## Letter from the Commissioner

I am proud to present the *2009 Internal Revenue Service Data Book*, which details IRS activities from October 1, 2008, through September 30, 2009, and catalogs the enormous achievements of our dedicated employees.

During Fiscal Year 2009, the IRS processed more than 236 million returns, provided nearly 127 million refunds, and collected over 2.3 trillion dollars for the Federal Government. We provided taxpayer assistance through over 296 million visits to IRS.gov and nearly 68 million phone calls. Of the 144 million individual income tax returns processed, 66 percent were filed electronically.

In 2009, the IRS adapted to challenging situations, providing tangible relief to taxpayers when they needed it most and helping to energize the economy through our implementation of the tax portions of the American Recovery and Reinvestment Act (ARRA)—the President's blueprint for rebuilding America. With so many Americans facing difficult times, we had to get relief and guidance out in record time. Under ARRA, the IRS provided a number of tax credits, such as the new Making Work Pay credit and the extended first-time homebuyers credit. Over 479,000 first-time homebuyers received tax credits for homes purchased between January 1, 2009, and September 30, 2009.

And we didn't forget America's businesses struggling in the distressed economy. In March, the IRS helped businesses whose deductions exceeded their incomes in 2008 to use a new net operating loss tax provision to get an expedited refund. We also administered the expanded COBRA health care coverage provisions for employees who lost their jobs.

International tax issues were an important priority in 2009. Through our Voluntary Disclosure program, 15,000 American taxpayers came back into the system. We are serious about our International efforts and have the resolve to put a big dent in offshore tax evasion.

We are also focused on our workforce. We have a variety of workforce initiatives underway that are working toward my goal of making the IRS the best place to work in government. For example, in 2009 we redesigned our orientation process for new hires and centralized and improved our recruiting efforts.

Looking ahead, we remain focused on our core mission: a successful filing season; balanced and adequate examination and collection coverage; and continuous improvement in both our service and enforcement efforts.

It is a great honor to lead this fine institution.

**Commissioner of Internal Revenue**

# Returns Filed, Taxes Collected, and Refunds Issued

Tables 1 and 2 provide a broad overview of the main functions performed by the IRS: processing Federal tax returns and collecting revenue. During Fiscal Year (FY) 2009, the IRS collected more than \$1.9 trillion in tax, net of refunds.

Tables 3 through 6 provide additional detail on gross collections and returns filed by State, over time, and for different types of electronic returns. More than 109.7 million returns, including 66.0 percent of individual income tax returns, were filed electronically in FY 2009.

Tables 7 and 8 provide information on tax refunds by State and type of tax. During FY 2009, individual income tax return filers received tax refunds totaling \$321.3 billion.

The American Recovery and Reinvestment Act (ARRA) of 2009 was signed into law on February 17, 2009. This legislation was intended to provide a stimulus to the U.S. economy in the wake of the economic downturn. The Internal Revenue Service administered the tax-related provisions of ARRA.

ARRA expanded the tax credit for first-time homebuyers who purchased a home between January 1, 2009, and December 31, 2009. Under the law, qualified homebuyers were allowed to claim the tax credit either on their 2008 returns (due on April 15, 2009) or on their 2009 returns (due April 15, 2010). Qualified first-time homebuyers—those who did not own, separately or with a spouse, a home within 3 years of the purchase date—could claim 10 percent of the home purchase price up to \$8,000 or \$4,000 for married individuals filing separately. The amount of the tax credit began to phase out for a taxpayer whose adjusted gross income was more than \$75,000 or \$150,000 for joint filers. The Worker, Homeownership, and Business Assistance Act of 2009, enacted on November 6, 2009, extended and expanded the first-time homebuyers tax credit into 2010.

Table A reports the first-time homebuyers tax credit by State, which includes original and amended returns with a first-time homebuyers credit filed between January 1, 2009, and September 30, 2009, for homes purchased during that period.

[1] Reflects the first-time homebuyers credit (FTHBC) claimed and granted by the IRS after adjustments. Under the American Recovery and Reinvestment Act of 2009, taxpayers could claim the FTHBC either on their 2008 or 2009 tax returns. These data include original and amended returns with a FTHBC claim filed between January 1, 2009, and September 30, 2009, for homes purchased during that period. Taxpayers who did not claim the FTHBC on their original 2008 returns could file an amended 2008 return to claim the credit. Approximately 150,000 amended returns included a claim for FTHBC. Counts exclude FTHBC claims withdrawn in an amended return or rejected by the IRS. Also excludes FTHBC claims for homes purchased prior to January 1, 2009, or after September 30, 2009.

## NOTE:

Classification by State is based on the individual's address. However, some individuals may use the address of a tax attorney or accountant. Such addresses could have been located in a State other than the State in which the individual resided.

n.a.—Not available.

[1] Excludes adjustments and credits and excise taxes paid to the Alcohol and Tobacco Tax and Trade Bureau.

[2] Includes overpayment refunds, refunds resulting from examination activity, and \$77.9 billion in refundable tax credits (including \$41.5 billion in earned income tax credits and \$22.2 billion in child tax credits), and other refunds required by law. Also includes \$2.4 billion in interest, of which \$1.4 billion were paid to corporations, and \$1.0 billion were paid to all others (related to individual, employment, estate, gift, and excise tax returns).

[3] Less than 0.05 percent.

[4] Collections include Presidential Election Campaign Fund contributions of \$49.5 million in Fiscal Year 2008 and \$45.2 million in Fiscal Year 2009.

[5] Collections of withheld individual income tax are not reported by taxpayers separately from Old-Age, Survivors, Disability, and Hospital Insurance (OASDHI) taxes on salaries and wages (under the Federal Insurance Contributions Act or FICA), and on self-employment income (under the Self-Employment Insurance Contributions Act or SECA). The OASDHI tax collections and refunds shown in this table are based on estimates made by the Secretary of the Treasury pursuant to the provisions of Section 201(a) of the Social Security Act as amended and include all OASDHI taxes. Amounts shown for individual income tax withheld and individual income tax payments were derived by subtracting the FICA and SECA tax estimates from total individual income tax withheld and individual income tax payments. Refund estimates, and therefore net collection estimates, were not made for the components of income and OASDHI taxes.

[6] Includes \$11.5 billion in Economic Stimulus payments. Economic Stimulus Payments include both Economic Stimulus Payments associated with 2007 tax returns and Rebate Recovery Credits claimed on 2008 tax returns. Eligible taxpayers whose circumstances changed may have claimed a Rebate Recovery Credit to receive some or all of the unpaid portion of an Economic Stimulus Payment. Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.

[7] Includes collections of estimated income tax and payments included with individual income tax return filings.

NOTE: Detail may not add to totals because of rounding.

The Economic Stimulus Payments associated with the Economic Stimulus Act of 2008 resulted in a temporary increase in the number of individual income tax returns filed in Fiscal Year 2008 and also contributed to the number of returns filed in Fiscal Year 2009. Some taxpayers, who did not otherwise have a filing requirement, filed a form from the 1040 series to claim an Economic Stimulus Payment. These filers are not expected to become regular filers unless their filing requirements change.

[4] Includes the Form 940 series as follows: 940 (employer's Federal unemployment tax return); 940-EZ (employer's Federal unemployment tax return short form); 940-PR (unemployment tax return for Puerto Rico residents); 941 (employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 941-PR/SS (employer's tax return for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); 943 (employer's tax return for agricultural employees); 943-PR/SS (employer's tax return for agricultural employees for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); 944 (employer's tax return); 944-PR/SS (employer's tax return for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); and 945 (tax return of withheld income tax from nonpayroll distributions). [5] Includes the Form 706 series as follows: 706 (estate and generation-skipping transfer tax return); 706-GS(D) (generation-skipping transfer tax return for distributions); 706-GS(T) (generation-skipping transfer tax return for terminations); and 706-NA (estate and generation-skipping transfer tax return for nonresident aliens).

Form 1040-X (amended individual income tax return) is included with Supplemental documents in this table.

The Economic Stimulus Payments associated with the Economic Stimulus Act of 2008 resulted in a temporary increase in the number of individual income tax returns filed in Fiscal Year 2008 and also contributed to the number of returns filed in Fiscal Year 2009. Some taxpayers, who did not otherwise have a filing requirement, filed a form from the 1040 series to claim an Economic Stimulus Payment. These filers are not expected to become regular filers unless their filing requirements change.

[4] Includes the Form 940 series as follows: 940 (employer's Federal unemployment tax return); 940-EZ (employer's Federal unemployment tax return short form); 940-PR (unemployment tax return for Puerto Rico residents); 941 (employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 941-PR/SS (employer's tax return for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); 943 (employer's tax return for agricultural employees); 943-PR/SS (employer's tax return for agricultural employees for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); 944 (employer's tax return); 944-PR/SS (employer's tax return for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); and 945 (tax return of withheld income tax from nonpayroll distributions). Also includes Forms 1042 (tax return of withheld income tax on U.S.-source income of foreign persons); and CT-1 (railroad retirement tax return). Forms 941-X (adjusted employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 943-X (adjusted employer's tax return for agricultural employees); 944-X (adjusted employer's tax return); 945-X (adjusted tax return of withheld income tax from nonpayroll distributions); and CT-1X (adjusted railroad retirement tax return) are included in Supplemental documents.

[5] Includes the Form 706 series as follows: 706 (estate and generation-skipping transfer tax return); 706-GS(D) (generation-skipping transfer tax return for distributions); 706-GS(T) (generation-skipping transfer tax return for terminations); and 706-NA (estate and generation-skipping transfer tax return for nonresident aliens).

[6] Includes Forms 720 (excise tax return); 730 (tax return for wagering); 2290 (heavy highway vehicle use tax return); 11-C (occupational tax and registration for wagering return); and 5330 (excise taxes related to employee benefit plans return). Excludes excise tax returns filed with the Alcohol and Tobacco Tax and Trade Bureau.

[7] Includes the Form 990 series as follows: 990 (tax-exempt organization information return long form); 990-EZ (tax-exempt organization information return short form); 990-C (farmers' cooperative return); 990-N (electronic notice (e-Postcard) for tax-exempt organizations not required to file Forms 990 or 990-EZ); 990-PF (private foundation information return); and 990-T (tax-exempt organization "unrelated business income" tax return). Also includes Forms 4720 (excise tax return of charities and other persons); 5227 (split-interest trust information return); and 8872 (political organization report of contributions and expenditures). Tax collected on Form 990-T is combined with Business income taxes in other tables.

[8] Includes Forms 941-X (adjusted employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 943-X (adjusted employer's tax return for agricultural employees); 944-X (adjusted employer's tax return); 945-X (adjusted return of withheld income tax from nonpayroll distributions); 1040-X (amended individual income tax return); 1041-A (information return of charitable contribution deductions by certain trusts); 1120-X (amended corporation income tax return); 4868 (automatic filing extension for individuals); 5558 (filing extension for certain employee plan returns); 7004 (automatic filing extension for corporations); 8752 (required payment or refund for certain S corporations and partnerships); 8868 (automatic filing extension for tax-exempt organizations); and CT-1X (adjusted railroad retirement tax return).

**NOTES:**

For Fiscal Year 2009, additional forms have been added that were not included in prior editions of the *IRS Data Book*. These forms include: 941-X (adjusted employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 943-X (adjusted employer's tax return for agricultural employees); 944-X (adjusted employer's tax return); 945-X (adjusted tax return of withheld income tax from nonpayroll distributions); 990-N (electronic notice (e-Postcard) for tax-exempt organizations not required to file Forms 990 or 990-EZ); and CT-1X (adjusted railroad retirement tax return). The following forms were included in prior editions of the *IRS Data Book* but have been excluded in the Fiscal Year 2009 edition: 2688 (additional filing extension for individuals); and CT-2 (employee representatives' railroad retirement tax return).

Classification by State is based on the individual's address (or, in the case of businesses, the location of the principal office or place of business). However, some individuals may use the address of a tax attorney or accountant. Sole proprietors, partners in a partnership, or shareholders in an S corporation may use their business addresses. Such addresses could have been located in a State other than the State in which the individual resided. Similarly, taxes withheld reported by employers located near a State boundary might include substantial amounts withheld from salaries of employees who reside in a neighboring State. Also, while taxes of corporations may be paid from the principal office, the operations of these corporations may be located in one or more other State(s).

Detail may not add to totals because of rounding.

**Table 4. Number of Returns Filed Electronically, by Type of Return and State, Fiscal Year 2009—Continued****Footnotes**

- [1] Excludes returns that do not have the option of filing electronically; information returns (e.g., Forms 1098, 1099, 5498, W-2 and W-2G, and Schedule K-1); tax-exempt bond returns (Forms 8038, 8038-CP, 8038-G, 8038-GC, 8038-T, and 8328); and employee benefit plan returns (Forms 5500 and 5500-EZ) processed by the Department of Labor. Also excludes excise tax returns (Forms 720 and 2290), which together totaled 26,746.
- [2] Includes Forms 1120 (corporation income tax return); 1120-F (foreign corporation income tax return, except foreign life insurance company, foreign property and casualty insurance company, or foreign sales corporation); and 1120-POL (income tax return for certain political associations).
- [3] Includes the Form 1040 series as follows: 1040 (individual income tax return); 1040-A (individual income tax return-short form); 1040-EZ (individual income tax return for single and joint filers with no dependents); and 1040-NR (nonresident alien income tax return).
- The Economic Stimulus Payments associated with the Economic Stimulus Act of 2008 resulted in a temporary increase in the number of individual income tax returns filed in Fiscal Year 2008 and also contributed to the number of returns filed in Fiscal Year 2009. Some taxpayers, who did not otherwise have a filing requirement, filed a form from the 1040 series to claim an Economic Stimulus Payment. These filers are not expected to become regular filers unless their filing requirements change.
- [4] Online e-filing is an option that allows taxpayers to prepare and file tax returns using a personal computer. Online returns can be filed through one of two processes: users either complete a tax return on a Web site without downloading any software, or users purchase and load software onto their personal computers, prepare their returns, and transmit them to the IRS through an online filing company.
- [5] Free File is a free Federal income tax preparation and electronic filing service for eligible taxpayers developed through a partnership between the Internal Revenue Service and the Free File Alliance LLC, a group of private sector tax software companies. For 2009, taxpayers with an adjusted gross income of \$57,000 or less could prepare and file their Federal income taxes using commercial online software provided by the Free File Alliance companies. This software was accessed through IRS.gov.
- [6] Includes cases in which a taxpayer transmits the return via an authorized e-file provider, who, in most cases, is also the preparer of the return.
- [7] Includes the Form 940 series as follows: 940 (employer's Federal unemployment tax return); 941 (employer's tax return for income and Social Security taxes withheld for other than household and agricultural employees); 941-PR/SS (employer's tax return for Puerto Rico residents, or for U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands residents); and 944 (employer's tax return).
- [8] Includes the Form 990 series as follows: 990 (tax-exempt organization except private foundation return long form); 990-EZ (tax-exempt organization except private foundation return short form); 990-N (electronic notice (e-Postcard) for tax-exempt organizations not required to file Forms 990 or 990-EZ); 990-PF (private foundation return); and Form 8872 (political organization report of contributions and expenditures).
- [9] Includes Forms 4868 (automatic filing extension for individuals); 7004 (automatic filing extension for corporations); and 8868 (automatic filing extension for tax-exempt organizations).

**NOTES:**

For Fiscal Year 2009, additional e-filed return counts have been added for forms that were not included in prior editions of the *IRS Data Book*. These forms include: 1120-F (foreign corporation income tax return, except foreign life insurance and property and casualty insurance company, or foreign sales corporation); and 990-N (electronic notice (e-Postcard) for tax-exempt organizations not required to file Forms 990 or 990-EZ). The following forms were included in prior editions of the *IRS Data Book* but have been excluded in the Fiscal Year 2009 edition: 2688 (additional filing extension for individuals); and 1040EZ-T (telephone excise tax refund return).

Classification by State is based on the individual's address (or, in the case of businesses, the location of the principal office or place of business). However, some individuals may use the address of a tax attorney or accountant. Sole proprietors, partners in a partnership, or shareholders in an S corporation may use their business addresses. Such addresses could have been located in a State other than the State in which the individual resided. Similarly, taxes withheld reported by employers located near a State boundary might include substantial amounts withheld from salaries of employees who reside in a neighboring State. Also, while taxes of corporations may be paid from the principal office, the operations of these corporations may be located in one or more other State(s).

- [1] Excludes excise taxes paid to the Alcohol and Tobacco Tax and Trade Bureau.
- [2] Includes taxes on corporation income (Form 1120), farmers' cooperatives (Form 1120-C), and "unrelated business income" from tax-exempt organizations (Form 990-T).
- [3] Collections of individual income tax are not reported by taxpayers separately from Old-Age, Survivors, Disability, and Hospital Insurance (OASDHI) taxes on salaries and wages (under the Federal Insurance Contributions Act or FICA) and taxes on self-employment income (under the Self-Employment Insurance Contributions Act or SECA).
- [4] Excludes adjustments and credits.
- [5] Includes tax and excess withholding payments not classified by State as of the end of the fiscal year because they had not been applied to taxpayer accounts.

**NOTES:**

Collection and refund data by State may not be comparable for a given fiscal year, because payments made in prior years may be refunded in the current fiscal year. Adjustments to prior year refunds made in Fiscal Year 2009 may result in negative amounts when such adjustments exceed current-year collections. See Table 8 for refund data.

Classification by State is based on the individual's address (or, in the case of businesses, the location of the principal office or place of business). However, some individuals may use the address of a tax attorney or accountant. Sole proprietors, partners in a partnership, or shareholders in an S corporation may use their business addresses. Such addresses could have been located in a State other than the State in which the individual resided. Similarly, taxes withheld and reported by employers located near a State boundary might include substantial amounts withheld from salaries of employees who reside in a neighboring State. Also, while taxes of corporations may be paid from the principal office, the operations of these corporations may be located in one or more other State(s).

Detail may not add to totals because of rounding.

- [2] Includes taxes on corporation income (Form 1120), farmers' cooperatives (Form 1120-C), and "unrelated business income" from tax-exempt organizations (Form 990-T).
- [3] Income tax on estates and trusts is included in individual income tax in Fiscal Years 1960–2007. Beginning with Fiscal Year 2008, estate and trust income tax is reported separately.

d—Not shown to avoid disclosure of information about specific taxpayers. However, the data are included in the appropriate totals.

N/A—Not applicable.

- [1] Includes overpayment refunds, refunds resulting from examination activity, refundable earned income tax credits, refundable child tax credits, and other refunds required by law. Excludes adjustments and credits.
- [2] Includes taxes on corporation income (Form 1120), farmers' cooperatives (Form 1120-C), and "unrelated business income" from tax-exempt organizations (Form 990-T).
- [3] Economic Stimulus Payments include both Economic Stimulus Payments associated with 2007 tax returns and Rebate Recovery Credits claimed on 2008 tax returns. Eligible taxpayers whose circumstances changed may have claimed a Rebate Recovery Credit to receive some or all of the unpaid portion of an Economic Stimulus Payment. Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.
- [4] Includes refunds of self-employment income under the Self-Employment Insurance Contributions Act (SECA); railroad retirement taxes under the Railroad Retirement Tax Act (RRTA); unemployment taxes under the Federal Unemployment Tax Act (FUTA); and Old-Age, Survivors, Disability, and Hospital Insurance (OASDHI) taxes on salaries and wages under the Federal Insurance Contributions Act (FICA).
- [5] Economic stimulus payments were provided directly to the treasuries of U.S. Territories and Puerto Rico in lump sum payments. The territories and Puerto Rico distributed these payments to their qualified taxpayers. See footnote 3.
- [6] Includes refunds of tax and excess withholding payments not classified by State as of the end of the fiscal year because they had not been applied to taxpayer accounts.
- [7] Reflects refundable portions of credits only. Shown separately for information purposes. Counts are included in the State figures and U.S. totals.

**NOTE:**

Classification by State is based on the individual's address (or, in the case of businesses, the location of the principal office or place of business). However, some individuals may use the address of a tax attorney or accountant. Sole proprietors, partners in a partnership, or shareholders in an S corporation may use their business addresses. Such addresses could have been located in a State other than the State in which the individual resided. Similarly, taxes withheld and reported by employers located near a State boundary might include substantial amounts withheld from salaries of employees who reside in a neighboring State. Also, while taxes of corporations may be paid from the principal office, the operations of these corporations may be located in one or more other State(s).

**Table 8. Amount of Internal Revenue Refunds Issued, Including Interest, by Type of Refund and State, Fiscal Year 2009—Continued****Footnotes**

d—Not shown to avoid disclosure of information about specific taxpayers. However, the data are included in the appropriate totals.

N/A—Not applicable.

- [1] Includes overpayment refunds, refunds resulting from examination activity, and \$77.9 billion in refundable tax credits (including \$41.5 billion in earned income tax credits and \$22.2 billion in child tax credits), and other refunds required by law. Also includes \$2.4 billion in interest, of which \$1.4 billion were paid to corporations, and \$1.0 billion were paid to all others (related to individual, employment, estate, gift, and excise tax returns).
- [2] Includes taxes on corporation income (Form 1120), farmers' cooperatives (Form 1120-C), and "unrelated business income" from tax-exempt organizations (Form 990-T).
- [3] The average individual income tax refund (based on Forms 1040, 1040-A, and 1040-EZ) was \$2,548. This amount includes refunds for the earned income tax credit and child tax credit, but excludes the Economic Stimulus Payments. See Footnote 4.
- [4] Economic Stimulus Payments include both Economic Stimulus Payments associated with 2007 tax returns and Rebate Recovery Credits claimed on 2008 tax returns. Eligible taxpayers whose circumstances changed may have claimed a Rebate Recovery Credit to receive some or all of the unpaid portion of an Economic Stimulus Payment. Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.
- [5] Includes refunds of self-employment income under the Self-Employment Insurance Contributions Act (SECA); railroad retirement taxes under the Railroad Retirement Tax Act (RRTA); unemployment taxes under the Federal Unemployment Tax Act (FUTA); and Old-Age, Survivors, Disability, and Hospital Insurance (OASDHI) taxes on salaries and wages under the Federal Insurance Contributions Act (FICA).
- [6] Excludes adjustments and credits.
- [7] Economic stimulus payments were provided directly to the treasuries of U.S. Territories and Puerto Rico in lump sum payments. The territories and Puerto Rico distributed these payments to their qualified taxpayers. See footnote 4.
- [8] Includes refunds of tax and excess withholding payments not classified by State as of the end of the fiscal year because they had not been applied to taxpayer accounts.
- [9] Reflects refundable portions of the credits only. Shown separately for information purposes. Refund amounts are included in the State figures and U.S. totals.

**NOTES:**

Collection and refund data by State may not be comparable for a given fiscal year, because payments made in prior years may be refunded in the current fiscal year. Adjustments to prior-year returns made in Fiscal Year 2009 may result in negative amounts when such adjustments exceed current-year refunds. See Table 5 for collections data.

Classification by State is based on the individual's address (or in the case of businesses, the location of the principal office or place of business). However, some individuals may use the address of a tax attorney or accountant. Sole proprietors, partners in a partnership, or shareholders in an S corporation may use their business addresses. Such addresses could have been located in a State other than the State in which the individual resided. Similarly, taxes withheld and reported by employers located near a State boundary might include substantial amounts withheld from salaries of employees who reside in a neighboring State. Also, while taxes of corporations may be paid from the principal office, the operations of these corporations may be located in one or more State(s).

Detail may not add to totals because of rounding.

## Enforcement: Examinations

The IRS accepts most Federal tax returns as filed. However, the IRS examines (or audits) some returns to determine if income, expenses, and credits are being reported accurately. Some examinations are handled entirely by mail, while others are conducted in a taxpayer's home, place of business, an Internal Revenue office, or the office of an attorney, accountant, or enrolled agent.

Tables 9a through 12 provide information about examinations of most types of tax returns. Table 9a provides an overview of examinations of income tax returns, estate and gift tax returns, employment tax returns, excise tax returns, and certain other business tax returns. Table 9b shows examinations of individual income tax returns by size of adjusted gross income.

Table 10 provides additional information about those examinations in which the taxpayer did not agree with the IRS examiner's determination. Table 11 provides information on examinations that prevented the erroneous payment of refunds. Table 12 shows the number of examinations that resulted in additional refunds paid to the taxpayer and the amount of refunds recommended.

Table 13 provides information about examinations of tax-exempt organizations, such as charitable organizations and foundations, employee pension plans, Government entities, and tax-exempt bonds. These organizations generally do not owe Federal income tax. However, tax-exempt organizations may owe additional payroll taxes, unrelated business income tax, or excise taxes. In addition, changes to exempt organization returns may lead to adjustments on related taxable returns. Examinations of related returns are also included in Table 13 (and excluded from Tables 9a through 12).

**Table 9a. Examination Coverage: Recommended and Average Recommended Additional Tax After Examination, by Type and Size of Return, Fiscal Year 2009—Continued****Footnotes**

N/A—Not applicable.

- [1] Excludes excise tax returns filed with Alcohol and Tobacco Tax and Trade Bureau, and returns of tax-exempt organizations, Government entities, and employee plans.
- [2] In general, examination activity is associated with returns filed in the previous calendar year.
- [3] Excludes 15,117,103 returns filed by individuals only to receive an Economic Stimulus Payment and who had no other reason to file. These Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.
- [4] Represents the number of returns examined in Fiscal Year 2009 as a percentage of all returns with a filing requirement in Calendar Year 2008. See footnote 3.
- [5] Field examinations are generally performed by revenue agents, tax compliance officers, tax examiners, and revenue officer examiners, in person or through correspondence (in selected cases).
- [6] Not tabulated.
- [7] Includes a total of 508,180 returns with an earned income tax credit (EITC) claim. These returns were selected for examination on the basis of an EITC claim or other selection criteria. Excludes 4 returns associated with the earned income tax credit qualifying child certification test, which are tracked in IRS's examination database.
- [8] Includes a total of \$2,150,808 thousand in recommended additional tax (including an earned income tax credit) on returns selected for examination on the basis of an EITC claim or other selection criteria. Excludes \$7 thousand in denied EITC related to the qualifying child certification test. These EITC cases are tracked in IRS's examination database.
- [9] In general, total positive income is the sum of all positive amounts shown for the various sources of income reported on the individual income tax return and, thus, excludes losses. Examinations of individual income tax returns are shown in this table by total positive income of: under \$200,000; at least \$200,000 and under \$1,000,000; and \$1,000,000 or more.
- [10] Includes Forms 1040 without a Schedule C (nonfarm sole proprietorship), Schedule E (supplemental income and loss), Schedule F (profit or loss from farming), or Form 2106 (employee business expenses).
- [11] Includes Forms 1040 with a Schedule E (supplemental income and loss) or Form 2106 (employee business expenses), but without a Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming).
- [12] "Total gross receipts" is the sum of gross receipts from farm and nonfarm businesses. It is calculated by adding the positive values of gross receipts and other income from Schedule C to gross income (which can be positive or negative) from Schedule F. Schedule C is used to report profit or loss from nonfarm sole proprietorships. Schedule F is used to report profit or loss from farming. If a taxpayer reports both farm and nonfarm income, the return is classified by the larger source of income.
- [13] Includes all Forms 1040, those with and without business income, reporting an earned income tax credit claim. These returns are classified by size of total gross receipts. Business returns have total gross receipts reported on Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming). Nonbusiness returns, those with no Schedules C or F, are reported in the "Under \$25,000" classification.
- [14] Includes returns selected for examination on the basis of an earned income tax credit (EITC) claim.
- [15] Includes Forms 1040-PR (self-employment income tax return for Puerto Rico residents) and 1040-SS (self-employment income tax return for U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands residents).
- [16] Includes the Form 1120 series as follows: 1120 (corporation income tax return); 1120-A (corporation income tax return short form); 1120-F (foreign corporation income tax return, except foreign life insurance company, foreign property and casualty insurance company, or foreign sales corporation); 1120-H (homeowner association income tax return); 1120-L (life insurance company income tax return); 1120-M (mutual income company income tax return); 1120-ND (return for nuclear decommissioning funds); 1120-PC (property and casualty insurance company income tax return); 1120-POL (income tax return for certain political associations); 1120-REIT (real estate investment trust income tax return); 1120-RIC (regulated investment company income tax return); and 1120-SF (income tax return for settlement funds). Excludes certain other types of corporation returns, which are included in "other taxable returns" described in footnote 23.
- [17] Forms 1120-F are filed by foreign corporations with U.S. income, other than foreign life insurance companies (Form 1120-L); foreign property and casualty insurance companies (Form 1120-PC); or foreign sales corporations (Form 1120-FSC).
- [18] Includes returns with assets of less than \$10 million examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [19] Includes returns with assets of \$10 million or more examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [20] Less than \$500.
- [21] Less than \$0.50.
- [22] The percentage of returns examined may be greater than 100 percent of the returns filed in Calendar Year 2008 since examinations may be conducted on returns filed in prior calendar years.
- [23] Includes Forms 1120-S for S corporations reporting a tax (see footnote 25); 1120-FSC (foreign sales corporation income tax return); 8288 (withholding tax return for disposition by foreign persons of U.S. property interests); 1120-C (income tax return for cooperative associations); and 8804 (partnership withholding tax return).
- [24] Nontaxable returns are filed for entities that generally do not have a tax liability, but pass through any profits and losses to the underlying owners who include these profits or losses on their income tax returns.
- [25] Includes most Forms 1120-S, which are filed by qualifying S corporations electing to be taxed through shareholders. Under certain conditions, S corporations are subject to tax and are included in "other taxable returns" in this table. See footnote 23.

[1] In general, examination activity is associated with returns filed in the previous calendar year.

[2] Adjusted gross income is total income, as defined by the Tax Code, less statutory adjustments—primarily business, investment, and certain other deductions.

[3] Excludes returns filed by individuals only to receive an Economic Stimulus Payment and who had no other reason to file. These Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.

[4] Represents the number of returns examined in Fiscal Year 2009 for each adjusted gross income (AGI) class, as a percentage of all returns with a filing requirement in Calendar Year 2008 for that AGI class. See footnote 3.

[5] In addition to examinations of returns filed, the IRS examined more than 206,000 cases in which no return was filed. These nonfiler cases were referred for examination by the Collections Program and the Automated Substitute for Return Program (ASFR). In the ASFR Program, the IRS uses information returns (such as Forms W-2 and 1099) to identify persons who failed to file a return and constructs tax returns for certain nonfilers based on that third-party information. These nonfiler cases are excluded from the examination data in this table.

[6] Includes returns with adjusted gross income (AGI) of less than zero. AGI may be less than zero when a taxpayer reports losses or statutory adjustments that exceed total income.

d—Not shown to avoid disclosure of information about specific taxpayers. However, the data are included in the appropriate totals.

- [1] Excludes excise tax returns filed with Alcohol and Tobacco Tax and Trade Bureau, and returns of tax-exempt organizations, Government entities, and employee plans.
- [2] Field examinations are generally performed by revenue agents, tax compliance officers, tax examiners, and revenue officer examiners, in person or through correspondence (in selected cases).
- [3] In general, total positive income is the sum of all positive amounts shown for the various sources of income reported on the individual income tax return and, thus, excludes losses. Examinations of individual income tax returns are shown in this table by total positive income of: under \$200,000; at least \$200,000 and under \$1,000,000; and \$1,000,000 or more.
- [4] Includes Forms 1040 without a Schedule C (nonfarm sole proprietorship), Schedule E (supplemental income and loss), Schedule F (profit or loss from farming), or Form 2106 (employee business expenses).
- [5] Includes Forms 1040 with a Schedule E (supplemental income and loss) or Form 2106 (employee business expenses), but without a Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming).
- [6] "Total gross receipts" is the sum of gross receipts from farm and nonfarm businesses. It is calculated by adding the positive values of gross receipts and other income from Schedule C to gross income (which can be positive or negative) from Schedule F. Schedule C is used to report profit or loss from nonfarm sole proprietorships. Schedule F is used to report profit or loss from farming. If a taxpayer reports both farm and nonfarm income, the return is classified by the larger source of income.
- [7] Includes all Forms 1040, those with and without business income, reporting an earned income tax credit claim. These returns are classified by size of total gross receipts. Business returns have total gross receipts reported on Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming). Nonbusiness returns, those with no Schedules C or F, are reported in the "Under \$25,000" classification.
- [8] Includes Forms 1040-PR (self-employment income tax return for Puerto Rico residents) and 1040-SS (self-employment income tax return for U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands residents).
- [9] Includes the Form 1120 series as follows: 1120 (corporation income tax return); 1120-A (corporation income tax return short form); 1120-F (foreign corporation income tax return, except foreign life insurance company, foreign property and casualty insurance company, or foreign sales corporation); 1120-H (homeowner association income tax return); 1120-L (life insurance company income tax return); 1120-M (mutual income company income tax return); 1120-ND (return for nuclear decommissioning funds); 1120-PC (property and casualty insurance company income tax return); 1120-POL (income tax return for certain political associations); 1120-REIT (real estate investment trust income tax return); 1120-RIC (regulated investment company income tax return); and 1120-SF (income tax return for settlement funds). Excludes certain other types of corporation returns, which are included in "other taxable returns" described in footnote 13.
- [10] Forms 1120-F are filed by foreign corporations with U.S. income, other than foreign life insurance companies (Form 1120-L); foreign property and casualty insurance companies (Form 1120-PC); or foreign sales corporations (Form 1120-FSC).
- [11] Includes returns with assets of less than \$10 million examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [12] Includes returns with assets of \$10 million or more examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [13] Includes Forms 1120-S for S corporations reporting a tax; 1120-FSC (foreign sales corporation income tax return); 8288 (withholding tax return for disposition by foreign persons of U.S. property interests); 1120-C (income tax return for cooperative associations); and 8804 (partnership withholding tax return).

- [1] Protection of the revenue base comprises any action taken by the IRS to prevent the release of funds from the U.S. Treasury in response to taxpayer efforts to recoup all, or part, of previously assessed and paid tax.

If a taxpayer reports both farm and nonfarm income, the return is classified by the larger source of income.

**Table 12. Examination Coverage: Returns Examined Resulting in Refunds, by Type and Size of Return, Fiscal Year 2009—Continued****Footnotes**

d—Not shown to avoid disclosure of information about specific taxpayers. However, the data are included in the appropriate totals.

- [1] Excludes excise tax returns filed with the U.S. Custom and Border Protection and the Alcohol and Tobacco Tax and Trade Bureau, and returns of tax-exempt organizations, Government entities, and employee plans.
- [2] Field examinations are generally performed by revenue agents, tax compliance officers, tax examiners, and revenue officer examiners, in person or through correspondence (in selected cases).
- [3] In general, total positive income is the sum of all positive amounts shown for the various sources of income reported on the individual income tax return and, thus, excludes losses. Examinations of individual income tax returns are shown in this table by total positive income of: under \$200,000; at least \$200,000 and under \$1,000,000; and \$1,000,000 or more.
- [4] Includes Forms 1040 without a Schedule C (nonfarm sole proprietorship), Schedule E (supplemental income and loss), Schedule F (profit or loss from farming), or Form 2106 (employee business expenses).
- [5] Includes Forms 1040 with a Schedule E (supplemental income and loss) or Form 2106 (employee business expenses), but without a Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming).
- [6] "Total gross receipts" is the sum of gross receipts from farm and nonfarm businesses. It is calculated by adding the positive values of gross receipts and other income from Schedule C to gross income (which can be positive or negative) from Schedule F. Schedule C is used to report profit or loss from nonfarm sole proprietorships. Schedule F is used to report profit or loss from farming. If a taxpayer reports both farm and nonfarm income, the return is classified by the larger source of income.
- [7] Includes all Forms 1040, those with and without business income, reporting an earned income tax credit claim. These returns are classified by size of total gross receipts. Business returns have total gross receipts reported on Schedule C (nonfarm sole proprietorship) or Schedule F (profit or loss from farming). Nonbusiness returns, those with no Schedules C or F, are reported in the "Under \$25,000" classification.
- [8] Includes Forms 1040-PR (self-employment income tax return for Puerto Rico residents) and 1040-SS (self-employment income tax return for U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands residents).
- [9] Includes the Form 1120 series as follows: 1120 (corporation income tax return); 1120-A (corporation income tax return short form); 1120-F (foreign corporation income tax return, except foreign life insurance company, foreign property and casualty insurance company, or foreign sales corporation); 1120-H (homeowner association income tax return); 1120-L (life insurance company income tax return); 1120-M (mutual income company income tax return); 1120-ND (return for nuclear decommissioning funds); 1120-PC (property and casualty insurance company income tax return); 1120-POL (income tax return for certain political associations); 1120-REIT (real estate investment trust income tax return); 1120-RIC (regulated investment company income tax return); and 1120-SF (income tax return for settlement funds). Excludes certain other types of corporation returns, which are included in "other taxable returns" described in footnote 13.
- [10] Forms 1120-F are filed by foreign corporations with U.S. income, other than foreign life insurance companies (Form 1120-L); foreign property and casualty insurance companies (Form 1120-PC); or foreign sales corporations (Form 1120-FSC).
- [11] Includes returns with assets of less than \$10 million examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [12] Includes returns with assets of \$10 million or more examined by either the Small Business/Self-Employed Operating Division or the Large and Mid-Size Business Operating Division.
- [13] Includes Forms 1120-S for S corporations reporting a tax; 1120-FSC (foreign sales corporation income tax return); 8288 (withholding tax return for disposition by foreign persons of U.S. property interests); 1120-C (income tax return for cooperative associations); and 8804 (partnership withholding tax return).

### Information Reporting and Verification

The IRS uses tools other than examinations to identify and resolve taxpayer errors. In addition to receiving information about taxpayers' self-reported income and tax on returns that are filed, the IRS gathers independent information about income received and taxes withheld on information returns, such as Forms W-2 and 1099 from employers and other third parties. With its Automated Underreporter Program, the IRS matches these information returns to tax returns and contacts taxpayers to resolve discrepancies. Table 14 provides information about this program.

In the Automated Substitute for Return Program, the IRS uses information returns to identify persons who did not file a return, constructs tax returns for certain nonfilers based on that third-party information, and assesses tax, interest, and penalties based on the substitute returns. Table 14 also provides information about this program.

During the routine processing of tax returns, the IRS also checks for mathematical and clerical errors before refunds are paid. Table 15 shows the types of errors made on returns processed during Calendar Year 2009.

Information from these forms and schedules is matched to that reported on income tax returns.

[2] The use of magnetic tapes for delivery of information returns was discontinued on December 31, 2008. Information returns previously provided on magnetic tape were provided electronically through the Filing Information Returns Electronically system beginning on January 1, 2009.

[6] Excludes interest and penalties.

[7] Reflects the total staff hours expended, converted to the number of full-time positions.

[8] Under the Automated Substitute for Return Program, the IRS uses information returns from third parties to identify tax return delinquencies, constructs tax returns for certain nonfilers based on that third-party information, and assesses tax, interest, and penalties based on the substitute returns.

[2] Eligible taxpayers whose circumstances changed may have claimed a Rebate Recovery Credit (RRC) to receive some or all of the unpaid portion of an Economic Stimulus Payment. Economic Stimulus Payments were special payments to taxpayers associated with the Economic Stimulus Act of 2008. Includes cases where RRC was not claimed on tax returns, but the IRS computed the credit for eligible taxpayers. There were 6,233,213 of these cases for Tax Year 2008 returns and 240 for Tax Year 2007 returns.

[3] Includes all errors associated with the calculation and assessment of income taxes, as well as other taxes, such as self-employment tax, alternative minimum tax, and household employment tax.

### Collections, Penalties, and Criminal Investigation

The mission of the IRS's Collection function is to collect Federal taxes that are reported or assessed but not paid, and to secure tax returns that have not been filed. Table 16 provides information on these activities.

The failure to comply with Federal tax laws may result in civil penalties. Table 17 provides information on penalties assessed and abated during Fiscal Year 2009, by type of tax and type of penalty. Individuals who deliberately fail to comply with Federal tax laws may also be subject to a criminal investigation, which could result in prosecution, fines, and imprisonment.

Table 18 summarizes criminal investigation activity related to legal source tax crimes, illegal source financial crimes, and narcotics-related financial crimes. Legal source tax investigations involve activities, industries, and occupations that generate legitimate income. The Legal Source Tax Crimes Program also includes cases that may threaten the tax system, such as frivolous filers or nonfilers who challenge the legitimacy of the tax laws; unscrupulous tax return preparers; and fraudulent refund schemes.

Illegal source financial crimes relate to proceeds derived from illegal sources other than narcotics and involve tax and tax-related violations, as well as money laundering. The Narcotics Program investigates narcotics-related tax and money-laundering crimes. The IRS often cooperates with the Justice Department and other law enforcement agencies to accomplish its mission.

[1] "Net Total Amount Collected" has been revised to provide an accounting that is more reflective of collection activity from unpaid taxes on returns filed plus assessed penalties and interest. The adjustment specifically included removing the amount of credit transfers from the total amount collected, thus better displaying the direct actions of the Collection function.

[2] Includes assessed penalties and interest but excludes any accrued penalties and interest. Assessed penalties and interest—usually determined simultaneously with the unpaid balance of tax—are computed on the unpaid balance of tax from the due date of the return to the date of assessment. Penalties and interest continue to accrue after the date of assessment until the taxpayer's balance is paid in full.

[3] Includes net assessment of tax, penalty, and interest amounts (less prepaid credits, withholding, and estimated tax payments) on delinquent tax returns secured by Collection activity.

[4] A delinquency investigation is opened when a taxpayer does not respond to an IRS notice of a delinquent return.

[5] An offer in compromise (OIC) is an agreement between a taxpayer and the Federal Government that settles a tax liability for less than the full amount owed. Absent special circumstances, an offer will not be accepted if the IRS believes the liability can be paid in full as a lump sum or through a payment agreement.

[1] Penalties assessed and abatements of penalties included here were recorded in Fiscal Year 2009 regardless of the tax year to which the penalty may apply.

[2] An abatement is a reduction of assessed penalties. The IRS may approve an abatement of a penalty for: IRS error; reasonable cause; administrative and collection costs not warranting collection of penalty; discharge of penalty in bankruptcy; and the IRS's acceptance of partial payment of assessed penalty.

[3] Represents penalties associated with the Form 1040 series (individual income tax series) and Form 1041 (estate and trust income tax return).

[4] Represents penalties for negligence; substantial understatement of income tax; substantial valuation misstatement; substantial overstatement of pension liabilities; substantial estate or gift tax valuation understatement (under Internal Revenue Code section 6662); understatement of reportable transactions (under Internal Revenue Code section 6662A); and underpayment of stamp tax (under Internal Revenue Code section 6653).

[5] Represents penalties related to failure to supply taxpayer identification number and failure to report tip income.

**Table 17. Civil Penalties Assessed and Abated, by Type of Tax and Type of Penalty, Fiscal Year 2009—Continued****Footnotes—Continued**

- [6] Represents penalties associated with the Form 1120 series (corporation income tax return series); 1120-C (farmers' cooperative return); and 990-T (tax-exempt organization "unrelated business income" tax return).
- [7] Represents penalties associated with failure to provide information on Forms 1065 (partnership return) or 8752 (required payment or refund for an S corporation or partnership under Internal Revenue Code section 7519); or failure to file electronically Form 1065-B (large partnership return). In prior editions of the *IRS Data Book*, this was reported as "Partnership Information" in the Individual income tax section.
- [8] Represents penalties associated with Forms 940 (employer's Federal unemployment tax return); 941 (employer's quarterly tax return for income and Social Security taxes withheld); 942 (employer's tax return for household employees); 943 (employer's tax return for agricultural employees); 944 (employer's annual tax return); 945 (tax return for withheld income tax from nonpayroll distributions); 1042 (tax return of withheld income tax on U.S.-source income of foreign persons); and CT-1 (railroad retirement tax return).
- [9] Represents penalties associated with Forms 11-C (occupational tax and registration for wagering return); 720 (excise tax return); 730 (tax return for wagering); 990 (tax-exempt organization information return); 990-PF (private foundation return); 1041-A (trust accumulation of charitable amounts information return); 2290 (heavy highway vehicle use tax return); 4720 (excise tax return of charities and other persons); and 5227 (split-interest trust information return).
- [10] Represents penalties associated with Forms 706 (estate tax return) and 709 (gift tax return).
- [11] Represents various penalties assessed and abated for a wide range of noncompliant behaviors, such as noncompliance related to tax return preparers and to information returns (e.g., Forms 1099, W-2, 3520A, 8027, 8300), as well as aiding and abetting; frivolous return filings; and misuse of dyed fuel. Also includes trust fund recovery penalties. Withheld income and employment taxes, including Social Security taxes, railroad retirement taxes, or collected excise taxes, are collectively called trust fund taxes because employers actually hold the employee's money in trust until they make a Federal tax deposit in that amount. Trust fund recovery penalties are assessed when these employment taxes are not collected, accounted for, and paid timely. The amount of trust fund recovery penalties credited in Fiscal Year 2009 was \$586,608 thousand and is included in the amount abated.

[1] Under the legal source tax crimes program, IRS Criminal Investigation identifies, investigates, and assists in the prosecution of crimes involving legal industries, legal occupations, and, more specifically, legally earned income associated with the violation of Title 26 (tax violations) and Title 18 (tax-related violations) of the U.S. Code. The Legal Source Tax Crimes Program also includes those cases that threaten the tax system, such as Questionable Refund Program (QRP) cases, unscrupulous return preparers, and frivolous filers/nonfilers who challenge the legality of the filing requirements. Excise tax and employment tax cases are also important elements of the Legal Source Tax Crimes Program.

[2] Under the illegal source financial crimes program, IRS Criminal Investigation identifies, investigates, and assists in the prosecution of crimes involving proceeds derived from illegal sources other than narcotics. These encompass all tax and tax-related violations, as well as money-laundering and currency violations under the following statutes: Title 26 (tax violations); Title 18 (tax-related and money-laundering violations); and Title 31 (currency violations) of the U.S. Code. The utilization of forfeiture statutes to deprive individuals and organizations of illegally obtained assets is also linked to the investigation of criminal charges within this program.

[3] Under the Narcotics Related Financial Crimes Program, IRS Criminal Investigation seeks to identify, investigate, and assist in the prosecution of the most significant narcotics-related tax and money-laundering offenders. IRS derives authority for this program from the statutes for which it has jurisdiction: Title 26 (tax violations); Title 18 (tax-related and money-laundering violations); and Title 31 (currency violations) of the U.S. Code. IRS Criminal Investigation also devotes resources to high-level multiagency narcotics investigations warranting Organized Crime Drug Enforcement Task Force (OCDETF) designation in accordance with OCDETF Program reimbursable funding.

[4] Both "indictments" and "informations" are accusations of criminal charges. An "indictment" is an accusation made by a Federal prosecutor and issued by a Federal grand jury. An "information" is an accusation brought by a Federal prosecutor without the requirement of a grand jury.

[5] The term "incarcerated" may include prison time, home confinement, electronic monitoring, or a combination thereof.

NOTE: Investigations may cross fiscal years. Therefore, the disposition of investigations shown in this table may be related to investigations initiated in prior years.

# Taxpayer Assistance

The IRS assists taxpayers in meeting their Federal tax return filing and payment obligations in a variety of ways, such as through its telephone helpline, via the Internet, at IRS walk-in sites, and through volunteer income tax return preparers. Table 19 provides information about some of the programs and services designed to help individual income tax return filers.

Table 20 provides information about the Taxpayer Advocate Service. The Taxpayer Advocate Service is an independent organization within the IRS that helps taxpayers resolve problems with the IRS and recommends changes that will prevent these problems.

Table 21 provides information on the workload of IRS's Appeals Office. The Appeals mission is to resolve tax controversies, without litigation, on a basis that is fair and impartial to both the taxpayer and the Government. The Appeals Office considers cases that involve examination, collection, and penalty issues. Taxpayers who disagree with the IRS findings in their cases may request an Appeals hearing. The local Appeals Office is separate and independent of the IRS office that proposed the tax adjustment, collection action, or penalty.

Excludes Volunteer Income Tax Assistance and Tax Counseling for the Elderly sites, which are shown separately in the last section of this table.

[3] Represents the number of organizations distributing paper or reproducible forms and publications. Each organization may have multiple branches.

[4] An increasing number of taxpayers receive assistance by using personal computers to visit IRS.gov. This online assistance is reported as visits, page views, and downloads. A Web site visit is a session that begins when a user views his or her first Web page and ends when the user leaves the IRS.gov Web site. Users may access multiple Web pages during a single visit to the IRS Web site; these are counted as page views. A download is the process of copying a file, such as Form 1040, from the IRS.gov Web site to the user's personal computer.

[5] Economic Stimulus Payments include both Economic Stimulus Payments associated with 2007 tax returns and Rebate Recovery Credits claimed on 2008 tax returns. Eligible taxpayers whose circumstances changed may have claimed a Rebate Recovery Credit to receive some or all of the unpaid portion of an Economic Stimulus Payment. Economic Stimulus Payments were associated with the Economic Stimulus Act of 2008.

[6] The Transcript Delivery System enables authorized tax practitioners to order tax account, tax return transcript, and other tax information for their business and individual clients. These documents are returned to the practitioner's computer through a secure online connection within minutes.

[7] Eligible tax practitioners may electronically request authorization to receive a client's tax account information or to represent the client before the IRS. This e-service expedites processing and issues a real-time acknowledgment of accepted submissions.

[8] Reflects major disaster areas declared by the Federal Emergency Management Agency, for which the IRS granted administrative tax relief. Some States and counties/cities are affected more than once.

[1] Taxpayers may submit an application for assistance to the Taxpayer Advocate Service (TAS). These applications for taxpayer assistance may be received in one fiscal year and closed in another. In Fiscal Year 2009, 272,404 applications for assistance were received, and 283,841 were closed.

[2] Under the Automated Underreporter Program, the IRS uses information returns from third parties to identify unreported income.

[3] The Taxpayer Advocate Service issues Taxpayer Assistance Orders (TAOs) on behalf of taxpayers. A TAO directs an IRS organizational unit to take a specific action or to review, expedite consideration of, or reconsider a taxpayer's case. However, in the majority of cases, the Taxpayer Advocate Service can resolve taxpayers' issues without issuing TAOs.

[4] Taxpayer Assistance Orders (TAOs) may be issued in one fiscal year and closed in another. In Fiscal Year 2009, 45 TAOs were issued, and 31 TAOs were closed (25 were closed with relief provided to the taxpayer, and 6 were rescinded).

[6] A single issue (applicable to an individual, corporation, or other entity) that requires a change or modification to an account.

[7] Requires a change or modification to an established procedure, process, or operation (e.g., computer program) that potentially impacts more than one taxpayer.

[8] In this table, "Congressional inquiries" (related to constituents' tax accounts) refers to those applications for taxpayer assistance received from Congressional offices during the fiscal year. This item is shown separately for information purposes, but counts are included in the data above.

**NOTES:**

The Taxpayer Advocate Service is an independent organization within the IRS that helps taxpayers resolve problems with the IRS and recommends changes that will prevent these problems.

[1] A case represents a taxpayer with one type of tax, and one or more tax periods under consideration in Appeals.

[2] A taxpayer may request a Collection Due Process (CDP) hearing in Appeals in response to a Notice of Intent to File Levy or Notice of Federal Tax Lien Filing. The CDP hearing provides the taxpayer an opportunity early in the collection process to work with an independent hearing officer to resolve the collection of the taxpayer's liability.

[3] An Examination case in Appeals may originate from the IRS Wage and Investment Division, Small Business/Self-Employed Division or the Tax Exempt and Government Entities Division. Examination cases involve issues in dispute by the taxpayer relating to income tax, employment tax, excise tax, estate tax, gift tax or tax exempt status.

[4] A Penalty Appeals case is one in which the taxpayer requests abatement of a civil penalty that was assessed before the taxpayer was given an opportunity to dispute the penalty. The taxpayer may submit a written request for abatement of the penalty to IRS Compliance Operations, and if the request is denied, the taxpayer may appeal.

[5] An Offer in Compromise is an agreement between a taxpayer and the Government that settles a tax liability in exchange for payment of less than the full amount owed. A taxpayer's offer may be rejected by the IRS Small Business/Self-Employed Division, and the taxpayer may request that Appeals review and decide whether the offer is acceptable.

[6] A taxpayer who files a joint income tax return may be entitled to innocent spouse relief from additional tax due if the tax was incurred because a spouse or former spouse failed to report income, reported income improperly, or claimed improper deductions or credits. An innocent spouse case in Appeals is one in which the taxpayer requested and was denied innocent spouse relief by the IRS Wage and Investment Division or Small Business/Self-Employed Division.

[7] An Industry Case in Appeals will originate from the IRS Large and Mid-Sized Business Division (LMSB) and is any type of case from LMSB that is not designated as a Coordinated Industry Case. See footnote 8.

[8] A Coordinated Industry Case (CIC) designation may be assigned to a large corporate taxpayer by the IRS Large and Mid-Sized Business (LMSB) Division based on factors such as the taxpayer's gross assets, gross receipts, operating entities, industries and/or foreign assets. A CIC taxpayer may appeal the findings of the examination conducted by LMSB.

[9] Cases considered by Appeals involving issues related to abatement of interest, Collection Appeals Program, Director of Practice, Freedom of Information Act, Trust Fund Recovery Penalty, Timeliness Determination, and other miscellaneous penalties are grouped into the "Other" category shown below:

*Abatement of interest*—A taxpayer may file a claim for abatement of interest on tax deficiencies or payments attributable to errors or delays in the performance of ministerial acts by the IRS. A ministerial act is a procedural or mechanical act that does not involve the exercise of judgment or discretion and that occurs during the processing of a taxpayer's case after all prerequisites to the act have taken place.

*Collection Appeals Program*—Provides the taxpayer, or a third party whose property is subject to a collection action, an administrative appeal for certain collection actions, including levy or seizure action that was or will be taken, Notice of Federal Tax Lien that was or will be filed, and rejected or terminated installment agreements.

*Director of Practice*—A tax professional may appeal the findings of the IRS Office of Professional Responsibility (OPR) (formerly the IRS Office of the Director of Practice). OPR has oversight responsibility for tax professionals and investigates allegations of misconduct and negligence against attorneys, certified public accountants, enrolled agents, and other practitioners representing taxpayers before the IRS. In addition, IRS e-file applicants and providers may request an administrative review when the applicant is denied participation in IRS e-file or the provider is sanctioned while participating in IRS e-file.

*Freedom of Information Act*—A taxpayer may appeal the denial by the IRS Disclosure Office of a request for records made under the Freedom of Information Act.

*Trust Fund Recovery Penalty*—An employer is required to pay trust fund taxes to the U.S. Treasury through Federal Tax Deposits. Trust fund taxes are the taxes withheld from employees' paychecks for income tax and the employees' share of Social Security and Medicare taxes. A Trust Fund Recovery Penalty may be proposed against the responsible person(s) by the IRS Collection Division for the total amount of trust fund taxes evaded, not collected, or not accounted for and paid to the U.S. Treasury. The taxpayer may appeal Collection's determination.

*Other penalties*—This subcategory includes a variety of different types of penalties that may be appealed. Tax return preparers may appeal penalties imposed under IRC Sections 6694 and 6695 for understatement of a taxpayer's tax liability or with respect to preparation of a tax return. Tax shelter promoters may appeal penalties imposed under IRC Sections 6700 or 6701 for aiding and abetting an understatement of tax liability. A penalty imposed under IRC Section 6715 for Dyed Diesel Fuel may be appealed. A taxpayer may appeal the denial of an application for an extension of time to pay estate tax under the provisions of IRC Section 6161.

The IRS devotes significant resources to meeting the special needs of tax-exempt organizations, qualified pension benefit plans, and government entities in complying with tax laws. While these entities are not subject to Federal income tax, they nonetheless represent a significant aspect of tax administration.

Table 22 summarizes IRS activities, such as issuing technical guidance, to assist tax-exempt entities and facilitate their compliance with the Federal tax laws. Table 23 provides information about applications for tax-exempt status by employee pension plans. Table 24 provides information about applications for tax-exempt status by charitable and other organizations. Table 25 shows the total number of approved tax-exempt organizations for Fiscal Years 2006 through 2009.

d—Not shown to avoid disclosure of information about specific taxpayers. However, when possible, the data are included in the appropriate totals.

[1] A defined contribution plan is a pension or retirement plan that provides for an individual account for each participant. Benefits are based solely on amounts contributed to the participant's account and any earnings on these contributions. When the employee takes a distribution of his/her account balance, the amount paid will be limited by the value of the participant's account.

[2] A defined benefit plan is a pension plan that does not maintain individual account balances that reflect the accrued benefits of each plan participant. Instead, the accrued benefit is determined by a determinable formula stated in the plan.

[3] The total of defined contribution plans is the sum of columns 4–9, which include associated section 401(k) arrangements and participants. See footnote 4.

[4] Section 401(k) arrangements and participants are reported and counted under the types of plans to which they are attached (e.g., profit-sharing or stock bonus plans) and, thus, are also included in columns 4–9.

[5] Reflects pension plans that satisfy the qualification requirements of Federal pension law.

[6] Totals may include employees who participate in more than one plan.

# Chief Counsel

The IRS Chief Counsel is appointed by the President of the United States, with the advice and consent of the U.S. Senate, and serves as the chief legal advisor to the IRS Commissioner on all matters pertaining to the interpretation, administration and enforcement of the Internal Revenue Laws (as well as all other legal matters). Under the IRS Restructuring and Reform Act of 1998, the Chief Counsel reports to both the IRS Commissioner and the Treasury General Counsel.

Attorneys in the Chief Counsel's Office serve as lawyers for the IRS. They provide guidance to the IRS and to taxpayers on the correct legal interpretation of the Federal tax laws, represent the IRS in litigation, and provide all other legal support the IRS needs to carry out its mission.

Tables 26 and 27 provide information about the Chief Counsel workload and case activity in several major categories including criminal tax, international issues, and general legal services in Fiscal Year 2009.

[1] Tax Court cases involve a taxpayer contesting the Internal Revenue Service's determination that the taxpayer owes additional tax. The Tax Court provides a forum for a taxpayer to request a determination of the deficiency prior to paying the tax allegedly owed.

Other cases that may be considered by the Tax Court include:

*Collection Due Process (CDP)*—cases where a taxpayer requested a hearing with an independent CDP officer in response to a notice of Federal tax lien or notice of intent to levy.

*Innocent Spouse Program*—cases in which a taxpayer who filed a joint return with a spouse or ex-spouse may apply for relief of tax, interest, and penalties if he/she meets specific requirements.

*Abatement of interest*—cases of disputed interest on tax deficiencies or payments in which IRS error or delays may have contributed to the assessed interest.

*Tax-exempt status*—cases where an organization disputes the IRS's revocation or denial of tax-exempt status.

[2] Reflects the amount a taxpayer owes as determined by the Tax Court, excluding offsetting overpayments and interest.

[3] Refund cases involve taxpayers seeking refunds of claimed overpayments after taxes have been fully paid. Amounts include both taxes and interest.

[4] "Tax protected" is the amount claimed by the taxpayer in a suit for a refund of previously paid taxes that is not awarded to the taxpayer in the court's judgment.

[5] Nondocketed cases are cases in which a court petition was not filed.

# IRS Budget and Workforce

Tables 28 through 31 provide information about the size and composition of the IRS workforce and the resources that the IRS spends to collect taxes and assist taxpayers.

The IRS had an annual operating budget of more than \$11.7 billion in Fiscal Year (FY) 2009, which represented an increase in funding over the previous year. Much of this increase was used in an initiative to hire additional revenue agents, revenue officers, tax compliance officers, and customer service representatives in support of the Service's efforts to improve taxpayer compliance and reduce the tax gap. Areas of particular strategic importance benefitting from these new hires include large corporate compliance and international and offshore initiatives.

In FY 2009, the IRS collected over \$2.3 trillion and employed a total work force of 105,814, including seasonal and part-time employees. The average cost of collecting \$100 was 50 cents.

[p]—Preliminary.

- [1] Gross collections exclude alcohol and tobacco excise taxes starting with 1988, and exclude taxes on firearms starting with the second quarter of Fiscal Year 1991. Responsibility for these excise taxes was transferred from the IRS to the Alcohol and Tobacco Tax and Trade Bureau and to the U.S. Customs and Border Protection, respectively. See Table 6 for gross collections data by type of tax.
- [2] Operating costs exclude costs reimbursed by other Federal agencies and private entities for services performed for these external parties. Beginning with Fiscal Year 2005, includes costs for Business Systems Modernization and the Health Insurance Tax Credit Administration. See Table 28 for these costs.
- [3] U.S. population and tax per capita are based on resident population plus armed forces overseas as of October 1 of each year. This information is provided by the U.S. Department of Commerce, Bureau of the Census.
- [4] Represents the average number of full-time equivalent (FTE) positions actually used to conduct IRS operations. Excludes positions funded by reimbursements from other Federal agencies and private companies. In contrast, IRS labor force counts in Table 31 (Internal Revenue Service Labor Force, Compared to National Totals for Civilian and Federal Labor Forces, by Race/Ethnicity and Gender) represent the number of persons, including part-time and seasonal workers, employed at any time during the fiscal year.

NOTE: All amounts are in current dollars.

[1] Represents the average number of full-time equivalent (FTE) positions actually used (all direct appropriations) to conduct IRS operations. Counts include all direct appropriations and exclude positions funded by reimbursements received from other Federal agencies and private entities for services performed for these external parties.

[2] Beginning with Fiscal Year 2009, the "Full-time permanent" and the "Other" categories have changed. Seasonal employees, previously classified in the "Other" category in prior *Data Books*, are now classified as "Full-time permanent" employees. The "Other" category excludes seasonal employees but includes, for example, temporary, part-time, term appointment, and student-trainee employees. Fiscal Year 2008 data have been revised to allow comparison between fiscal years.
