaluate employers and establish whether they have met their responsibility for providing medical coverage to individuals employed by them.

How is the SBU/PII verified for accuracy, timeliness, and completion?

The information is received from internal IRS systems which contain internal consistency checks. The information has been validated for accuracy by the system sending the data and has been deemed reliable.

PRIVACY ACT AND SYSTEM OF RECORDS

The Privacy Act requires Federal agencies that maintain a system of records to publish systems of records notices (SORNs) in the Federal Register for records from which information is retrieved by any personal identifier for an individual who is a US citizen, or an alien lawfully admitted for permanent residence. The Privacy Act also provides for criminal penalties for intentional noncompliance.

Does your application or this PCLIA system pertain to a group of any record from which information is retrieved by any personal identifier for an individual who is a US citizen, or an alien lawfully admitted for permanent residence? An identifier may be a symbol, voiceprint, SEID, or other personal identifier that is used to retrieve information.

Identify the Privacy Act SORN(s) that cover these records.

IRS 42.021 Compliance Programs and Projects Files

IRS 34.037 Audit Trail and Security Records

RESPONSIBLE PARTIES

Identify the individuals for the following system roles:

Official Use Only

INCOMING PII INTERFACES

Does the system receive SBU/PII from other systems or agencies?

Yes

Does the system receive SBU/PII from IRS files and databases?

Yes

Enter the files and databases:

System Name: ACA Compliance Validation (ACV) Correlation

Current PCLIA: Yes Approval Date: 5/19/2021

SA&A: No

System Name: Integrated Production Model IPM R12

Current PCLIA: Yes Approval Date: 6/6/2019

SA&A: No

Does the system receive SBU/PII from other federal agency or agencies?

No

Does the system receive SBU/PII from State or local agency (-ies)?

No

Does the system receive SBU/PII from other sources?

Does the system receive SBU/PII from Taxpayer forms? No Does the system receive SBU/PII from Employee forms (e.g., the I-9)? No **DISSEMINATION OF PII** Does this system disseminate SBU/PII? No PRIVACY SENSITIVE TECHNOLOGY Does this system use social media channels? No Does this system use privacy-sensitive technologies such as mobile, global position system (GPS), biometrics, RFID, etc.? No Does the system use cloud computing? No

Does this system/application interact with the public?

No

INDIVIDUAL NOTICE AND CONSENT

Was/is notice provided to the individual prior to collection of information?

Yes

How is notice provided? Was the individual notified about the authority to collect the information, whether disclosure is mandatory or voluntary, the purpose for which the information will be used, with whom the information may be shared, and the effects on the individual, if any, if they decide not to provide all or any of the requested information?

This system does not collect any information directly from taxpayers. PII information is received from the Integrated Production Model (IPM), and the ACA Compliance Validation (ACV) Correlation whose information comes from the submission of tax returns submitted directly to the IRS through other internal IRS systems. The IRS notifies all individuals who

file tax returns of such collection via the Privacy Act Notice which provides the legal right to ask for information under Internal Revenue Code sections 6001, 6011, and 6012(a), and their regulations. Under these sections, response is mandatory. Code section 6109 requires the individual provide an identifying number.

Do individuals have the opportunity to decline from providing information and/or from consenting to particular uses of the information?

No

Why not?

Information is received downstream and used for analysis purposes only. The information is collected while carrying out the Internal Revenue laws of the United States; an individual cannot decline providing the information.

How does the system or business process ensure 'due process' regarding information access, correction, and redress?

Publication 1 "Your Rights as a Taxpayer" explains the rights of the taxpayer, which includes the right to challenge the IRS' position and be heard; and the right to appeal an IRS decision in an independent forum.

INFORMATION PROTECTION

Identify the owner and operator of the system (could be IRS owned and operated; IRS owned, contractor operated; contractor owned and operated).

IRS Owned and Operated

The following people have access to the system with the specified rights:

IRS Employees

Users: Read Only

Managers: Read Only

System Administrators: Administrator

Developers: Read Only

IRS Contractor Employees

Contractor Users: Read Only

Contractor System Administrators: Read Only

Contractor Developers: Read Only

How is access to SBU/PII determined and by whom?

Access to the System 7.3 ACA Data Mart is requested via the Business Entitlement Access Request System (BEARS), along with a completed and signed SBU Form. Access is granted on a need-to-know basis. The enrollment process requires that an authorized manager approve access requests on a case-by-case basis. Access approval is based on the Users role(s) and responsibilities. Users are given the minimum set of privileges required to perform their regular and recurring work assignments; they are restricted from changing the boundaries of their access without management approval. The employee's access will be terminated once they no longer require access. Deletion from the active access role is also performed through BEARS.

RECORDS RETENTION SCHEDULE

Are these records covered under a General Records Schedule (GRS, IRS Document 12829), or has the National Archives and Records Administration (NARA) approved a Records Control Schedule (RCS, IRS Document 12990) for the retention and destruction of official agency records stored in this system?

Yes

How long are the records required to be held under the corresponding GRS or RCS, and how are they disposed of? In your response, please provide the GRS or RCS chapter number, the specific item number, and records series title.

Sys 7.3 can be covered under Doc.12829, The General Records Schedule 4.3, item 020 because it is relying on extracted data from other repositories. Several of the data supplying repositories are scheduled; Individual Master File (IMF) (RCS 29, Item 203), Business Master File (BMF) (RCS 29, Item 201), Payer Master File (PMF) (RCS 19, Item 64a). One of the data supplying repositories is unscheduled, Coverage Data Repository (CDR). The IRS Records and Information Management (RIM) Program Office will work with the system owner of CDR on a request for records disposition authority. When approved by National Archives and Records Administration (NARA), disposition instructions for CDR inputs, system data, outputs, and system documentation will be published within the Internal Revenue Manual (IRM) or as part of the Records Control Schedule. When finalized, the Business Unit is proposing to retain data in Business Analytics (BA) as per business requirement: Information Returns Database (IRDB) six years, IMF/BMF/Individual Return Transaction File (IRTF) three years, PMF six years, CDR three years.

SA&A OR ASCA

Has the system been through SA&A (Security Assessment and Authorization) or ASCA (Annual Security Control Assessment)?

No

Is the system secured in accordance with all applicable federal, treasury, and IRS security policy, procedures, and requirements?

Yes

Describe the system's audit trail.

Audit capabilities are inherited from the underlying infrastructure components such as Enterprise Business Intelligence Platform (Business Objects and Tableau), Big Data Analytics (BDA), and Enterprise Informatica Platform BDA.

PRIVACY TESTING

Does the system require a System Test Plan?

Yes

Is the test plan completed?

Yes

Where are the test results stored (or documentation that validation has occurred confirming that requirements have been met)?

The test results are stored on an IRS SharePoint site collection.

Were all the Privacy Requirements successfully tested?

Yes

Are there any residual system privacy, civil liberties, and/or security risks identified that need to be resolved?

No

Describe what testing and validation activities have been conducted or are in progress to verify and validate that the applicable Privacy Requirements (listed in header) have been met?

Information Sharing Reporting - Analytics & Reporting ISR-A&R, like other IRS systems, has to conduct a series of tests to validate the system configuration. Data accuracy is not only

a requirement of the IRS principles; it is part of the Privacy Act and Federal Taxpayer Information protection laws and regulations. In order to protect taxpayer information, the recommendation is to use sanitized data, when possible, in order to reduce the risk of PII being seen by individuals without a need-to-know and creating an incident. The IRS has established Internal Revenue Manual (IRM) 10.8.8.

SBU DATA USE

Does this system use, or plan to use SBU Data in Testing?

No

NUMBER AND CATEGORY OF PII RECORDS

Identify the number of individual records in the system for each category:

IRS Employees: Not Applicable

Contractors: Not Applicable

Members of the Public: More than 1,000,000

Other: No

CIVIL LIBERTIES

Does the system maintain any information describing how any individual exercises their rights guaranteed by the First Amendment?

No

Is the system information used to conduct 'data-mining' as defined in the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, Section 804?

No

Will this system have the capability to identify, locate, and monitor individuals or groups of people?

No

Does computer matching occur?

ACCOUNTING OF DISCLOSURES

Does the system include or require disclosure of tax or employee information to anyone other than IRS employees in the performance of their duties, or to the person to whom the information pertains or to a 3rd party pursuant to a Power of Attorney, tax, or Privacy Act consent?
