Corporation Source Book of Statistics of Income, 1985

NOTES

* Estimate should be used with caution because of the small number of sample returns on which it is based.

** In order to avoid disclosure of information for specific corporations, these data have been combined with data in a lower asset size class.

*** In order to avoid disclosure of information for specific corporations, these data have been deleted. Data are included in appropriate totals.

✓ This asset size class includes data from one or more higher size classes. See note number 3 below for further explanation.

(– 0) Less than $500 per return.

1. Income year 1985 covers corporation accounting periods ended July 1985 through June 1986.

2. Size of total assets are in thousands of dollars, except for the third asset column which should be read as $1 under $100,000.

3. Detail may not add to totals due to rounding and deletion of data. The statistics at the major group level were derived by adding the appropriate minor industries after combinations or deletions of asset size classes had been made. The statistics of industrial divisions and the U.S. Totals were similarly derived by added the appropriate major groups and industrial divisions, respectively. These differences are particularly evident for the Net Income, Total lines when comparing identical industries between the two sections ("Returns With and Without Net Income" and "Returns With Net Income").

4. Form 1120–DISC, Domestic International Sales Corporation, has been repealed and Form 1120–1C–DISC, Interest Charge Domestic International Sales Corporation Return, and Form 1120–FSC, U.S. Income Tax Return of a Foreign Sales Corporation, are new for tax year 1985.

5. When data are the same for minor and major industries, only the major industry is shown. When data are the same for minor, major and industrial division industries, only the industrial division is shown.

6. Net long-term capital gain reduced by net short-term capital loss includes amounts from Forms 1120S, which are included in computed total receipts for Tax Year 1985. This is a change from the 1984 Source Book which did not include the 1120S amounts for net long-term capital gain reduced by net short-term capital loss in computed total receipts.

7. See the report STATISTICS OF INCOME—1985, CORPORATION INCOME TAX RETURNS, for a discussion of these statistics including:

   Changes in law
   Description of the sample and limitations of the data
   Explanation of terms
   Facsimilies of corporation income tax return forms, 1985
