This report presents data from the 1980 partnership returns including receipts, cost of sales and operations, deductions, net income (deficit), capital gains (losses), and number of limited partnerships. Classifications are by industry, size of business receipts, size of total assets, States, and number of partners.

Special Statistics of Income tabulations can be produced on a reimbursable basis upon request to the Director, Statistics of Income Division, D:R:S, Internal Revenue Service, Washington, DC 20224.

COMMISSIONER OF INTERNAL REVENUE

Washington, DC 20224

December 21, 1982

The Honorable Donald T. Regan
Secretary of the Treasury
Washington, DC 20220

Dear Mr. Secretary:

I am transmitting the complete report, Statistics of Income--1980, Partnership Returns. This report has been produced in accordance with the mandate of section 6108 of the Internal Revenue Code which requires the preparation and publication of statistics reasonably available with respect to the operation of the internal revenue laws.

The report presents information on receipts, cost of sales and operations, deductions, net income (deficit), capital gains (losses), and number of limited partnerships. Classifications are by industry, size of business receipts, size of total assets, States, and number of partners.

With kind regards,

Sincerely,

Roscoe Egger

Section 1

Introduction and Summary*

The statistics in this report are estimates derived from a stratified probability sample of the 1.5 million partnership returns filed for Income Year 1980.

The report is organized into five sections. Section 1 is an introduction and summary of partnership activity for the year, including law changes from the prior year. Section 2 describes the sampling methodology and limitations of the data. Section 3 consists of tabulations for partnerships active during 1980. (Also included in Section 3 is Table 9, a corrected version of Table 4: Selected Items, by Selected Industries and Size of Total Assets, from the 1979 report.) Section 4 contains an explanation of the terms used in the report. Section 5 consists of the return forms and instructions.

Following Section 5 is a user survey designed to help the Statistics of Income Division determine the exact needs of users of this report. Your cooperation in completing this form is much appreciated.

RETURNS COVERED

Partnerships, as defined by the Internal Revenue Code, include joint ventures, syndicates, groups, pools, and other associations of two or more persons organized for profit that were not specifically classified in the Code as corporations. Partnerships are not taxable as such; the partners, who can be individuals, estates, trusts, partnerships, or corporations, report their share of the partnership's taxable income (or loss) on their own (e.g., individual, corporation, etc.) income tax returns.

Not all partnership business activity for Income Year 1980 is represented in these statistics. If there were special agreements among the partners to allocate certain income or expenses in ways not proportionate to their share interests, these income or expense items were not reported as a part of the partnership's income. They were reportable only on the partners' returns (although not always identifiable as such) and thus are not included here. The statistics also do not include deductions for charitable contributions, most dividends received from domestic corporations, foreign taxes paid, additional first year depreciation, and depletion on oil and gas properties, which were reported by the partners on their returns and not by the partnership.

In addition, the parties involved in joint production, extraction, investment, or use agreements that did not involve selling services or property produced or extracted could elect, under Code section 761, not to be considered as partnerships. The partners in such agreements reported their share of the business income and deductions on their own returns, and no return was filed for the group. The extent of these business activities is not known.

HIGHLIGHTS FOR 1980

As Figure A indicates, there are several data items in this report which show significant changes from the amounts reported for 1979. Two of these deserve special attention: the number of partners and partnership net income less deficit. The number of partners showed an increase of 21.1 percent, from 7.0 million to 8.4 million. This large increase, coupled with the fact that the number of returns increased by only 5.6 percent, caused the average number of partners per return to rise from 5.4 to 6.1. While this increase in the average number of partners per return was rather large, it is consistent with the trend of increasing average number of partners shown in Figure B. This graph indicates that between 1970 and 1980, the average number of partners fell from the previous year only twice, for 1971, when it fell from 4.0 to 3.9, and for 1978, when it fell from 5.3 to 5.0. Overall, the average number of partners rose from 4.0 for 1970 to 6.1 for 1980.

An examination of the average number of partners by industrial division for 1970 and 1980 (Figure C) gives an indication of the cause for the increase in number of partners. Two divisions in particular showed sizable increases in the number of partners over this period. From 1970 to 1980, the mining division showed an increase from 12.9 to 20.6 - an increase of 7.7 partners per return, or 60 percent. Finance, insurance, and real estate increased from 6.2 to 8.7 - an increase of 2.5 partners per return, or 40 percent. There were a significant number of partnerships organized as tax shelters in these two industrial divisions. Since tax shelters are designed to allow large numbers of investors to participate, it is not at all surprising to see the largest rise in number of partners in those industries where tax shelters are most common.

The second data item showing a significant change from 1979 is partnership net income less deficit, which fell from $15.2 billion for 1979 to $8.2 billion for 1980, a decrease of 46 percent. This is the largest drop ever registered in partnership net income less deficit since the initiation of the annual partnership Statistics of Income program for 1957. Overall net income less deficit decreased by $7.0 billion, and every industrial division except services showed a decrease for 1980. The largest drops were registered in finance, insurance, and real estate, which fell by $3.7 billion, and mining, which dropped by $1.7 billion. While the overall drop in net income less deficit may be explained, at least partially, by the economic recession experienced in 1980, the fact that the same industries which had the largest increase in average number of partners also had the largest decrease in net income less deficit suggests that increased tax shelter activity was also partially responsible for the large drop in net income less deficit.

*This report was prepared by Patrick Piet of the Special Projects Section of the Corporation Statistics Branch under the direction of Linda Taylor and David Watson.

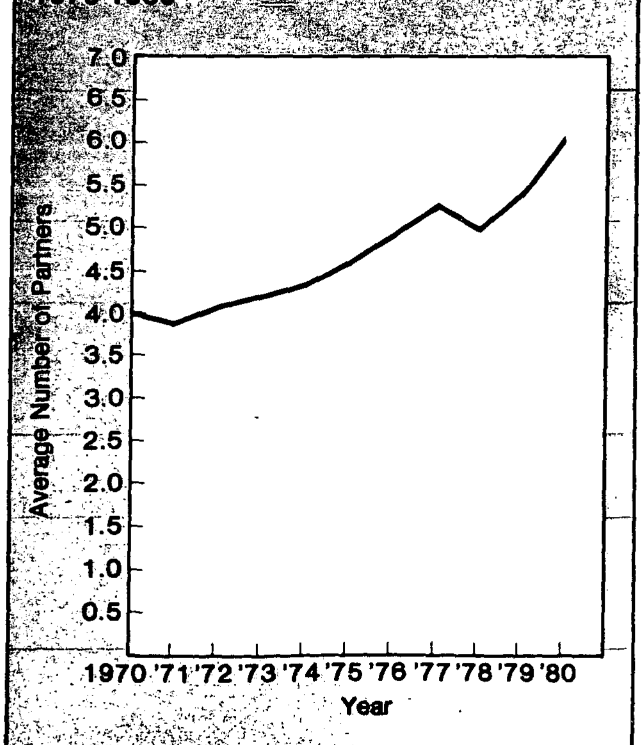
Figure A.--Selected Items for Partnerships, 1979 and 1980

[All figures are estimates based on samples--money amounts are in billions of dollars]

Item	1979	1980	Change, 1979 to 1980	
			Number or amount	Percent
	(1)	(2)	(3)	(4)
Number of partnerships, total	1,375,919	1,467,132	91,213	6.6
Inactive partnerships[1]	76,326	62,537	-13,789	-18.1
Active partnerships	1,299,593	1,379,654	80,061	6.2
Number of partners	6,954,767	8,419,899	1,465,132	21.1
Total assets	447.1	597.5	150.4	33.6
Total receipts	258.2	292.0	33.8	13.1
Business receipts	242.7	271.1	28.4	11.7
Total deductions	243.0	283.7	40.7	16.7
Cost of sales and operations	102.1	113.9	11.8	11.6
Depreciation	17.7	21.6	3.9	22.0
Taxes paid	8.3	9.6	1.3	15.7
Interest paid	21.3	28.4	7.1	33.3
Payroll	26.1	29.3	3.2	12.3
Guaranteed payments to partners	4.1	4.7	0.6	14.6
Net income	40.0	45.1	5.1	12.8
Deficit	24.8	36.8	12.0	48.4
Net income (less deficit)	15.2	8.2	-7.0	-46.1

[1] Includes amended and duplicate returns (see Section 2).

Figure B
Average number of partners per return, 1970-1980



An additional factor which contributed to the drop in net income less deficit in the mining division was the decontrol of domestic crude oil prices initiated in 1980. Allowing the price domestic producers could charge for crude oil to rise encouraged the formation of many new oil and gas extraction partnerships. These partnerships generally have large net losses in the first years of existence, because they are allowed to deduct development costs (known as intangible drilling costs) as these costs are incurred rather than allocating them over the life of the well. (Intangible drilling costs are reported by partnerships on the line for "other deductions", and thus are not specifically identifiable.)

A study of the sampled returns used to estimate the 1980 figures revealed that there was a large number of oil and gas partnerships formed in 1980 and that these partnerships tended to have large net losses. The fact that the decontrol of oil prices encouraged the formation of new oil and gas partnerships has been confirmed both by IRS field personnel and by representatives of investment companies which organize these activities.

Reasons for the large drop in net income less deficit for returns in finance, insurance, and real estate have not been as easily identified and substantiated. However, the large rise in interest rates during 1980 appears to be primarily responsible for the drop in net income. For 1979, interest deducted by partnerships amounted to $16.1 billion, and for 1980, to $21.5 billion, an increase of $5.4 billion or over 33 percent, while total deductions increased from $76.8 billion to $91.4 billion, an increase of 19 percent. Also, the interest deduction represents the largest single deduction item for partnerships in finance, insurance, and real estate.

Figure C.--Average Number of Partners by Industrial Division, 1970 and 1980

Industrial division	Average number of partners per return			
	1970	1980	Change number	Change percent
	(1)	(2)	(3)	(4)
All returns	4.0	6.1	2.1	52.5
Agriculture, forestry, and fishing	2.6	3.0	0.4	15.4
Mining	12.9	20.6	7.7	59.7
Construction	2.2	2.4	0.2	9.1
Manufacturing	2.5	3.0	0.5	20.0
Transportation, communication, electric, gas, and sanitary services	2.4	3.6	1.2	50.0
Wholesale and retail trade	2.3	2.4	0.1	4.3
Finance, insurance, and real estate	6.2	8.7	2.5	40.3
Services	3.0	3.6	0.6	20.0

The interest paid by financial enterprises to obtain funds is analogous to the cost of raw materials for manufacturing concerns. Any increase in this cost would have an impact on the profitability of the business. Insurance and real estate firms also rely heavily on borrowed funds in order to conduct business and thus would be adversely affected by an increase in interest rates.

In summary, the economic recession of 1980, the decontrol of domestic crude oil prices, an increase in tax shelter activity, and the sharp increase in interest rates combined to produce the largest drop in net income less deficit ever recorded in the partnership statistics.

RECONCILIATION OF PARTNERSHIP NET INCOME FIGURES

The amount of net income less deficit in this report is $8.2 billion, compared with an estimate of $9.4 billion reported by individual taxpayers in the report Statistics of Income--1980, Individual Income Tax Returns. While the figure is fairly close between the two reports, the components of net income and loss differ greatly. In this report, returns with income only reported a total of $45.1 billion, while in the individual report, net profit from partnerships was reported as $25.6 billion. Similarly, net loss in this report is $36.8 billion, while in the individual report it is listed as $16.2 billion. The primary reason for these wide differences in net income and net loss figures is that on individual returns, taxpayers often combine net income or loss for several partnerships; very often there are both partnership gains and losses reported on the same return. The gains and losses reported cancel each other out, resulting in smaller magnitudes of net income and net loss in the individual report.

The difference in net income less deficit between the two reports can be explained by noting several factors. First, it should be noted that all figures in both reports are estimates based on samples of returns and are subject to sampling variability. Also, not all partners are individuals; some are corporations, estates, trusts, or other partnerships. To the extent that a taxable entity (i.e., a corporation, estate, or trust) was a partner in a partnership, its share of income from the partnership will be reported on that entity's tax return and not on an individual tax return. No statistics are available to measure the amount of partnership income attributable to partners which are not individuals.

Another factor accounting for the difference between net income less deficit from the two reports is that not all partnerships are required to file a return (see "Returns Covered"). Also, partnership net income less deficit reported on individual income tax returns includes guaranteed payments of salaries and interest to partners, which is allowed as a deduction in computing partnership net income. Finally, some difference in net income less deficit occurs because of differences in the accounting period used by the partnership and the partners. This can result in the partnership's income being reported in one year's Statistics of Income report for partnerships and the partner's income in a different year's individual Statistics of Income report.

CHANGES IN LAW

There was only one major change in law which affected the comparability of the statistics in this report with those from prior years.

The limit on wages subject to social security (FICA) tax was increased from $22,900 in 1979 to $29,700 in 1980. In addition, the tax rate was raised from 6.13 percent in 1979 to 6.65 percent in 1980. An employer was required to match the FICA tax withheld from its employees' wages. In the statistics, the employer's share of the FICA tax is generally included in the "taxes paid" deduction.

Section 2

Description of the Sample and Limitations of the Data*

This section describes the sample criteria and selection of returns, the method of estimation and presentation of the data, and the sampling variability of the estimates contained in this report. It also describes some of the nonsampling error limitations of the data.

SAMPLE SELECTION

The data presented in this report are estimates based on a stratified probability sample of unaudited Forms 1065, Partnership Returns of Income, filed during Calendar Year 1981.

The returns were stratified into sampling classes by computer, based upon the principal business activity, the size of gross receipts and total income or loss, and total assets. Returns were selected from the various sample strata at rates ranging from 0.2 percent to 100 percent. As indicated in Figure D, this procedure yielded a sample of 45,770 returns from a population of 1,467,132 returns.

Amended and tentative returns were excluded from the sampling procedure because another return filed by the same partnership was subjected to sampling. Duplicate returns, which usually resulted when two or more partners filed a return for the same partnership, as well as returns of inactive partnerships, were sampled but not included in the tabulations (other than in Figures A and D) presented in this report. As Figure A indicates, there was an estimated total of 62,537 inactive, amended (identified as such after sample selection), and duplicate returns filed.

Figure D.--Partnerships: Number of Returns in the Population and Sample, 1980

Description of the sample strata			Number of returns: Population	Number of returns: Sample
Total			1,467,132	45,770
Returns with primary business activity code 6511,[1] total			408,326	8,421
Net receipts and total income or deficit		Total assets		
Both under $5,000,000		Not reported or under $200,000	239,155	862
Both under $5,000,000		$200,000 under $1,000,000	116,432	1,646
Both under $5,000,000		$1,000,000 under $5,000,000	44,876	2,827
Both under $5,000,000		$5,000,000 under $25,000,000	6,998	2,221
Both under $5,000,000 At least one $5,000,000 or more	or	$25,000,000 or more Any amount	865	865
Returns with primary business activity codes other than 6511, total			1,058,806	37,349
Net receipts and total income or deficit		Total assets		
Both under $200,000		Not reported or under $100,000	710,345	6,451
Both under $200,000		$100,000 under $1,000,000	171,158	5,713
Both under $1,000,000 and at least one $200,000 or more		Not reported or under $1,000,000	120,515	6,055
Both under $1,000,000		$1,000,000 under $5,000,000	25,087	3,523
Both under $5,000,000 and at least one $1,000,000 or more		Not reported or under $5,000,000	21,556	5,462
Both under $5,000,000		$5,000,000 under $25,000,000	5,015	5,015
Both under $5,000,000 At least one $5,000,000 or more	or	$25,000,000 or more Any amount	5,130	5,130

[1]Primary business activity code 6511 is defined as: real estate operators (except developers) and lessors of buildings.

*Paul B. McMahon designed the sample and monitored and coordinated its implementation. He is member of the Operations Section, Corporation Statistics Branch (Sandra McDowell, Acting Chief).

METHOD OF ESTIMATION AND PRESENTATION OF THE DATA

The estimates in the tables were computed using weighting factors obtained by dividing the computer count of returns filed in a sampling class by the number of returns sampled in that class. In contrast to prior years' practice of converting decimal weights into integer weights, for 1980, weights computed to two decimal places were applied to the data in the sampled returns. (See "Decimal Weighting" below).

Whenever a weighted frequency was less than 3, the estimate was combined or deleted in order to avoid disclosure of information about specific partnerships. These combinations and deletions were indicated by a double asterisk (**). Estimates based on less than 10 sampled returns were considered to be unreliable. They were noted by a single asterisk (*) to the left of the data item unless all of the sampled returns were selected at the 100 percent rate. The method of determining whether to mark an estimate with an asterisk under this "rule of ten" was changed for the 1980 report. In prior years, the unweighted frequency for the particular estimate was considered. This year, however, the total unweighted number of returns in that classification (i.e., state, size class, etc.) determined whether to place an asterisk beside an estimate. In practice, this means that an entire line of data received an asterisk rather than on a cell-by-cell basis. A dash (-) in place of a frequency or amount estimate indicates that no return in the sample had that characteristic.

SAMPLING VARIABILITY

The sample used in this study is one of several possible samples that could have been selected using the same sample design. Estimates derived from the different samples would differ from each other. This difference among the possible samples' estimates is called sampling variability. The standard error of an estimate is a measure of the variation among the possible estimates, and thus is a measure of the precision with which an estimate from a particular sample approximates the average result of all possible samples.

The coefficient of variation is the standard error of an estimate expressed as a percent of the estimate. The standard error, when added to and subtracted from the value of the estimate, provides upper and lower limits within which approximately two out of three estimates derived from similarly selected samples would be expected to fall. Figure E provides upper limit coefficients of variation for selected numbers of returns. These upper limit coefficients of variation exceed the actual coefficient of variation for estimates of numbers of returns, and hence are only intended as a general indication of the reliability of the data. The upper limit coefficients of variation are not applicable to estimates of money amounts.

Figure E.--Upper Limit Coefficients of Variation for National Level Estimates

Number of partnerships	Coefficient of variation (Percent)
2,200	50
4,500	35
14,000	20
55,000	10
220,000	5
1,400,000	2

NOTE: These coefficients of variation are applicable to frequency (number of returns) estimates only. Do not use with estimates of money amounts.

To estimate an upper limit coefficient of variation (cv) for a frequency not given above, use linear interpolation. For example, the cv for an estimate of 30,000 returns has an upper limit cv of 16%.

The sample estimate and an estimate of its standard error permit the construction of interval estimates with prescribed confidence that the interval includes the average result of all possible different samples. For example, in table 3, column 1, the number of returns for apparel and accessory stores in the wholesale and retail trade division is shown as 14,606. A coefficient of variation of 19.9 percent is obtained by using Figure E.

The standard error of the estimate SE(X), is needed to construct the interval estimate; it is the product of the estimate, X, and its coefficient of variation, CV(X):

$$\begin{aligned} SE(X) &= X \cdot CV(X) \\ &= 14{,}606 \cdot (0.199) \\ &= 2{,}907 \text{ returns.} \end{aligned}$$

The SE(X) value (2,907 returns) is then subtracted from and added to the estimate X to construct a 68 percent confidence interval estimate. The interval is computed using this formula:

$$(X-SE(x)) \leq Y \leq (X + SE(x))$$

with 68 percent confidence, where Y is the population value estimated by X. Based on the data for this example, the interval estimate is from 11,699 (14,606 - 2,907) returns to 17,513 (14,606 + 2,907) returns. A conclusion that the average estimate of the number of returns lies within an interval computed in this way would be correct for approximately two-thirds (68 percent) of all possible similarly selected samples. To obtain this interval estimate with 95 percent confidence limits, multiply the SE(X) value by two. (For this example, the resulting interval would be from 8,792 returns to 20,420 returns).

INDUSTRIAL CLASSIFICATION

Each active partnership return in the statistical sample was assigned to an industry class, even though that partnership may have been engaged in more than one kind of industrial activity. The industry groups used were based on the Standard Industrial Classification (SIC) Manual, 1972 edition (authorized by the Statistical Policy Branch, Office of Information and Regulatory Affairs, Office of Management and Budget), modified, where necessary, to fit the information available from tax returns for identifying industries.

Returns in the sample were examined during statistical processing, and each was assigned an industry code. In assigning the industry code, the following factors were considered: the partnership's description of its business activity and its principal product or service, the code entered on the return by the partnership to describe its principal business activity, the sources of the partnership's income, the nature of its expenses, and, where necessary, information from various reference books, such as Dun and Bradstreet reports, Moody's Manuals, and Thomas' Register of American Manufacturers.

The fact that, in all cases, a partnership was assigned to a single industry is a limitation of the data. Since some partnerships are engaged in several business activities, some data in the partnership industry groups are not necessarily related to the industrial activity under which they are shown.

The industry classification system used for 1980 was unchanged from 1979. In the report Statistics of Income--1978, Partnership Returns, a comparison can be found of the SIC groupings and the industries used here.

STATE CLASSIFICATION

A partnership was classified by State according to the mailing address shown on the return form. The mailing address usually reflected the State where the partnership conducted its business. However, some partnerships may have used other addresses, such as a business office or a private residence of one of the partners, the office of a practitioner who prepared the return, or a post office box. The geographic data are subject to limitations to the extent that the State used in the mailing address differed from the State in which the partnership actually did business. Additional discrepancies resulted when a partnership was engaged in business operations in more than one State. This was characteristic of some of the larger partnerships, or those engaged in particular industrial activities (such as security dealers), or those whose mailing address represented merely the location of the office where their books of account were maintained.

Since the sample of partnership returns was designed to yield national rather than State statistics, reliable State estimates are not available for many industry classes; hence, in the State tabulation (Table 6), it was decided to present only a few selected data items and no industrial detail.

DECIMAL WEIGHTING

As mentioned previously, the practice of using integer weight factors to weight the sample returns up to population figures was discontinued for the 1980 report. Instead, weights computed to two decimal places were used for weighting sample returns. Under the previous system, if a weight of 2.24 was computed for a sampling class, 24 percent of the returns in that class systematically received an integer weight of 3, and 76 percent received an integer weight of 2. This year, however, if a weight of 2.24 was computed for a sampling class, all returns in that class would receive a weight of 2.24. This change was made for two reasons.

First, decimal weighting improves the accuracy of estimates. This is due to the possibility that under the integer weighting system, returns with amounts toward the upper end of the sampling class could obtain larger weights. For example, the decimal weight for the class with assets $5,000,000 under $25,000,000 might be 2.24. A return falling in that class reporting total assets of $24,900,000 could receive an integer weight of 3, yielding a weighted estimate of total assets from that return of $74,700,000. However, using decimal weighting, the return and all other returns in the sample class would receive a weight of 2.24. Thus, the return would yield a weighted estimate for total assets of $55,776,000, which differs from the estimate using integer weighting by $18,924,000. While the system for deciding which weight is applied to a return under the integer weighting system was designed to minimize the chances of the occurrence described above, the possibility of such an event still existed. Decimal weighting, by giving the same weight to all returns in a sampling class, eliminates the possibility of distortions in the estimates of the type described above.

The second reason for using decimal weighting is that it is a much simpler method of assigning weights. Therefore, the chance of assigning an incorrect weight to a return is significantly reduced. However, one aspect of the use of decimal weights should be mentioned. Because integer weights are whole numbers, all weighted frequencies were in whole numbers; however, using decimal weights produces weighted frequencies (i.e., number of partnerships) that must be rounded to the nearest integer. This rounding may produce a discrepancy between totals and the corresponding detail. (Because money amounts are rounded to the nearest thousand, there has always been a discrepancy between amount totals and corresponding detail.) For example, detail industries under "Agricultural Sevices" in column 1 of table 3 add to 12,509, while the total for this industrial group is shown as 12,510.

However, the benefits of increased accuracy in weighting using decimal weights outweigh the small differences observed in frequency totals.

OTHER DATA LIMITATIONS

Various techniques were used to control and improve the quality of the data during the processing stages. During sampling, in order to make sure that the sample was being selected according to the sample design, a comparison was made between the expected and realized number of returns sampled. During statistical editing, editors were instructed to correct tax return errors wherever possible through reference to other entries on the return or accompanying schedules and to adjust data to achieve consistency in statistical definitions.

The quality of the editing was controlled by means of a continuous subsampling verification system at the processing centers which resulted in 17.8 percent of the documents being reviewed. (All errors found in the review were corrected.)

Prior to tabulation, numerous computer tests were applied to each return record to check for inconsistencies. Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness in light of the provisions of tax laws, taxpayer reporting variations and limitations, economic conditions, and the statistical techniques used in data processing.

Section 3 Basic Tables

INDUSTRY MEASUREMENTS

Partners, partnerships, total assets, business receipts, selected deductions, net income, and capital gains (common to each table listed below):

- maximum industry detail (table 3), 28
- selected industries and size of business receipts (table 4), 33
- selected industries and size of total assets (tables 5,9*), 49, 70
- selected industries and number of partners (table 7), 62
- selected industries and number of limited partnerships (table 8), 69

Total assets and income statement: selected industries (table 1), 10

Total assets, total liabilities and capital: selected industries (table 2), 19

INCOME STATEMENT

Total assets: selected industries (table 1), 10

RETURNS WITH NET INCOME

Total assets and income statement: selected industries (table 1), 10

Total assets, total liabilities and capital: selected industries (table 2), 19

SIZE OF BUSINESS RECEIPTS

Partners, partnerships, total assets, business receipts, selected deductions, net income, and capital gains: selected industries (table 3), 28

SIZE OF TOTAL ASSETS

Partners, partnerships, total assets, business receipts, selected deductions, net income and capital gains: selected industries (tables 5,9*), 49, 70

STATE DATA

Partners, partnerships, total assets, business receipts, selected deductions, net income and capital gains (table 6), 61

* Table 9 is a corrected version of table 4 from the 1979 Partnership Publication No. 369 (5-82); it presents the same data as are shown for 1980 in table 5 (Selected Items by Selected Industries and Size of Total Assets).

Table 1.—Total Assets and Income Statement for Selected Industries

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Item	All industries	Agriculture, forestry, and fishing

Note: "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.
Detail may not add to total due to rounding.

Table 3. — Selected Items, by Industries

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Industry	Partnerships with and without net income: Number of partnerships: Total	Number of partnerships: Limited	Number of partners	Total assets	Business receipts[1]	Cost of sales and operations	Depreciation	Taxes paid deduction	Interest paid	Payroll	Guaranteed payments to partners	Net income (less deficit)	Net short-term capital gain (less loss)	Net long-term capital gain (less loss)
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately to avoid disclosure of informaton for specific partnerships. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]Less than $500.

NOTE: Detail may not add to total due to rounding.

*This estimate should be used with caution because of the small number of sample returns on which it was based.
**Identifies (a) size classes for which data were deleted to avoid disclosure of information for specific partnerships and (b) combined frequencies or amounts which include the data thus deleted from another size class.
[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.
[2]Less than $500.
NOTE: "Farms not allocable," "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals. Detail may not add to total due to rounding.

*This estimate should be used with caution because of the small number of sample returns on which it was based.
**Identifies (a) size classes for which data were deleted to avoid disclosure of information for specific partnerships and (b) combined frequencies or amounts which include the data thus deleted from another size class.
[1]Total receipts for Finance, insurance, and real estate, and Business receipts for all other industries.
[2]Less than $500.
NOTE: "Farms not allocable," "Contractors not allocable," "Wholesale and retail trade not allocable," and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals.
Detail may not add to total due to rounding.

Table 6. — Selected Items, by States

[All figures are estimates based on samples—money amounts are in thousands of dollars]

State	Number of partnerships: Total	Number of partnerships: Limited	Number of partners	Total assets	Business receipts[1]	Cost of sales and operations	Depreciation	Taxes paid deduction	Interest paid	Payroll	Guaranteed payments to partners	Net income (less deficit)	Net short-term capital gain (less loss)	Net long-term capital gain (less loss)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately to avoid disclosure of information for specific partnerships. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

[2]Less than $500.

NOTE: "Nature of business not allocable" is not shown separately because of the small number of sample returns on which it was based. Estimates for specific industry groups have been combined in certain cases to avoid disclosure of information about specific partnerships. However, the data are included in the appropriate totals. Detail may not add to total due to rounding.

Table 8. — Limited Partnerships: Selected Items for Selected Industries

[All figures are estimates based on samples — money amounts are in thousands of dollars]

Selected industry	Number of limited partnerships	Number of partners	Business receipts[1]	Total assets	Cost of sales and operations	Depreciation	Taxes paid deduction	Interest paid	Payroll	Guaranteed payments to partners	Net income (less deficit)	Net short-term capital gain (less loss)	Net long-term capital gain (less loss)

*This estimate should be used with caution because of the small number of sample returns on which it was based.

[1] Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

NOTE: "Wholesale and retail trade not allocable" and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals. Detail may not add to total due to rounding.

Table 9. — Selected Items, by Selected Industries and Size of Total Assets

*This estimate should be used with caution because of the small number of sample returns on which it was based.

**The estimate for this cell is not shown separately to avoid disclosure of information for specific partnerships. However, the data are included in the appropriate totals.

[1]Total receipts for industries in Finance, insurance, and real estate, and Business receipts for all other industries.

NOTE: "Farms not allocable", "Wholesale and retail trade not allocable", and "Nature of business not allocable" are not shown separately because of the small number of sample returns on which they were based. However, the data are included in the appropriate totals. Detail may not add to total due to rounding.

Section 4

Explanation of Terms

This section contains brief descriptions of the terms appearing in this report. The instructions that accompany the tax forms in Section 5 will provide additional information about many items.

These explanations are designed to aid in understanding the statistical content of this report and should not be construed as interpretations of the Internal Revenue Code or related regulations, procedures, or policies. Code sections cited are those which were in effect during the period covered by this report. There were no changes in the definitions used in last year's report. However, definitions for balance sheet items, which did not appear in last year's report, have been added for 1980.

Accounts Payable

Accounts payable (Schedule L, line 14, column D) were relatively short-term liabilities arising from the conduct of a trade or business which were not secured by notes of indebtedness. Nontrade payables, on the other hand, were generally includable in the estimates for "Other Current Liabilities."

Accumulated Amortization

In reporting the value of intangible assets on their balance sheets, partnerships reported the original cost of their intangible assets and then subtracted the sum of all amortization on these assets up to the ending date of the return. This sum, shown in the statistics as accumulated amortization (Schedule L, line 11a, column C), is, therefore, the sum of all amortization reported on all intangible assets over the life of the assets to date.

Accumulated Depletion

Similar to "Accumulated Amortization," accumulated depletion (Schedule L, line 9a, column C) was the sum of all depletion claimed on depletable assets. Depletable assets include natural deposits such as minerals, oil, and gas, as well as timber.

Accumulated Depreciation

Accumulated depreciation (Schedule L, line 8a, column C) was the sum of all depreciation taken on depreciable assets. Depreciable assets include property used in business with a useful life of more than one year such as buildings, machinery and equipment, and automobiles.

Active Partnerships

Every partnership engaged in a trade or business or having income from sources within the United States and recognized for taxable purposes must file Form 1065, except those involved in activities discussed in Section 1 under "Returns Covered." However, the statistics in this report are only from the returns of "active" partnerships, that is, those partnerships reporting at least one item of income or deductions. Returns reporting only interest exempt from tax, interest on tax-free covenant bonds, and qualifying dividends from certain domestic corporations, as well as those reporting no items of income or deductions, were classified as inactive.

Allowance for Bad Debts

Most partnerships identified on their balance sheets the allowance or reserve set aside to cover uncollectable or doubtful notes and accounts as an adjustment to "Notes and Accounts Receivable" on Schedule L, line 2a, column C. A few partnerships, however, reported only net receivables and thus did not show the allowance for bad debts.

Amortization

Amortization (Form 1065, page 1, line 21) was a deduction for recovery of certain capital expenditures over a period of time in a manner similar to straight-line depreciation. Typically, the period of time over which the expenditure is written off is much shorter than if depreciation had been used; depending on the specific provision of the law, the period of time may be as little as 60 months. The following types of amortization, applicable to the statistics in this report, are specifically mentioned in the Code as allowable deductions:

.bond premiums (section 171)
.child care facilities (section 188)
.expenditures to rehabilitate a certified historic structure (section 191)
.lessee's improvements to leased property (section 178)
.low-income rental housing rehabilitation expenditures (section 167)
.motion picture film or video tape production costs (section 280)
.organization and syndication fees (section 709)
.pollution control facilities (section 169)
.railroad rolling stock (section 184)
.railroad tunnel bores and grading (section 185)
.real property construction period interest and taxes (section 189)
.research and experimental expenditures (section 174)
.trademark and trade name expenditures (section 177)

Of these, amortization of leasehold improvements was frequently reported by the partnership as depreciation, and amortization of bond premiums (as well as other financial items such as loan or mortgage costs) was often reported as part of "other deductions." Write-offs of patents, copyrights, and other intangibles were usually included in depreciation. None of these amounts involved rapid write-offs of the assets concerned. Therefore, in order to confine the statistics as far as possible to rapid write-offs, identifiable amounts reported as amortization that related to leasehold improvements, bond premiums (or other financial items), and intangible assets, have been transferred to depreciation or "other deductions," as appropriate. An exception was made for partnership motion picture film and video tape production costs. These amounts were accepted as reported and no attempt has been made to transfer them to the depreciation statistics if they were reported as amortization. See also "Depreciation."

Amortization includes organization and syndication fees and amounts which partnerships entered on the schedule of cost of goods sold but are identifiable as amortization.

Bad Debts

Bad debts occurring during the year, or reasonable amounts added to a reserve for bad debts (Form 1065, page 1, line 18) were allowable as deductions under section 166 of the Code.

Recoveries of bad debts previously deducted by taxpayers who used the reserve method were netted against the current year's bad debt deduction; recoveries by taxpayers deducting actual bad debts were included in "other receipts" of partnerships.

Buildings and Other Depreciable Assets

Depreciable assets, reported on the partnership's end-of-year balance sheet (Schedule L, line 8, column C), consisted of tangible property (such as buildings and equipment) which had a useful life of 1 year or more and was used in the trade or business, or held for the production of income. The statistics for this item could include fully depreciated assets still in use and partially completed assets for which no deduction was allowable when the partnership reported them as depreciable in its balance sheet. The statistics for depreciable assets excluded those intangible assets such as patents and copyrights which were depreciable or amortizable only for tax purposes. Such assets were includable in "intangible assets." The amounts shown as accumulated depreciation represent the portion of the assets that were written off in the current year as well as in prior years.

The amounts shown for depreciable assets were, in general, the gross amounts before adjustments for depreciation or amortization charged in current and prior years. Some partnerships, however, reported only the net amount of depreciable assets after adjusting for these depreciation or amortization charges.

The value of depreciable assets and accumulated depreciation may not be closely related to the current year depreciation deduction. The depreciable assets and accumulated depreciation balance sheet accounts reflected book values; the depreciation deduction reflected the amount claimed for tax purposes.

Business Receipts

Business receipts (Form 1065, page 1, line 1c) were, in general, gross receipts from sales and operations reduced by the cost of returned goods and allowances. They may have included excise and sales taxes which were included in the sales price of the product. Some taxpayers reported receipts this way and deducted the taxes as expenses, while others reported their receipts after adjustment for any taxes.

Generally, business receipts were income from the partnership's principal business activities. However, there were several exceptions to this rule. First, for partnerships in the finance industries, business receipts included such banking items as fees, commissions, trust department earnings, exchange collections, discounts, and service charges. Second, rents earned in addition to the company's principal income, and interest, royalties, and nonqualifying dividends were for the most part reported separately. However, when rent was actual operating income (e.g., hotels, real estate operators, and manufacturers who rented rather than sold their products), the rental income was often reported in business receipts. In addition, if gross rental income was the largest item of income, this amount was transferred into the business receipts field during statistical processing. Finally, incidental income, such as cash discounts or recoveries of taxes or bad debts previously deducted, was usually shown as "other receipts."

Returns filed by partnerships in the "Security, commodity brokers, and services" industry and the "Banking and miscellaneous finance" industry were given special treatment in statistical processing. Sales of securities were netted against the cost of these financial instruments, and only the net amount was shown as business receipts. Since it was usually not possible to separate sales of securities from other sources of receipts such as commissions, an arbitrary rule was used for partnerships in the specified industries; if cost of sales and operations was 50 percent or more of business receipts, costs were subtracted from receipts, and the difference was used as business receipts.

Gross income from farming was not reported on page 1 of Form 1065 by the taxpayer. Instead, the taxpayer reported net farm income on line 9 of Form 1065, and gross receipts and deductions on Schedule F attached to the return. Amounts from Schedule F were allocated to the applicable page 1 lines during statistical processing. However, business receipts from farming were understated because they did not include receipts from the sale of livestock held for draft, breeding, dairy, or sporting purposes. Income from the sale of such cattle and horses held for at least 2 years and other livestock (except poultry) held for at least 1 year was reported as gain or loss from the sale or exchange of property, rather than as business receipts, and was reported on line 10 of page 1 of Form 1065.

Capital Gains and Losses

Capital gains and losses resulted from the sale or exchange of capital assets, which for partnerships were generally defined in the Code to include any assets of the partership not used in the normal course of business. Thus, types of property specifically excluded from treatment as capital assets included property held primarily for sale to customers in the ordinary course of business, depreciable business property, such as machinery, real estate used in the partnership's trade or business, and accounts or notes receivable acquired in the normal course of business. The net gain or loss realized by the partnership was reported separately from the gain or loss from normal business activities and was included in the income of the partners.

Net short-term gain or loss (Schedule D, line 3, column F) was the net amount of gain or loss from the sale of capital assets held by the business for one year or less. Net long-term gain or loss (Schedule D, line 7, column F) was the net gain or loss resulting from the sale of capital assets held for more than one year.

Net gains from the disposition of certain types of property not classified as capital assets could be afforded capital gains treatment under section 1231 of the Code. Assets qualifying under this section included depreciable property used in business, such as machinery and buildings, and other specific types of property such as cut timber, coal, domestic iron ore (and their royalties), livestock, and unharvested crops sold with the land, if the land were held for more than one year. This provision applied only to net gains from such property; net losses were treated as ordinary loss by the partnership.

The gains of section 1231 may be cancelled out or reduced if the property in section 1231 qualifies under other Code sections (e.g., 1245, 1250, or 617).

Cash

This balance sheet asset item (Schedule L, line 1, column D) included the amount of actual money, instruments, and claims which were usable and acceptable as money.

Cost of Labor

Cost of labor was a component of cost of sales and operations. For partnerships engaged in farming and using Schedule F, which does not contain a cost of sales and operations schedule as such, it represented the amount reported in Schedule F, page 1, part II, line 33a, "labor hired." For nonfarm partnerships, it was the amount reported in Schedule A, line 29 on page 1 of Form 1065. In both cases, the taxpayer was required to reduce the deduction for cost of labor by the amount claimed for the targeted jobs credit. (See also "Payroll.")

Cost of Sales and Operations

If the receipts of the partnership included income from the sale of goods made or bought, cost of goods sold (Form 1065, page 1, line 2) generally included the direct cost of those goods. Therefore, cost of sales and operations included goods purchased for resale (including inventory change) in trade industries, and raw materials, supplies, labor, and other direct costs in agriculture, mining, manufacturing, and other industries whose principal activity was producing goods. "Cost of operations" related to returns for which inventories were not an income determining factor. Cost of operations generally included labor costs, supplies, rental of machinery and equipment, and other direct costs of producing services.

Partnerships which engaged in manufacturing or production operations were required to use the "full absorption" method of valuing inventory, by which both direct and indirect production costs were taken into account in the computation of inventory costs and thereby were included in the cost of goods sold. Indirect costs included repairs, maintenance, utilities, rent, wages of supervisors and other indirect labor costs.

Many partnerships did not report cost of sales and operations completely. Instead, they allocated the various "costs" to "deduction" items on the return, rather than to cost of sales and operations.

During statistical processing, deduction items reported in cost of sales and operations were transferred to the proper item. Some of the transferred items were depreciation, depletion, amortization, taxes (including sales and excise taxes), and contributions to employee pension and other benefit plans.

Farm costs presented special problems because the farm schedule, Schedule F, did not provide for a separate cost of goods sold or cost of operations computation. The cost of sales and operations statistics for farms were constructed during statistical processing from deduction items shown on Schedule F that were comparable to those shown on page 1 of Form 1065. See the discussions in this section under "Purchases," "Cost of Labor," "Materials and Supplies," and "Other Costs."

Statistical adjustments to cost of goods sold made for partnership security dealers are explained under "Business Receipts."

Depletable Assets

In general, depletable assets (Schedule L, line 9, column C) represented the gross value of mineral property, oil and gas wells, other natural deposits, standing timber, intangible development and drilling costs capitalized, and leases and leaseholds subject to depletion. In some instances, depletable assets may have been reported as "Land" or as "Other investments" by the partnership, and could not be identified for this report.

The value of depletable assets may not be closely related to the current-year depletion deduction. The balance sheet accounts reflected book values; the depreciation deduction reflected the amount claimed for tax purposes.

Depletion

Depletion (Form 1065, page 1, line 22), a deduction allowed for the exhaustion of natural deposits or timber, was either based on cost, or, for natural deposits, on a fixed percentage of gross income, less rents and royalties paid, from the depletable property. Generally, for gas and oil wells the gross income was the actual sales price, or representative market or field price if the gas or oil was converted or manufactured prior to sale.

Under elective provisions of the Code, exploration and development expenditures connected with domestic natural deposits (except oil and gas), could either be currently deducted or treated as deferred expenses and ratably deducted as the minerals were sold. The write-offs of deferred amounts were not included as part of depletion.

Percentage depletion was the deduction of a percentage of gross income from the depletable property. The percentage varied according to the type of mineral. The deduction was limited to 50 percent of the net income from the property, computed without the depletion deduction. The percentage depletion rates for each type of deposit were listed in Code section 613 and ranged from 5 to 22 percent.

Generally, percentage depletion could not be used for oil and gas wells. However, independent producers and royalty owners could have used percentage depletion, provided they did not refine more than 50,000 barrels of crude oil in any day and provided they did not sell oil or natural gas through a retail outlet. The depletion deduction for these "small producers" was limited to 65 percent of their net income before the depletion deduction. If the 65 percent limit caused an amount to be disallowed for a taxable year, the partnership could carry the disallowed portion to the next year for inclusion in the depletion deduction. The depletion rate for small producers for Tax Year 1980 was 22 percent for a maximum daily average of 1,000 barrels.

The depletion allowance for oil and gas wells was computed separately by each partner and was not allowed to the partnership. The partnership allocated to each partner a proportionate share of the adjusted basis of each oil or gas property of the partnership. A partner's proportionate share of the adjusted basis of the partnership's property was determined by the amount of that partner's interest in the partnership's capital or income, and by the terms of the partnership agreement.

The statistics include any identifiable depletion reported as a cost of sales and operations.

Depreciation

The deduction for depreciation (Form 1065, page 1, line 20) permitted a reasonable allowance for the exhaustion, wear and tear, and obsolescence of business property in cases where the estimated useful life of the property exceeded one year. A deduction for depreciation was not allowed on inventories, or on land apart from the physical improvements or developments to it.

Several methods of computation may have been used in determining the deduction for the year. The most common method was straight-line, whereby an equal amount was deducted in each year of the useful life of the asset. The declining balance and the sum-of-the-years-digits methods, whereby relatively larger portions of the asset's cost were written off during earlier years, were also commonly used. Accelerated methods of depreciation were restricted for certain kinds of real property.

In lieu of computing depreciation using separate useful lives for each individual asset, standard lives, based on groupings of assets according to the industrial activities in which they were used, were issued in 1962 as guidelines for establishing the "reasonableness" of the depreciation deduction. These "guideline lives" were modified for 1971 under the "class life asset depreciation range" (CLADR) system. Under this system, the partnership grouped assets of the same type acquired in the same year into one or more "vintage" accounts and assigned each account a useful life chosen from a published permissible range of lives. The range of useful lives was generally within 20 percent of the industry-grouped "guideline lives" established under the previous rules. (The Treasury Department could modify the guideline lives in the future as necessary). The only allowable depreciation methods under the system were the straight-line, declining balance, and sum-of-the-years-digits. Under the CLADR system, assets acquired prior to 1971 were depreciated under the revised rules, but no range of useful lives was allowed.

Amounts shown as depreciation included any identifiable depreciation reported as an operating or manufacturing cost. Also included in the statistics were amounts deducted on leasehold improvements, patents, and copyrights. Additional first-year depreciation (section 179) cannot be deducted by partnerships, but was allocated to the partners for reporting on their own returns.

Employee Benefit Plans

Contributions by employers to employee benefit plans other than deferred-compensation plans, deductible under Code section 162, were reported on Form 1065, page 1, line 23b. These plans included hospitalization, health and accident insurance, group life insurance, group legal services, and other employee welfare plans.

The statistics for this item included amounts identified in the cost of sales and operations schedules.

Contributions to retirement and other deferred compensation plans deductible under Code section 404 were included in "Retirement Plans."

Farm Net Profit (or Loss)

Farm net profit or loss was reported on Schedule F, line 58, by partnerships using the cash accounting method, or on Schedule F, line 91, by partnerships using the accrual method, and carried from Schedule F to line 9 of Form 1065 by users of both types of methods. For partnerships that reported the components of farm income and expenses on Schedule F, the net figure on line 9 of Form 1065 was deleted and the components were combined during statistical processing with the equivalent income and deduction items shown on page 1 of Form 1065. For example, "Rent of farm or pasture" was combined with the deduction item, "Rents paid." For those partnerships not reporting the detail of income and expenses, farm net profit was shown in the tables as an item of income, and farm net loss was shown as a deduction. Since most farm partnerships reported the detail of income and expenses, the amounts presented in the income item "Farm net profit" and the deduction item "Farm net loss" represent only a small portion of partnership farming activity.

In table 1, net farm profit was treated as an income item and net farm loss was treated as a deduction item in computing total income and total loss. This treatment applied only to those partnerships not reporting the detail of income and expenses on Schedule F.

Government Obligations

This balance sheet asset item consisted of (1) U.S. obligations including those of instrumentalities of the Federal Government (Schedule L, line 4a, column D) and (2) bonds or other obligations of a State, or U.S. possession, including obligations of political subdivisions and of the District of Columbia (Schedule L, line 4b, column D). In those instances where a partnership reported only one total for investments in Government obligations and did not indicate whether the obligations represented those of the United States or of State or local Governments, the total was treated as investments in U.S. obligations.

Income (or Loss) from Other Partnerships and Fiduciaries

This item (Form 1065, page 1, line 4) was the partnership's share of ordinary income (loss) of another partnership. If a partnership reported a loss from another partnership, the amount of the loss which it could claim was limited either to the amount to which the partnership was "at risk" or to the amount of the adjusted basis of the partnership's interest in the other partnership.

In table 1, net income from other partnerships and fiduciaries was treated as an income item, and net loss was treated as a deduction item in computing total income and total loss.

Income Year 1980

Income Year 1980 was defined to include all Form 1065 returns filed by taxpayers and processed by the IRS during Calendar Year 1981, regardless of the tax period covered by the returns. This definition, which was adopted for the 1979 partnership report, does not significantly affect the comparability of SOI data between years. For a fuller explanation of this change in definition, see Section 1 of the 1979 partnership report.

Intangible Assets

Intangible assets (Schedule L, line 11, column C) were the total gross amounts (before the reduction by amounts of accumulated amortization) for contracts, copyrights, formulas, licenses, patents, registered trademarks, research or experimental expenditures, and similar assets. These assets were included on line 11 only if they were amortized or depreciated, and they could be amortized or depreciated only if they had a definite life and value. Other intangible assets which were not amortizable were included in the statistics with "Other Assets."

Accumulated amortization represented the cumulative adjustment to these intangible assets as shown on the partnership's books of account.

Interest Paid

Interest paid in connection with business indebtedness (Form 1065, page 1, line 16) was deductible as a business expense. Included in the statistics was interest paid on deposits and withdrawable shares by banking and savings institutions. Also included were amounts paid by partnerships to a partner, acting in the capacity of lender to the partnership rather than as partner.

Included in the statistics were amounts of interest paid on installment purchases if they were stated in the contract, as well as unstated amounts of interest as provided in Code section 483.

Not included were amounts of interest on funds used to purchase property held for investment, which were instead reported on Schedule K of Form 1065. This separate reporting was due to the limitation on investment interest expense allowable to the partners, which was computed on Form 4952.

Interest Received

This item (Form 1065, page 1, line 6) included interest received by the partnership from all sources, except wholly tax-exempt interest and interest on tax-free covenant bonds. Included in this item were amounts received on loans, notes, mortgages, bonds, bank deposits, and corporate bonds less amortizable bond premiums. For installment sales, interest received included amounts stated in the contract, as well as unstated amounts of interest as provided in Code section 483.

Inventories

Inventories (Form 1065, page 1, lines 27 and 33), consisted of goods held for sale and raw materials and supplies that became a part of goods held for sale. Partnerships engaged in manufacturing, trade, or any other business (except farming) where the production, purchase, or sale of merchandise was an income producing factor were required to use inventories in computing their net income. The use of inventories required that direct expenses of production, such as factory labor for a manufacturer, be accrued and charged against sales in the year that the finished goods were sold. Thus, in accounting for the sale of goods, all such businesses were in effect required to use the accrual method of accounting. Inventories were normally valued at actual cost or at the lower of actual cost or market price.

In accordance with the "full absorption" inventory method, both direct and indirect production costs must be taken into account in the computation of costs. Production costs had to be allocated to goods produced during the tax year, regardless of whether the goods were sold during the year or were still in inventory at the end of the year.

Farmers were required to use inventories only if they elected to use the accrual method of accounting for determining their profit or loss from the sale of farm products. Farm inventories consisted of livestock, harvested crops held for sale or for future use, and supplies. Growing crops and livestock on which depreciation was taken were not included in inventories. Farm inventories could be valued by special methods in addition to cost and the lower of cost or market value. Under the unit-livestock-price method, livestock was grouped by kind and age, and all animals in each group were valued at the estimated cost of raising them. Under the farm-price method, each item of inventory was valued at the estimated market price, less the cost of disposition. The valuation of inventories by the farm-price method could have resulted in an increase in the value of ending inventories over beginning inventories without any corresponding increase in expenses or costs.

Partnerships also reported end of year inventory on Schedule L, line 3, column D. The figure shown from the balance sheet differs from that shown on the income statement because not all partnerships which reported inventories on the balance sheet used a cost of goods sold computation.

Land

Land (Schedule L, line 10, column D), which was reported as a separate capital asset on the balance sheet, may be understated in this report because it could not always be identified. Some partnerships may have included land as part of "Depletable Assets" or included it in "Other Investments." If land was certified as an emergency facility for the national defense, it could be amortized. If so, only the net land value (i.e., the value of land after the adjustment for amortization) was reported.

Limited Partnerships/Partners

A limited partnership, identified by the response to Form 1065, Page 1, Question I, is a partnership composed of at least one general partner (i.e., one who is personally liable for the obligations of the partnership) and one or more limited partners.

A limited partner is one whose potential personal liability for the partnership's debts is limited to the amount of money or other property that the partner contributed or is required to contribute to the partnership.

Materials and Supplies

The amount of materials and supplies, a component of the cost of goods sold, was reported by nonfarm partnerships on line 30, Schedule A, Form 1065. For farms, it was the item "supplies purchased," line 41, part II, page 1 of Schedule F.

Mortgage and Real Estate Loans

Mortgage and real estate loans (Schedule L, line 6, column D) were, in general, the total amount which a partnership loaned on a long-term basis for which the partnership accepted mortgages, deeds of trust, land contracts, or other liens on real estate as security. Because the return form did not provide a separate place for reporting any reserve for uncollectible mortgage and real estate loan accounts, such reserves may have been included in the "Allowance for Bad Debts," shown in this report as an adjustment to "Notes and Accounts Receivable." If a separate reserve was indicated in supporting schedules, statistics for it were added to the allowance for bad debts.

Mortgages, Notes and Bonds Payable

This item was reported on the balance sheet according to the length of time to maturity of the obligations. Short-term liabilities (those payable in less than one year) were reported on Schedule L, line 15, column D. Long-term liabilities (those payable in one year or more) were reported on Schedule L, line 18, column D. The length of time to maturity was based on the date of the balance sheet rather than on the date of issue of the obligations. Accordingly, long-term obligations maturing within the next taxable year were included in the statistics together with short-term obligations for mortgages, notes and bonds payable in less than one year. Includible were nonrecourse loans, liabilities of the partnership for which none of the partners had any liability.

Net Gain (or Loss), Noncapital Assets

This item (Form 1065, page 1, line 10) represented gains and losses from the sale or exchange of property not eligible for beneficial capital gains tax treatment by partners. Such gains and losses resulted mostly from the sale or exchange of: (1) trade or business property; (2) certain types of depreciable and amortizable property; (3) certain types of oil, gas, and geothermal property; and (4) conservation property described in section 126 of the Code.

In table 1, net gains from noncapital assets were treated as an income item and net losses were treated as a deduction item in computing total income and total loss. Also included were the involuntary conversion of trade or business property and certain capital assets. (See also "Capital Gains and Losses.")

Net Income (or Deficit)

Net income or deficit (shown on Form 1065, page 1, line 26, as ordinary income (loss)) represented the difference between total income (loss) and total deductions. For a more detailed understanding of this item, see "Total Income" and "Total Deductions" in this section as well as "Highlights for 1980" in Section 1.

Nonqualifying Dividends Received

Nonqualifying dividends (Form 1065, page 1, line 5) were corporate dividends which were received by the partnership for which the individual partners were not entitled to an exclusion on their individual income tax returns when the income was passed through to them.

Nonqualifying dividends were paid by corporations exempt from tax (generally charitable organizations and farmers' cooperatives), regulated investment companies, certain real estate investment trusts, and foreign corporations. Partnerships were instructed to report "dividends" paid on deposits in banks and savings institutions as interest received and not as dividends.

Nonrecourse Loans

Nonrecourse loans (Schedule L, line 17, column D) were loans obtained by the partnership for which none of the partners had any personal liability.

Generally, these were loans for which the real property of the partnership, such as real estate, served as collateral.

Other Assets

Other assets (Schedule L, line 12, column D) comprised, in general, noncurrent assets which were not allocable to a specific account on the return form balance sheet, and certain accounts for which no distinction could be made between current and noncurrent status.

Includable were such items as deferred charges reported as noncurrent by the partnership, interest discounts, guaranty deposits, and intangible assets not subject to amortization.

Other Costs

Other costs were a component of cost of sales and operations. For nonfarm businesses, these costs were reported on line 31, Schedule A, Form 1065. For farms, the amount was computed during statistical processing from Schedule F, as follows: farm expenses (total, part II, on page 1) less the sum of the items labor hired, repairs and maintenance, interest, rent of farm or pasture, supplies purchased, taxes, insurance, conservation expenses, land clearing expenses, pension and profit-sharing plans, employee benefit programs, amortization, and depletion.

If inventories, purchases, and the other components of cost of goods sold were not reported separately, the entire amount was included in other costs on Schedule A.

Cost items reported under "other costs" by the taxpayer, but which could be identified as belonging in a specific deduction line, were transferred to the proper line during the statistical editing process. The most frequently identified items were: amortization, pension and profit-sharing plans, employee benefit programs, depletion, depreciation, taxes, interest, bad debts, commissions, rent, and insurance.

Other Current Assets

Assets not allocable to a specific current account in the return form balance sheet, assets specifically reported as short-term by the partnership, and marketable securities other than Government obligations comprised this account (Schedule L, line 5, column D).

Included were prepaid expenses, nontrade receivables, coupons and dividends receivable, claims and judgments, and similar items. For partnerships in the construction industry, amounts reported as a current item for contract work in progress in excess of billings were included in this item.

Other Current Liabilities

Other current liabilities (Schedule L, line 16, column D) included certain amounts due and payable within the coming year. The account comprised accrued expenses, as well as current payables not arising from the purchase of goods and services and not evidenced by bonds, notes, or mortgages. Examples of other current liabilities were taxes accrued or payable, accrued employee accounts such as those for payrolls and contributions to benefit plans, overdrafts, and accrued interest or rent.

For partnerships in the construction industry, amounts of advances or deposits on uncompleted contracts and jobs in progress were included in this item, if reported as current.

Other Deductions

Other deductions (Form 1065, page 1, line 24) comprised business expenses which were not allocable to a specific deduction item on the return form, such as: administrative, general, and selling expenses; bonuses; delivery, freight, and shipping expenses; truck and automobile expenses (except repairs); utilities; supplies; advertising and promotion; travel and entertainment; dues and subscriptions; postage and stationery; sales discounts; and laundry, uniforms, and cleaning. This item also included unrealized profit on current-year installment sales; reported amounts of negative income; commissions; insurance; and legal and professional fees.

Other Investments

Other investments (Schedule L, line 7, column D) included long-term non-Government investments and certain investments for which no distinction could be made as to their current or long-term nature. Nongovernment investments included stocks, bonds, loans on notes or bonds, and other types of financial securities.

Real estate not reported as a capital asset could also be included. In certain instances, land and buildings owned by real estate operators (except lessors of real property other than buildings) were reported as "Other Investments."

Other Liabilities

Other liabilities (Schedule L, line 19, column D) were obligations which were not allocable to a specific account on the return form balance sheet and which were either noncurrent accounts, in general not due within 1 year, or accounts which could not be identified as either current or long-term.

Examples of other liabilities were deferred or unearned income not reported as a part of a current account, and principal amounts of employee and similar funds.

Other Receipts

This item (Form 1065, page 1, line 11) included amounts not elsewhere reported in the income statement, such as: income from minor operations; cash discounts; income from claims, license rights, and judgments; net amount earned under operating agreements; profit from commissaries; profit on prior years' collections (installment basis); recoveries of losses and bad debts previously claimed for tax purposes; refunds for cancellation of contracts; and income from sales of scrap, salvage, or waste; income from annuities and insurance; and the alcohol fuel credit.

Partners' Capital Accounts

The balance sheet item for partners' capital accounts (Schedule L, line 20, column D) was the partners' total equity in the business as of the end of the taxable year. It was the net sum of all contributions of capital by the partners, plus the partnership's accumulated earnings, less accumulated losses and any distributions of capital and earnings.

Partnerships with Balance Sheets

This classification included all returns which reported any items of assets or liabilities on Form 1065, page 4, Schedule L, even when the entries cancelled out, resulting in total assets of zero. This occurred most commonly when a partnership reported depreciable, depletable, or amortizable assets and accumulated depreciation, depletion, or amortization of the same amount.

Payments to Partners

Guaranteed payments which were made to partners for services rendered or for the use of capital, if such payments were determined without regard to income of the partnership, were allowed as a deduction to the partnership. The payments were taxable to the partner who received them. This item was reported on Form 1065, page 1, line 14.

Payroll

Payroll was the sum of cost of labor reported as part of cost of sales and operations (Form 1065, page 1, line 29) plus the deduction for salaries and wages (net of targeted jobs tax credit) (Form 1065, page 1, line 13c). Various kinds of contract labor not actually representing employee payroll, such as janitorial or secretarial services, may also have been included. Payments to partners were excluded.

Payroll amounts were frequently included by taxpayers in other items, such as commissions, legal and professional fees, and repairs. Because of the difficulty of identifying such amounts, they were shown in these tables as reported by the taxpayer. Thus the amount shown for payroll was probably understated.

Pension, Profit-sharing, Stock Bonus, and Annuity Plans

See "Retirement Plans."

Purchases

This item was a component of the cost of goods sold. For nonfarm businesses, the source was line 28c, Schedule A, of Form 1065. For farms, the sources were Schedule F, page 1, part I, line 3, column c, for farmers using the cash accounting method, and Schedule F, page 2, part V, line 87, for farmers using the accrual accounting method.

Rent Paid

Rent paid on business property (Form 1065, page 1, line 15) was deductible as a business expense. Identifiable amounts of taxes and other expenses paid by lessees in connection with rent paid were included in their respective deduction headings.

Rents Received

This item consisted of the gross rent receipts reported on Schedule H, line 1, column b. Expenses associated with rental income and reported on Schedule H, such as depreciation, repairs, interest, and taxes, were included in their respective deduction categories. If no gross rents were reported, net rent from page 1, line 7 was used for this item. If rents were the largest income item, they were included in "Business Receipts."

Repairs

This deduction (Form 1065, page 1, line 19) included the costs of labor and supplies and other costs necessary for incidental repairs to the property. It did not include capital expenditures which increased the value of property, improvements which appreciably prolonged property life, or expenditures for restoring or replacing property. These expenditures were added to the depreciable basis of the property and recovered through depreciation.

The "class life asset depreciation range" (CLADR) system included a provision for accounting for repairs to property when ambiguity existed as to whether the expenditures were deductible in the year incurred, or whether they had to be capitalized and recovered through depreciation over the life of the property. Taxpayers using the CLADR system as the basis for their depreciation deduction could also have elected to currently deduct certain expenditures for repairs, maintenance, rehabilitation, or improvement up to a specified amount (repair allowance) for each account, with the excess capitalized and depreciated. (See also "Depreciation.")

Retirement Plans

This deduction (Form 1065, page 1, line 23a) was the employer's contribution to employee pension, profit-sharing, annuity, bond purchase, and other deferred compensation plans that were deductible under Code section 404. The Code imposed limitations on the amounts deductible for the tax year and provided a carryover for certain amounts paid in excess of these limitations. The retirement plan deduction did not include any payments by partners to their own retirement plans; these payments were reported on the partners' individual income tax returns as adjustments used in calculating adjusted gross income. The statistics included any identifiable amounts of this item which were transferred out of cost of sales and operations during statistical processing.

Royalties

This income item (Form 1065, page 1, line 8) consisted of the gross amount of royalties received, generally on an agreed percentage basis, for the use of property rights, including patents, copyrights, timber, minerals, or oil wells. Expenses relating to this income, such as depletion and taxes, were included in their respective deduction categories.

Royalties received under lease agreements on timber, coal deposits, and domestic iron ore deposits, which were allowed special tax treatment, were not included in this item. Under elective provisions of Code section 631, the net gain or loss on such royalties was included in the computation of net gain or loss on sales or exchanges of certain business property under section 1231 and, as such, were reportable by the partners on their own returns and not by the partnership.

Salaries and Wages

This item (Form 1065, page 1, line 13c) consisted of those salaries and wages not included as "cost of labor" in the cost of sales and operations schedule and not included in some other deduction category on the return. Salaries and wages were reduced by any amount of targeted jobs credit claimed by the partnership based on those salaries and wages; the amount shown in these statistics was the amount remaining after this reduction. Salaries to partners were not included in this item, but in "Payments to Partners." (See also "Payroll.")

Size of Business Receipts

Size of business receipts was based on "Business receipts" (as defined above) (Form 1065, page 1, line 1c) for all industries except those in the finance, insurance, and real estate division. Because many partnerships in these industries reported amounts on specific income lines (such as interest, dividends, and rents) which actually represented income from the primary activity of the business, "Total receipts" was used as the basis for classification for these industries. (See also "Total Receipts.")

Taxes Paid

Taxes paid (Form 1065, page 1, line 17) included the amounts reported as a business deduction as well as identifiable amounts reported as part of the cost of sales and operations. Included among the deductible taxes were ordinary state and local taxes paid or accrued during the year; social security and payroll taxes; unemployment insurance taxes; import and tariff duties; and business, license, and privilege taxes. Income and profits taxes paid by the partnership to foreign countries or U.S. possessions were allocated to the partners for use as a deduction or a credit against income tax. Federal income taxes, gift taxes, and taxes assessed against local benefits were not deductible. Sales, excise, and related taxes reported by partnerships as part of business receipts were generally transferred when so identified to the taxes paid deduction during statistical processing.

Total Receipts

Total receipts consisted of the sum of business receipts (Form 1065, page 1, line 1c); investment income such as nonqualifying dividends, interest, rents, royalties (Form 1065, page 1, lines 5, 6, 7, and 8); income from other partnerships and fiduciaries (Form 1065, page 1, line 4); income from farms (Form 1065, page 1, line 9); net gain from sale of noncapital assets (Form 1065, page 1, line 10); and "other" income (Form 1065, page 1, line 11). For purposes of this report, total receipts were not reduced by net losses from other partnerships, farms or sales of noncapital assets (negative amounts from Form 1065, page 1, lines 4, 9, and 10, respectively). These losses were tabulated as positive deduction items.

Trade Notes and Accounts Receivable

Notes receivable were claims against debtors evidenced by written promises to pay certain sums of money at definite times. Accounts receivable were less formal claims against debtors that arose from the sales of services or merchandise on account. These receivables would normally be converted to cash within one year. These items were reported together on Schedule L, line 2, column C. Current nontrade receivables were generally included in "Other Current Assets."

The balance sheets on the partnership return form called for the reporting of both "gross" receivables and the "Allowance for Bad Debts." However, some partnerships reported only the net amount.

The allowance for bad debts, shown as an adjustment to notes and accounts receivable, may also include the reserves for the separate account, mortgage and real estate loans. As a result, it was possible for the allowance for bad debts to exceed the amount of notes and accounts receivable.

Total Assets

Total assets (Form 1065, Schedule L, line 13, column D) were those reported in the end-of-year balance sheet in the partnerships' books of account. Total assets were net of accumulated depreciation, amortization, and depletion, and of the reserve for bad debts. When reserves for bad debts were reported as liabilities, they were treated as reductions from the asset accounts to which they related, and the totals of assets and liabilities were adjusted accordingly.

Total Deductions

Total deductions consisted of: (1) the deduction for cost of sales and operations (Form 1065, page 1, line 2) and (2) the business deductions from gross income (Form 1065, page 1, line 25). In addition, total deductions included the partnership's share of net loss from other partnerships and fiduciaries, farm net loss, and net loss from sales of noncapital assets, (negative amounts from Form 1065, page 1, lines 4, 9, and 10, respectively).

Zero Assets

Unlike in prior years, the classification "zero assets" in this report includes only returns which reported total assets of zero, but which had balance sheet entries. This occurred primarily on returns having depreciable, depletable or amortizable property, with an offsetting entry for accumulated depreciation, depletion, or amortization.

In the revised 1979 table included in this report, this classification includes both returns reporting no balance sheet data and returns with offsetting entries on Schedule L. This is due to the fact that no detailed balance sheet items were edited for the 1979 report.

For 1978 and prior years, balance sheet data reported on final returns were not edited, and such returns were included under the classification "zero assets" along with returns with offsetting entries. For 1980, balance sheet data reported on final returns were edited and tabulated in the appropriate classification.

18 Mortgages, notes, and bonds payable in 1 year or more				
19 Other liabilities (attach schedule)				
20 Partners' capital accounts				
21 Total liabilities and capital				

Schedule M—RECONCILIATION OF PARTNERS' CAPITAL ACCOUNTS (See Page 10 of Instructions)

(Show reconciliation of each partner's capital account on Schedule K–1, item M)

a. Capital account at beginning of year	b. Capital contributed during year	c. Ordinary income (loss) from page 1, line 26	d. Income not included in column c, plus nontaxable income	e. Losses not included in column c, plus unallowable deductions	f. Withdrawals and distributions	g. Capital account at end of year

Schedule N—COMPUTATION OF NET EARNINGS FROM SELF-EMPLOYMENT (See Page 10 of Instructions)

1 Ordinary income (loss) (page 1, line 26)		7 Nonqualifying dividends (page 1, line 5)	
2 Guaranteed payments to partners included on Schedule K, lines 1a(1) and 1a(2)		8 Interest	
3 Net loss from rental of real estate		9 Net income from rental of real estate	
4 Net loss from Form 4797 (page 1, line 10)		10 Net gain from Form 4797 (page 1, line 10)	
5 Total (add lines 2, 3, and 4)		11 Total (add lines 7, 8, 9, and 10)	
6 Add lines 1 and 5. (If line 1 is a loss, reduce line 1 by the amount on line 5.)		12 Net earnings (loss) from self-employment (subtract line 11 from line 6). Enter on Schedule K, line 9	

Additional Information Required

	Yes	No
L Will the character of any liabilities in Schedule L (Balance Sheets), other than line 17, change to nonrecourse or become covered by a guarantee or similar arrangement in the future? If "Yes," enter the year(s) and amount(s) of the anticipated changes ▶		
M Partnership information on international boycotting. For partner's reporting requirements, see Form 5713.		
(1) Did partnership have operations in a boycotting country?		
(2) Did partnership participate in or cooperate with an international boycott?		
(3) Did partnership file Form 5713?		
N Has any material regarding the offering of a partnership interest or other security ever been registered or filed with a Federal or State agency or authority? If "Yes," attach a statement giving the name and address of the agency(s)		
O At any time during the tax year, did the partnership have an interest in or a signature or other authority over a bank account, securities account, or other financial account in a foreign country (see page 10 of Instructions)?		
P Was the partnership the grantor of, or transferor to, a foreign trust which existed during the current tax year, whether or not the partnership or any partner has any beneficial interest in it? If "Yes," you may have to file Forms 3520, 3520–A, or 9[illegible] (See page 10 of Instructions.)		

☆ U.S. Government Printing Office 1980—313-456 E152-0237640

1980

Department of the Treasury
Internal Revenue Service

Instructions for Form 1065
U.S. Partnership Return

(Section references are to the Internal Revenue Code unless otherwise specified)

Highlights

The Tax Reform Act of 1978 and the Crude Oil Windfall Profit Tax Act of 1980 generally extend to 4 years the period of time for assessing a deficiency of any income tax or windfall profits tax under section 6501 or for filing a claim for credit or refund of any overpayment of any income tax or windfall profits tax under section 6511 if the deficiency or claim is attributable to any partnership item of a Federally registered partnership. See sections 6501 and 6511 for further information.

Changes to Schedule K–1. For 1980, Schedule K–1 has four pages instead of three as in the past. The fourth page contains expanded instructions for the partners. Because of these expanded instructions, the order of the copies has changed. The new order is: Copy A is filed with Form 1065; Copy B is kept by the partnership; Copy C is the partner's copy. The expanded instructions to the partner follow Copy C and should be given to each partner with Copy C.

Purpose

Form 1065 is used to report the income, deductions, credits, gains, and losses from the operation of a partnership. Form 1065 for 1980 is an information return for the calendar year 1980 or other fiscal year beginning in 1980.

Who Must File

Every partnership engaged in a trade or business or having income from sources within the United States must file Form 1065. A partnership must file even if its principal place of business is outside the United States or all its members are nonresident aliens.

Religious and apostolic organizations that are exempt from income tax under section 501(d) must file Form 1065.

When to File

A resident partnership must file Form 1065 by the 15th day of the 4th month following the close of its tax year. A foreign partnership whose partners are nonresident aliens must file its return by the 15th day of the 6th month following the close of its tax year.

To change a partnership from one tax year to another, or to adopt an initial tax year for a new partnership, see section 706(b) and Form 1128, Application for Change in Accounting Period.

If you need more time to file a partnership return, file Form 2758, Application for Extension of Time to File.

See Publication 538, Accounting Periods and Methods, for more information.

Where to File

Use the addressed envelope that came with the return or use the Internal Revenue Service Center address for the State where the partnership's principal place of business or principal office or agency is located. No street address is necessary. See the following list of Service Centers.

A partnership without a principal office or agency or principal place of business in the United States must file its return with the Internal Revenue Service Center, Philadelphia, PA 19255.

If the partnership's principal place of business or principal office or agency is located in	Use the following Internal Revenue Service Center address
New Jersey, New York City and counties of Nassau, Rockland, Suffolk, and Westchester	Holtsville, NY 00501
New York (all other counties), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont	Andover, MA 05501
Alabama, Florida, Georgia, Mississippi, South Carolina	Atlanta, GA 31101
Michigan, Ohio	Cincinnati, OH 45999
Arkansas, Kansas, Louisiana, New Mexico, Oklahoma, Texas	Austin, TX 73301
Alaska, Arizona, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming	Ogden, UT 84201
Illinois, Iowa, Missouri, Wisconsin	Kansas City, MO 64999
California, Hawaii	Fresno, CA 93888
Indiana, Kentucky, North Carolina, Tennessee, Virginia, West Virginia	Memphis, TN 37501
Delaware, District of Columbia, Maryland, Pennsylvania	Philadelphia, PA 19255

Penalty

The law imposes a penalty on the partnership for failure to file a complete return on time unless the failure is due to reasonable cause. Section 6698 provides that the amount of the penalty for each month or fraction of a month (for a maximum of 5 months) the failure continues is $50 multiplied by the total number of persons who were partners in the partnership during any part of the partnership's tax year for which the return is due.

General Information

Note: *In addition to those publications listed throughout the Instructions, you may wish to get* **Publication 334,** *Tax Guide for Small Business, and* **Publication 541,** *Tax Information on Partnerships.*

Accounting Methods

Figure ordinary income by the accounting method regularly used in maintaining the partnership's books and records. The method must clearly reflect income. (See section 446.) Unless allowed by law, the partnership may change the accounting method used to report income in earlier years (for income as a whole or for any material item) only by first getting consent on Form 3115, Application for Change in Accounting Method. See **Publication 538,** Accounting Periods and Methods, for more information.

Rounding off to Whole-Dollar Amounts

You may show the money items on the return and accompanying schedules as whole-dollar amounts. To do so, drop any amount less than 50 cents and increase any amount from 50 cents through 99 cents to the next higher dollar.

Recordkeeping

The partnership records must be kept as long as their contents may be material in the administration of any Internal Revenue law. Copies of the filed tax returns should also be kept as part of the partnership's records. Please see **Publication 552,** Recordkeeping Requirements and a List of Tax Publications, for more details.

Information Returns

Every partnership must file information returns if it makes payments of rents, commissions, or other fixed or determinable income totaling $600 or more to any one person in the course of its trade or business during the calendar year. It must report interest payments if they total $10 or more.

For example, if the partnership pays a person $600 or more in any calendar year to perform services under a subcontract type of arrangement in which no employment taxes are withheld, the partnership must file Form 1099–NEC, Statement for Recipients of Nonemployee Compensation.

Use Form 1096, Annual Summary and Transmittal of U.S. Information Returns, to summarize and send information returns to the Internal Revenue Service Center. For more information about filing information returns and exceptions, see the Instructions for Form 1096.

Attachments

If you need more space on the forms or schedules, attach separate sheets. Use the same arrangement as the printed forms, and show the totals on the printed forms. Be sure to put the partnership's name and employer identification number on each sheet.

Definitions

a. Partnership. The term "partnership" includes a limited partnership, syndicate, group, pool, joint venture, or other unincorporated organization, through or by which any business, financial operation, or venture is carried on, and that is not, within the meaning of the Internal Revenue Code, a corporation, trust, estate, or sole proprietorship. If an organization more nearly resembles a corporation than a partnership or trust, it is considered an association taxed as a corporation.

b. General Partner. A general partner is a member of the organization who is personally liable for the obligations of the partnership.

c. Limited Partner. A limited partner is one whose potential personal liability for partnership debts is limited to the amount of money or other property that the partner contributed or is required to contribute to the partnership.

d. Limited Partnership. A limited partnership is a partnership composed of at least one general partner and one or more limited partners.

e. Nonrecourse Loans. Nonrecourse loans are those liabilities of the partnership for which none of the partners have any personal liability.

Section 702(a) Items

Under section 702(a) the partners are required to take into account separately their distributive shares, whether or not distributed, of: (1) gains and losses from sales and exchanges of capital assets held for not more than 1 year; (2) gains and losses from sales and exchanges of capital assets held for more than 1 year; (3) gains and losses from sales and exchanges of property described in section 1231; (4) charitable contributions; (5) qualifying dividends; (6) taxes described in section 901; (7) other items of income, gain, loss, deduction, or credit, to the extent provided by regulations (see Instructions for Schedule K); and (8) taxable income or loss (ordinary income or loss) exclusive of items 1 through 7 above.

Elections

Generally, the partnership decides how to figure taxable income from its operations. For example, it chooses the accounting method and depreciation methods it will use. The partnership also makes the elections under the following sections:

- Section 1033 provides for an election by the partnership not to recognize gain when property is compulsorily or involuntarily converted into property (other than like-kind property) or into money to the extent it is reinvested in similar property.
- Section 754 provides rules under which a partnership may elect to adjust the basis of its remaining assets: (a) when assets distributed to a partner have increased or decreased in value; (b) to reflect the purchase price paid by a new partner for the new partner's interest; or (c) to reflect a change in the basis of a partnership interest on the death of a partner.
- Section 190 provides for an election by the partnership to pass through to the partners, as a current expense, up to $25,000 of expenditures for the removal of architectural and transportation barriers to the handicapped and elderly.

Information about other elections may be found under the applicable sections of Chapter 1, subchapter K, of the Code and the Income Tax regulations.

Certain elections are made by a partner separately on the partner's income tax return and not by the partnership. These elections are made under section 901 (foreign tax credit), section 617 (deduction and recapture of certain mining exploration expenditures, paid or incurred), section 57(c) (definition of net lease), and section 163(d)(6) (limitation on interest on investment indebtedness).

Distribution of Unrealized Receivables and Inventory Items

If a partnership distributes unrealized receivables or substantially appreciated inventory items for all or part of a partner's interest in other partnership property (including money), treat the transaction as a sale or exchange between the partner and the partnership. Treat the partnership gain (loss) as ordinary income (loss). Allocate it only to partners (other than the distributee partner) who will take this amount into account separately under section 702(a) (7). If a partnership gives other property (including money) for all or part of that partner's interest in the partnership's unrealized receivables or substantially appreciated inventory items, treat the transaction as a sale or exchange of the property. See section 751 and related regulations for definitions of unrealized receivables and substantially appreciated inventory items.

Net Operating Loss Deduction

A partnership is not allowed the deduction for net operating losses.

Contributions to the Partnership

Generally, no gain (loss) is recognized to the partnership or any of the partners when property is given to the partnership in exchange for an interest in the partnership. This rule does not apply to any gain realized on a transfer of property to a partnership that would be treated as an investment company (within the meaning of section 351) if the partnership were incorporated.

The basis to the partnership of property given by a partner is the adjusted basis in the hands of the partner at the time it was given, plus any gain recognized at that time. (See section 723.)

Production Costs of Films, Books, Records, or Similar Property

Except for production costs charged to a capital account, expenses for the production of a film, sound recording, book, or similar property are deductible only in those tax years in which the partnership reasonably may expect to receive most of the income from the property. See section 280 for definitions and how to figure the deduction for the year. If a corporation is a member of the partnership, contact an Internal Revenue Service office for help.

Signatures

General Partner

Form 1065 is not consid[illegible]
unless it is signed. One ge[illegible]
must sign the return. If a r[illegible]
trustee in bankruptcy, or ass[illegible]
controls the organization's prop[illegible]
business, that person must sign [illegible]

Paid Preparer's Information

If someone prepares the return and does not charge the partnership, that person should not sign the partnership return as a preparer.

Generally, anyone who is paid to prepare the partnership return must sign the return as a preparer and fill in the other blanks in this section.

If the preparer is self-employed (that is, is not employed by any person or business entity to prepare the return), he or she should check the "self-employed" box.

Partners who prepare income tax returns as members of a partnership are considered to be employees for purposes of the income tax return preparer rules only, and should not check the "self-employed" box. The partners are still considered self-employed for self-employment tax purposes.

If you have any questions about whether a preparer is required to sign the return, please contact an IRS office.

The preparer required to sign the partnership's return MUST complete the required preparer information and:

- *Sign it, by hand, in the space provided for the preparer's signature. (Signature stamps or labels are not acceptable.)*
- *Give you a copy of your return in addition to the copy to be filed with IRS.*

Tax return preparers should be familiar with their responsibilities. **Publication 1045,** Information and Order Blanks for Preparers of Federal Income Tax Returns, lists some of the preparers' other responsibilities and penalties for which they may be liable. This publication also contains the regulation citations which govern their work.

Specific Instructions

These instructions follow the line numbers on the first page of Form 1065 and on the schedules that accompany it. Specific Instructions for most of the lines have been provided. Those lines that do not appear in the instructions are self-explanatory.

File only one return for each partnership. Mark "duplicate copy" on any copy you give to a partner.

If a syndicate, pool, joint venture, or similar group files Form 1065, a copy of the agreement and all amendments must be attached to the return, unless a copy has already been filed. Under section 761(a), an investing unincorporated organization or one participating in the joint production, extraction, or use of property under an operating agreement or an organization of dealers in securities for a short period for the purpose of underwriting, selling, or distributing a particular issue of securities may elect not to be treated as a partnership. Make the election by attaching a statement to Form 1065 for the first year for which the partnership wants the exclusion. (See regulations section 1.761–2.)

Fill in all applicable lines and schedules. Enter any items specially allocated to the partners on Schedule K, line 17, and not on the numbered lines on Form 1065, page 1, or in Schedules A through J.

Form 1065

Name, Address, and Employer Identification Number

The partnership must use its legal (not trade) name on all tax returns and other documents filed. Please use the label on this package. If the partnership's name, address, or employer identification number is wrong on the label, write the correct information on the label. If the partnership did not receive a label, print or type the partnership's legal name and address on the appropriate line. Show the correct employer identification number in item D on page 1 of Form 1065. If the partnership does not have a number, it must apply for one on Form SS–4, Application for Employer Identification Number. This form is available at Social Security Administration or Internal Revenue Service offices.

Question H. If this is the last year the partnership is in business, answer question H "Yes."

Question K. Historic Structures

Question 1. You may elect to amortize rehabilitation expenditures or take accelerated depreciation for certain certified historic structures. Section 191 allows amortization to be figured using a period of 60 months. Section 167(o) allows an accelerated method of depreciation if you substantially rehabilitate a certified historic structure.

If you elect amortization for these expenditures or elect to take an accelerated method of depreciation:

a. Answer "Yes" to question 1;

b. Attach to the return a copy of the final certification letter issued by the Department of the Interior approving the rehabilitation or, if no such letter has been issued:

c. Attach to the return a copy of a completed first page of U.S. Department of the Interior Form FHR–8–253a, Historic Preservation Certification Application—Part 2 (as submitted to the Department of the Interior).

Question 2. Include on this line the amortizable basis of the property. This is the amount that is permitted to be deducted over the 60-month period. See **Publication 535**, Business Expenses and Operating Losses, for more information. For specific definitions of the kinds of property referred to, see section 1250 (a)(1)(B)(i), (ii), and (iv).

Income

(Lines 1–12)

Note: *Do not include any income that is tax-exempt in lines 1–12. Enter these amounts in Schedule M, column d.*

A partnership that receives any exempt income other than interest, or holds any property or engages in any activity that produces exempt income, must attach to its return an itemized statement showing the amount of each type of exempt income, and the amount of expense allocated to each type.

Also see the **Note** *under instructions for Deductions for expenses related to tax-exempt income.*

Line 1

Gross Receipts

Enter gross receipts or sales from all business operations. Do not include those you are required to report on lines 4 through 11. For example, do not include gross receipts from farming on this line. Instead, show net profits (losses) from farming on line 9.

Line 2

Cost of Goods Sold (From Schedule A)

Enter the amount from Schedule A, line 34.

Cost of Operations

If the entry on line 2 of Form 1065 is for the cost of operations, complete Schedule A, even if inventories are not used.

Line 3

Gross Profit

If the partnership uses the installment method for reporting gross profit under section 453, attach a schedule showing separately the following for the current year and the 3 preceding years: (a) gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of gross profit to gross sales; (e) amount collected; and (f) gross profit on amount collected. Enter the total reportable gross profit on line 3 and refer to the schedule attached.

Line 4

Ordinary Income (Loss) from Other Partnerships and Fiduciaries

Enter the amount shown on Form 1065, Schedule K–1, or Form 1041, Schedule K–1.

Show the other partnership's or fiduciary's name, address, and employer identification number (EIN) on a separate statement attached to this return. If income or loss from more than one entity is reported on this line (or is reported instead on another line or schedule of this Form 1065), show on the statement the income or loss from each.

If there is a loss from another partnership, the amount of the loss that may be claimed is subject to the limitations of sections 465 and 704(d), as appropriate.

Example: If Partnership A is a partner in Partnership B, Partnership A enters on this line its share of ordinary income (loss) of B. This information should be shown on the Schedule K–1 that B issued to Partnership A.

If A's tax year does not coincide with B's tax year, include in A's return the share of the ordinary income (loss) for the tax year of B ending within the year for which A's return is filed.

Partnership A considers its share of other items separately reported on the Schedule K–1 issued by B as if the items were realized by B or incurred in the same manner as incurred by B. For example, Partnership A's share of B's capital gains (losses) should be reported on Schedule D of Form 1065, lines 2 and 5.

Line 5

Nonqualifying Dividends

Nonqualifying dividends are taxable dividends that are included in ordinary income and for which the individual partner is not entitled to an exclusion. These dividends come from the following:

- Corporations exempt from income tax under section 501 (charitable, etc., organizations) or section 521 (farmers' cooperatives), for their tax year in which the distribution is made or for their next preceding tax year.
- Regulated investment companies (including Money Market Funds); certain amounts may be designated by the company as qualifying dividends.
- Certain real estate investment trusts under sections 856 through 858.
- Foreign corporations, including a controlled foreign corporation.

Qualifying dividends are taxable dividends received from domestic corporations not listed above. (See page 8 of the instructions for Schedule K, line 4.)

Do not report the following on line 5: dividends paid on deposits or withdrawable accounts in mutual savings banks, cooperative banks, domestic building and loan associations, domestic savings and loan associations, and Federal savings and loan associations. Instead, report them as interest on line 6. See the instructions below for line 6.

Line 6

Interest

Enter total interest from all sources except interest exempt from tax and interest on tax-free covenant bonds.

Line 7

Rents

Report in Schedule H the income and expenses of rental property. Enter the net income (loss) from Schedule H, line 2. The expense deductions for the rental of a dwelling unit may be limited if the property is used by a partner for personal purposes. (See section 280A.)

Line 8

Royalties

Enter the net income (loss) shown on a detailed schedule attached to the return.

Line 9

Net Farm Profit (Loss)

Enter the partnership's net profit (loss) from Schedule F (Form 1040). Attach Schedule F (Form 1040) to Form 1065. Do not include on this line any farm profit (loss) from other partnerships. Report those amounts on line 4.

Also report the partnership's fishing income on this line.

A farming syndicate is allowed a deduction only for feed, seed, fertilizer, or other similar farm supplies in the tax year in which the items are actually used or consumed. For definitions, exceptions to the general rule, and special rules for poultry, see section 464. For special rules

for grove, orchard, and vineyard expenses, see section 278.

If a corporation is a member of a partnership engaged in farming, see section 447.

For more information, please get **Publication 225**, Farmer's Tax Guide.

Line 11

Other Income

Enter any other taxable income and attach a detailed schedule to the return. Include taxable income from annuities and insurance proceeds. Also include in this line the amount shown on Schedule K, line 21a (the amount of credit for alcohol used as a fuel that was entered on Form 6478, Credit for Alcohol Used as Fuel, line 13). In the margin, next to the total amount, enter the amount of the credit and the words "Alcohol Fuel Credit."

Do not include those items requiring separate computations which must be reported on Schedule K. (See the Instructions for Schedule K.)

Deductions

(Lines 13a–25)

Note: *Do not include any nondeductible amounts (such as expenses connected with the production of tax-exempt income) in lines 13a–25. Enter these amounts in Schedule M, column e.*

If an expense is connected with both taxable income and nontaxable income, allocate a reasonable part of the expense to each kind of income. (See section 265.)

Also see **Note** *under the instructions for Income.*

Organization and Syndication Expenses

Amounts paid or incurred to organize a partnership or promote the sale of an interest in a partnership are capital expenditures subject to section 263. They are not deductible. Under section 709, the partnership may choose to amortize the organization expenses over a period of 60 or more months, beginning with the month in which the partnership begins business. (See the instructions for line 21.) On the balance sheet (Schedule L) show the unamortized balance of organization costs and all syndication expenditures. See the note in the instructions for line 14 for the treatment of these amounts paid to a partner.

Line 13

Salaries and Wages

Enter salaries and wages not reported elsewhere (for example, Schedule A, line 29, and contributions to Simplified Employee Pension plans (SEPs) on line 23(a)).

The partnership must reduce the deduction for wages and salaries paid or incurred by the amount of the jobs credit computed by the partnership. Enter on line 13b the total amount of the jobs credit computed by the partnership. Subtract this from the salaries and wages shown on line 13a. See page 8 of the Instructions for Schedules K and K–1, line 12. Also, see the Instructions for Form 5884, Jobs Credit to figure the amount of credit to enter on line 13b.

For additional information, please get **Publication 906**, Targeted Jobs and WIN Credits.

Line 14

Guaranteed Payments to Partners

Deduct payments or credits to a partner for services or for the use of capital if the payments or credits are determined without regard to partnership income. Do not do this if the payments and credits should be capitalized. Do not include distributive shares of partnership profits. Report the guaranteed payments to the appropriate partners on Schedule K–1 (Form 1065), line 1a(1).

Note: *Although payments or credits to a partner for services rendered in organizing a partnership may be guaranteed payments under section 707, they are not deductible on line 14. But they should be separately reported on Schedules K and K–1, line 1a(2). They are capital expenditures.*

Line 15

Rent

Enter rent paid on business property. Do not deduct rent for a dwelling unit occupied by any partner for personal use.

Line 16

Interest

Caution: Investment interest expense that is reported on Schedule K, line 19a(2) or 19a(3) is not deductible by the partnership and should not be included in line 16.

Generally, interest expense on funds borrowed after December 16, 1969, to purchase or carry property held for investment is not deducted on line 16. Instead, it is reported on Schedule K, line 19. (See the instructions for Schedule K, line 19.) If any of this amount is nonbusiness interest, notify the partners as to the amount. For more information, see section 163(d) and **Form 4952**, Investment Interest Expense Deduction.

Also, do not deduct amounts paid or accrued during the year for real property construction period interest (other than for low-income housing). See the instructions for line 21 for information on amortizing these amounts. However, you may deduct amounts paid or accrued during the year for non-residential real property construction period interest if the construction period began in a tax year beginning before January 1, 1976. (See section 189 for definitions.)

Enter interest on all indebtedness incurred for the operation of the trade or business of the partnership. Payments or credits by a partnership to a partner for the use of capital should be entered on line 14. But interest paid by a partnership to a partner as a result of a transaction in which the partner acts as other than a partner, should be entered on line 16 unless it is investment interest. (See caution above.) This interest is also reported on Form 1099–INT, Statement for Recipients of Interest Income, if over $10. (The limitations on deductions for unpaid interest are in regulation 1.267(b)–1(b).)

Generally, both accrual and cash basis partnerships must deduct prepaid interest payments over the period of the prepayment instead of when actually paid. (See section 461(g).)

Line 17

Taxes

Enter taxes paid or incurred on business property for carrying on a trade or business, if not reflected in cost of goods sold. Federal import duties and Federal excise and stamp taxes are deductible only if paid or incurred in carrying on the trade or business of the partnership. Taxes incurred in the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income may be considered to be deductible only under section 212. These are reportable separately to the partners on Schedules K and K–1, line 10b, as an itemized deduction. Do not deduct taxes assessed against local benefits that increase the value of the property assessed (such as for paving, etc.), Federal income taxes, estate, inheritance, legacy, succession, and gift taxes, or taxes reported elsewhere, as on Schedule H or Schedule K.

Do not deduct amounts paid or accrued during the year for real property construction period taxes (other than for low-income housing). See the instructions for line 21 for information on amortizing these amounts. You may, however, deduct amounts paid or accrued during the year for non-residential real property construction period taxes if the construction period began in a tax year beginning before January 1, 1976. (See section 189 for definitions.)

Line 18

Bad Debts

You may either deduct business bad debts when they become wholly or partially worthless, or you may make a reasonable addition to a reserve for bad debts. Use Schedule I to figure the deduction if the partnership uses the reserve method. A partnership may choose either method on its first return in which it takes a bad debt deduction. It must use that method for following years unless it receives permission to change.

Line 19

Repairs

Enter the cost of repairs that do not add to the value or appreciably prolong the life of the repaired property. New building, machinery, or permanent improvements that increase the value of the property are not deductible. They are chargeable to capital accounts and may be depreciated or amortized.

Line 20

Depreciation

Enter the total amount of depreciation claimed.

Line 21

Amortization

If the partnership elects the deduction for amortization of certain expenditures for research and experiment (section 174), trademark and trade name (section 177), and mine or natural deposit development (section 616), file a statement with the return. Do not enter the deduction for amortization of bond premiums on this line. Include it on line 24.

See section 169 for amortization of the cost of certified pollution control facilities over a 5-year period.

See section 188 for amortization of certain expenditures made before January 1, 1977, for on-the-job training facilities and before January 1, 1982, for child-care facilities.

See section 191 for amortization of the cost of certain rehabilitation expenditures made after June 14, 1976, for certified historic structures.

See section 709 for amortization of the cost of partnership organization expenses over a period of 60 or more months.

See section 189(b) for amortization of real property construction period interest and taxes, other than for low-income housing.

For details the partnership must furnish in statements required by these sections, contact an IRS office.

Line 22

Depletion

If the partnership claims a deduction for timber depletion, attach Form T.

Do not report depletion deductions for oil and gas properties on this line. Each partner figures depletion on these properties under section 613A(c)(7)(D). See the instructions for Schedules K and K–1, line 15b, item f, for the information on oil and gas depletion that must be supplied to the partners by the partnership.

Line 23a

Retirement Plans, etc.

Enter deductible contributions made by the partnership for its common-law employees under a qualified pension, profit-sharing, annuity, bond purchase plan, or Simplified Employee Pension plan (SEP), and under any other deferred compensation plan. Except for payments to SEPs, enter payments for partners to these plans on Schedule K, line 14a. Enter payments for partners to SEPs on Schedules K and K–1, line 14c. See Form 5305–SEP, Simplified Employee Pension—Individual Retirement Accounts Contribution Agreement, for more information.

If the partnership contributes to an Individual Retirement Arrangement (IRA) for employees, include the contribution in compensation on page 1, line 13a, or Schedule A, line 29. Enter contributions to an IRA for a partner on Schedules K and K–1, line 14b.

Note: Employers who maintain a pension, profit-sharing, or other funded deferred compensation plan (other than a SEP), whether or not the plan is qualified under the Internal Revenue Code and whether or not a deduction is claimed for the current year, generally are required to file one of the forms described below. The Employee Retirement Income Security Act of 1974 imposes a penalty for failing to file these forms on time.

Complete Form 5500, Annual Return/Report of Employee Benefit Plan, for each plan with 100 or more participants.

Complete the applicable Form 5500–C, Return/Report of Employee Benefit Plan; Form 5500–K, Annual Return/Report of Employee Benefit Plan for Sole Proprietorships and Partnerships; or Form 5500–R, Registration Statement of Employee Benefit Plan, for each plan with fewer than 100 participants.

Note: *Only one return is required to be filed for a plan of a group of businesses under common control or a multi-employer collectively-bargained plan. Individual participating employers or contributing employers are not required to file separately.*

Line 23b

Employee Benefit Programs

Enter the partnership's contributions to employee benefit programs for common-law employees which are not part of retirement plans included on line 23a, such as contributions for insurance, health, and welfare programs.

Also include the partnership's contributions to a qualified group legal services plan established for the exclusive benefit of employees (including partners) or their spouses or dependents. The plan must be a separate written plan designed to provide specified benefits of personal legal services through prepayment of, or provision in advance for, legal fees in whole or in part by the employer. (See section 120.)

Line 24

Other Deductions

Enter any other authorized deductions for which there is no line on page 1 of the return. Do not include those items requiring separate computation which must be reported on Schedule K. Do not deduct losses incurred in transactions which were not connected with the partnership's trade or business. Report these losses separately to the partners on Schedules K and K–1, line 15b.

Schedule A

Cost of Goods Sold and/or Operations

Line 27

Inventory at Beginning of Year

Enter the beginning inventory on Schedule A, line 27. If it is different from last year's closing inventory, attach an explanation.

Line 28a

Purchases

Enter purchases on line 28a.

Line 28b

Withdrawals for Personal Use

On line 28b, enter items taken out of inventory or purchases for the personal use of partners. Subtract the amount on line 28b from the amount on line 28a. These items should also appear in Schedules M and K–1 as distributions to partners.

Lines 35a—35e

Valuation Methods Instructions

Your inventories can be valued at:

a. cost,

b. cost or market value (whichever is lower), or

c. any other method approved by the Commissioner of Internal Revenue, when those methods conform with the provisions of the applicable regulations cited below.

Taxpayers using erroneous valuation methods should request permission to change to a method permitted for Federal tax purposes. For more information regarding the change, see regulation section 1.446–1(e)(3) and Rev. Proc. 70–27, 1970–2 C.B. 509.

Check the method(s) used for valuing inventories in line 35a. Under "lower of cost or market," market generally applies to normal market conditions when there is a current bid price prevailing at the date the inventory is valued. When no regular open market exists or when quotations are nominal because of inactive market conditions, use fair market prices from the most reliable sales or purchase transactions that occurred near the date the inventory is valued. For additional requirements, see regulation section 1.471–4.

Inventory may be valued below cost when the merchandise is unsalable at normal prices or unusable in the normal way because the goods are "subnormal" (that is, because of damage, imperfections, shop wear, etc.) within the meaning of regulation section 1.471–2(c). Such goods may be valued at a current bona-fide selling price minus the direct cost of disposition (but not less than scrap value) if the taxpayer can establish such a price. See regulation section 1.471–2(c) for additional requirements.

In line 35b, indicate whether you used a method of inventory valuation other than those described in line 35a, and attach a statement describing the method used.

If the partnership wants to adopt the last in, first out (LIFO) inventory method provided in section 472, complete and attach Form 970, Application to Use LIFO Inventory Method, or a statement that contains all the information required by Form 970, to the return for the year of adoption.

Schedule D

Capital Gains and Losses

General Instructions

The holding period for long-term capital gains and losses is more than 1 year.

For amounts received from an installment sale, the holding period rule in effect in the year of sale will determine the treatment of the amounts received as long-term or short-term gain.

Gains and losses on commodity futures contracts (but not options on futures contracts) retain the more-than-6-months-holding-period rule for long-term treatment.

Report sales or exchanges of capital assets on this schedule. Report every sale or exchange of property in detail, even though there is no gain or loss. Exceptions are specially allocated gains and losses entered on Schedule K, line 17, and shown in a separate schedule attached to Form 1065. (See the instructions for Schedule K, line 17.)

To report sales or exchanges of property other than capital assets, including the sale or exchange of property used in a trade or business and involuntary conversions (other than casualties and thefts), see Form 4797, Supplemental Schedule of Gains and Losses, and related instructions.

For more information, please get **Publication 544**, Sales and Other Dispositions of Assets.

Transfer of Appreciated Property to a Political Organization

If at the time a partnership transfers property to a political organization the fair market value of the property is more than the partnership's adjusted basis, the partnership must treat this transaction as a sale of property on the date of

transfer. Ordinary income or capital gains provisions will apply as if a sale had actually occurred. (See section 84.)

Exchange of "Like Kind" Property

No gain or loss is recognized when property held for use in a trade or business or for investment is exchanged solely for property of a "like kind" to be held either for use in a trade or business or for investment. Nevertheless, the partnership must report the transaction on Schedule D of Form 1065, or Form 4797, whichever applies.

This nonrecognition does not apply to property that is stock in trade or other property held primarily for sale. It also does not include stocks, bonds, notes, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest.

If the partnership uses Schedule D of Form 1065, identify the property disposed of in column a. Enter the date of acquisition in column b and the date of exchange in column c. Write "like kind exchange" in column d, and enter the adjusted basis in column e. Enter zero in column f. (See section 1031.)

Capital Gain Distributions

On line 6, report as long-term capital gain distributions (a) a capital gain dividend or (b) the partnership's share of the undistributed capital gain from a regulated investment company. (See the instructions for Schedule K, line 13.)

Losses on Worthless Securities

If any securities that are capital assets become worthless during the tax year, the loss is a loss from the sale or exchange of capital assets as of the last day of the tax year.

Collapsible Corporations

Gain from the sale or exchange of stock in a collapsible corporation is not a capital gain. (See section 341.)

Losses from "Wash Sales"

The partnership cannot deduct losses from a "wash sale" of stock or securities unless the losses were sustained in connection with the partnership's trade or business. A "wash sale" occurs if the partnership acquires (by purchase or exchange) or has a contract or option to acquire substantially identical stock or securities within 30 days before or after the date of the sale or exchange.

Installment Sales

If the partnership sold property on the installment basis at a gain, get **Publication 537**, Installment and Deferred-Payment Sales.

In addition, attach a computation titled "Installment Sale Computation."

Specific Instructions

Column d

Gross Sales Price Minus Expenses of Sale

Enter in this column the selling price of the property sold. Reduce this by any expense of sale such as broker's fee, commission, etc.

Column e

Cost or Other Basis

In general, the cost or adjusted basis is the cost of the property plus improvements and minus depreciation, amortization, and depletion. If the partnership got the property in a tax-free exchange, involuntary conversion, or "wash sale" of stock, it may not be able to use the actual cash cost as the basis. If the partnership does not use cash cost, please attach an explanation of the basis.

When selling stock, adjust the basis by subtracting all the nontaxable distributions received before the sale. This includes nontaxable dividends from utility company stock and mutual funds. Also adjust the basis for any stock splits.

If a charitable contribution deduction is passed through to a partner because of a sale of property to a charitable organization, the adjusted basis for determining gain from the sale is an amount which has the same ratio to the adjusted basis as the amount realized has to the fair market value.

Lines 2 and 5

See Schedule(s) K–1 or other information supplied to you from the entity.

Schedule J

Depreciation

A partnership may take as a depreciation deduction a reasonable allowance for the exhaustion, wear and tear, and obsolescence of partnership property used in its trade or business or held for the production of income. (See section 167.) The allowance does not apply to inventories, stock in trade, or land except for the improvements or physical developments added to it. Be sure to include depreciation on leasehold improvements, patents, and copyrights in Schedule J.

The various methods of depreciation are:

- Straight line
- Declining balance
- Sum of the years-digits
- Any other consistent method that does not result in accumulated allowances at the end of any year greater than the total of the accumulated allowances which would have resulted from the use of the 200% declining balance method. This limitation applies only during the first two-thirds of the useful life of the property.
- Class Life Asset Depreciation Range (CLADR) System for assets put in service after December 31, 1970; or in the Class Life (CL) System for assets put into service before January 1, 1971. See Form 4832, Class Life Asset Depreciation Range (CLADR) System, for more information.

Adjustments to Basis of Property

Salvage Value. You must take salvage value into account in determining the depreciation deduction, except under the declining balance method, CLADR System, or CL System. To figure the basis on which the partnership may take depreciation for personal property (other than livestock), note the following: it does not need to take into account salvage value that is not more than 10% of the property's cost or other basis. If the salvage value is more than 10%, it must take only the excess into account. These provisions apply to property acquired after October 16, 1962, having a useful life of 3 or more years. (See section 167(f).)

Line 1. Additional First-Year Depreciation. A partnership may elect to write off, as additional first-year depreciation, 20% (but not more than $2,000) of the cost (before salvage value) of its depreciable tangible personal property acquired in the tax year if the asset has a useful life of 6 years or more from its acquisition date. The partnership may not deduct the additional depreciation, but should report the depreciation separately on Schedules K and K–1. The partners report their shares in the year the partnership begins to deduct regular depreciation for the property. The basis of the asset for figuring regular depreciation is the cost of the asset minus the additional allowance and any salvage value, whether or not the additional depreciation elected is more than the limitation permitted for any partner. Show the total additional first-year depreciation on Schedule J, line 1, and Schedule K, line 2, and allocate it to each partner on Schedule K–1 (Form 1065), line 2.

Line 2. Other Depreciation. You may enter each asset separately, or you may group assets into depreciation accounts. You must figure the depreciation separately for each asset or group.

For more information on depreciation methods, grouping assets, limitations and special rules, please get **Publication 534**, Depreciation.

Schedule K and Schedule K-1

Partner's Share of Income, Credits, Deductions, etc.

Purpose

Schedule K is a summary schedule of all the partners' shares of the partnership's income, deductions, credits, etc.

Schedule K–1 shows each partner's separate share. Copy A of each K–1 is attached to the Form 1065 filed with the Internal Revenue Service. Copy B is kept with a copy of the partnership return as a part of the partnership's records. Copy C is sent to the partner.

Although the partnership is not subject to income tax, the members are liable for income tax on their shares of the partnership income, whether or not distributed, and must include their share on their returns.

The total amount of the distributive share items (column b) reported on each line on all of the partners' Schedules K–1 should equal the amount reported on the same line of Schedule K of Form 1065. Similarly, the total of the amounts reported in each column of item M of all the partners' Schedules K–1 should equal the amounts reported in the same column in Schedule M of Form 1065.

How Income Is Shared Among Partners

Income (loss) is allocated to a partner only for the part of the year in which that person is a member of the partnership. The partnership will either allocate on a daily basis or divide the partnership year into segments and allocate income, loss, or special items in each segment among the persons who were partners during that segment. (See section 706(c)(2) for more information and for the termination of a partner's interest.)

Allocate shares of income, gain, loss, deduction, or credit among the partners according to the partnership agreement for sharing income or loss generally. If the partners agree, specific items may be allocated among them in a ratio different from the ratio for sharing income or loss generally. For instance, if the net income exclusive of specially allocated items is divided evenly among three partners but some special items are allocated 50% to one, 30% to another, and 20% to the third partner, report the special items on Schedule K, line 17, instead of on the numbered lines on page 1 of Form 1065.

If the partnership agreement does not provide for the partner's share of income, gain, loss, deduction, or credit, or if the allocation under the agreement does not have substantial economic effect, the partner's share is determined according to the partner's interest in the partnership. (See section 704(b).)

Specific Instructions

(Schedule K–1 only)

On Schedule K–1, enter the names, addresses, and identifying numbers of the partner and partnership.

Be sure to answer all the questions on the schedule including the partner's percentages and liabilities. Also complete the Reconciliation of Partner's Capital Account on the front of the schedule (Item M).

A. Date(s) Partner Acquired Any Partnership Interest During the Year. If a partner acquired any partnership interest on a single date or on several different dates during the current tax year, enter the date(s).

D. Did Partner Ever Contribute Property Other Than Money to the Partnership or Receive a Distribution Other Than Money from the Partnership?

D(i). If you answer "Yes" for this item, complete "a" and "b" which follow this item. Enter the total of the partnership's basis at the time(s) of contribution for all property (other than money) that the partner has ever contributed to the partnership in "a." Enter the value as reflected in the partner's capital account at the time(s) of contribution of all property (other than money) that the partner has contributed to the partnership in "b."

D(ii). If you answer "Yes" for this item, complete "a" and "b" which follow this item. Enter the total of the partnership's basis at the time(s) of distribution for all property (other than money) ever distributed to the partner in "a." Enter the value as reflected in the partner's capital account at the time(s) of distribution of all property (other than money) that was distributed to the partner in "b."

F. Did Partner's Interest Terminate or Decrease? If you answer "Yes" for item F(i), complete item G(i). Answer "Yes" for item F(ii) only if the partner's profit or loss sharing percentage decreased during the year. If you answer "Yes" to item F(ii), complete items G(i) and G(ii).

In the year a partner's profit or loss sharing percentage decreases or terminates, the partnership should use a separate statement to show the partner's share of partnership liabilities, adjusted basis of any property distributed, and data necessary to determine the proper application of section 751. The partner will need this information to figure gain (loss) on the disposition of the interest.

G. Partner's Profit, Loss, and Capital Sharing Percentages and Percentage of Time Devoted to the Business. Enter in item G(ii) the percentage existing at the end of the year. However, if a partner's interest terminated during the year, enter in item G(i) the percentages that existed immediately before the termination. When the profit or loss sharing percentage has changed during the year, show the prechange percentage in item G(i) and the end of year percentage in item G(ii). If there are multiple changes in the profit and loss sharing percentage during the year, attach a statement giving the date and percentage before each change. Show the percentages for capital sharing and time devoted to the business at the end of the year.

I. What Type of Entity Is This Partner? State on this line whether the partner is an individual, a corporation, a fiduciary, a partnership, or a nominee. If a nominee, indicate the type of entity represented by the nominee: I—Individual; C—Corporation; F—Fiduciary; or P—Partnership.

J. Partner's Share of Liabilities. In item J(i) enter each partner's share of nonrecourse liabilities and other liabilities which were incurred before January 1, 1977. If the partner terminated his or her interest in the partnership during the year, enter the share that existed immediately before the total disposition. In all other cases, enter it as of the end of the year. In item J(ii) enter each partner's share of such liabilities that were incurred after December 31, 1976. (A nonrecourse liability is any partnership liability for which a partner has no personal liability. A partner's other liability is any partnership liability for which the partner is personally liable.)

If the partnership is engaged in two or more different types of "at risk" activities, or a combination of "at risk" activities and any other activity, attach a statement showing the partner's share of nonrecourse liabilities and other liabilities for each activity. However, do not do this if the activities are covered under section 465(c)(3)(A) and 65% or more of the losses from the activities are allocated to the partners active in the management of the partnership. (See "At Risk" Rules on this page for further information.)

L. Partner's Share of Any Pre-1976 Loss Resulting from a Section 465(c)(1) Activity. If a partnership is engaged in an activity subject to the limitations of section 465(c)(1), the partners need to determine the amount they are "at risk." To help them do this, enter each partner's share of the total pre-1976 loss(es) from a section 465(c)(1) activity for which there existed a corresponding amount of nonrecourse liability at the end of each year in which the loss(es) occurred. (See "At Risk" Rules on this page for further information.)

M. Reconciliation of Partner's Capital Account. See page 10 of instructions for Schedule M.

(Schedules K & K–1 unless otherwise noted)

Lines 1a(1) and 1a(2)

On line 1a(1) enter the guaranteed payments to partners for salaries and interest deductible by the partnership and reported on Form 1065, line 14. On line 1a(2) enter the guaranteed payments to partners that the partnership is required to capitalize. (See the note in the instructions for Form 1065, line 14.)

Line 1b

Enter the partner's share of the ordinary income (loss) reported on Form 1065, line 26. If line 26 is a loss, enter the partner's full share of the loss. If the partner holds interests in the partnership both as a general partner and as a limited partner, enter the total loss for all interests held in the partnership. Enter the loss without reference to the adjusted basis of the partner's interest in the partnership or the partner's amount "at risk." Line 1b should reflect the total ordinary income (loss) from all business operations, including "at risk" activities and income (loss) from other entities.

"At Risk" Rules

Generally, the special "at risk" rules of section 465 of the Internal Revenue Code apply to all activities except real estate (other than mineral property). The "at risk" rules may apply to a member of a partnership. The "at risk" rules apply only if there is a loss from an activity carried on as a trade or business or for the production of income by the partnership. Generally, the amount a partner has "at risk" limits the loss a partner can deduct for any tax year.

A partner is generally considered "at risk" for an activity for the cash and adjusted basis of other property contributed to the activity, and any amounts borrowed for use in the activity for which the partner is personally liable.

A partner's "at risk" amount does not include the proceeds from the partner's share of any nonrecourse loan used to finance the activity or the acquisition of property used in the activity. However, a partner is "at risk" to the extent of the net fair market value of the partner's own property (not used in the activity) which secures borrowed amounts for which the partner is not liable.

A partner is not "at risk" for cash, property, or borrowed amounts protected against loss by a guarantee, stop-loss agreement, or other similar arrangement.

If a partnership is engaged in an activity described below in a. through e. (but not f.), the partner is not "at risk" with respect to that activity for amounts borrowed from a person who is related to the partner under section 267(b), or who has an interest (other than as a creditor) in the activity.

If a partner has amounts not "at risk" for an activity and shares in the loss for that activity, the partner must figure the allowable loss to report on the partner's tax return.

A partner's interest in the partnership is treated as a single activity if the partnership is engaged in only one activity. If the partnership is engaged in two or more activities, the partner may be able to treat them as one activity if the activities are one of the following:

a. Films or video tapes

b. Section 1245 property which is leased or held for leasing

c. Farms

d. Oil and gas properties as defined under section 614

e. Geothermal properties as defined under section 614

f. Any other activities except real estate (other than mineral property) which constitute a trade or business carried on by the partnership if 65% or more of the losses for the tax year are allocable to partners who actively participate in the management of the trade or business.

Partners should get a separate statement of income, expenses, deductions, and credits for each activity.

If the partnership sells or otherwise disposes of (1) an asset used in an activity to which the "at risk" rules apply or (2) any part of its interest in such an activity (or if the partner sells or disposes of his or her interest), the partner should combine the gain or loss on the sale or disposition with the profit or loss from the activity to determine the net profit or loss from the activity. If this is a net loss, it may be limited because of the "at risk" rules.

Any loss from an activity not allowed for a tax year is treated as a deduction allocable to the activity in the next tax year.

See Publication 535, Business Expenses and Operating Losses, for more information on the amount of loss to be reported by each partner.

Line 2

Enter in column a. the partner's share of the basis eligible for additional first-year depreciation. Enter in column b. the partner's share of additional first-year depreciation.

Line 3

Enter the partnership's gross income from farming and fishing. Fishing income is included on Form 1065, line 9; farming income is from Schedule F (Form 1040), line 32 or 89.

Line 4

Enter the dividends received from domestic corporations for which the partner is entitled to an exclusion (section 116) on the income tax return filed by the partner. Money market fund dividends do not qualify for the exclusion unless the companies have told you how much of the dividends qualify for the exclusion. (See the instructions for Form 1065, line 5.)

Lines 5 through 8

Enter on lines 5, 6, 7, and 8, the gain (loss) which resulted from sales or exchanges (including involuntary conversions).

Line 10a

Enter the total amount of charitable contributions, and each amount subject to the 50%, 30%, and 20% limitations, paid by the partnership during its tax year. Attach an itemized list that separately shows the partnership's charitable contributions subject to the 50%, 30%, and 20% limitations.

Line 10b

Report on line 10b amounts, other than investment interest, paid by the partnership which would be an itemized deduction on any of the partners' income tax returns if they were paid directly by a partner for the same purpose. These amounts include, but are not limited to, expenses under section 212 for the production of income other than from the partnership's trade or business.

Line 11

Complete line 11 for the six highest paid partners, including limited partners. This information is required only for those partners whose income from the partnership (including expense account allowances, the partner's share of ordinary income, and any other compensation) is more than $25,000.

Expense account allowance means amounts, other than compensation, received as advances or reimbursements, and amounts paid by or for the partnership for expenses incurred by or for a partner. It includes all amounts charged through any type of credit card.

It does not include amounts paid for the purchase of goods for resale or use in the business, and incidental expenses, such as the purchase of office supplies for the partnership, or local transportation in connection with an errand. The partnership should maintain records to substantiate travel and entertainment expenditures. See section 274(h) for the treatment of expenses incurred for attending a convention outside of the United States, its possessions, and the Trust Territory of the Pacific.

Line 12

On Schedule K enter the jobs credit (from attached Form 5884) computed by the partnership. The jobs credit is computed at the partnership level. It is apportioned among the partners according to their interest in the partnership at the time the wages on which the credit is computed were paid or incurred. On Schedule K–1 enter each partner's share of the credit. See Form 5884 for definitions, special rules, and limitations.

Line 13

Enter taxes paid on undistributed capital gains by a regulated investment company. The partnership as a shareholder of a regulated investment company will receive notice on Form 2439, Notice to Shareholder of Undistributed Long-Term Capital Gains, that the company paid tax on undistributed capital gains.

Line 14a

State on this line whether the Keogh (H.R. 10) plan is a defined contribution plan or a defined benefit plan. (See section 401.)

If there is a defined benefit plan, attach to the Schedule K–1 for each partner a statement showing the amount of benefit accrued for the tax year.

Line 14b

Enter on this line payments for partners to an Individual Retirement Arrangement (IRA).

Line 14c

Enter on this line payments for partners to a Simplified Employee Pension (SEP).

Line 15a

Enter the taxes described in section 901 that were paid or accrued by the partnership to foreign countries or U.S. possessions. Also, give each partner the partner's share of these taxes, and the various gross incomes, deductions, and losses from foreign sources needed to figure the partner's foreign tax credit. (See Form 1116, Computation of Foreign Tax Credit—Individual, Fiduciary, or Nonresident Alien Individual, and instructions.)

Line 15b

On Schedule K, enter the partnership's total for the items in a. through g. below which apply. Show income or gains as a positive number; show losses with the number in parentheses. Enter the description and amount of each partner's share for each of these items on a statement attached to Schedule K–1 (Form 1065).

a. Enter the total income, gain, or deduction of the following items: recoveries of bad debts, prior taxes, and delinquency amounts (section 111); gains and losses from wagers (section 165(d)); soil and water conservation expenditures (section 175); deduction and recapture of certain mining exploration expenditures paid or incurred (section 617); expenditures for the removal of architectural and transportation barriers to the elderly and handicapped which the partnership has elected to treat as a current expense (section 190); and any income, gain, or loss to the partnership under section 751(b).

b. Enter the partnership's gains from disposition of farm recapture property (see Form 4797) and other items to which sections 1251 and 1252 apply.

c. Show separately the number of gallons of gasoline, lubricating oil, and special fuels used during the tax year for each separate activity identified in Parts I and II of Form 4136, Computation of Credit for Federal Tax on Gasoline, Special Fuels, and Lubricating Oil, and related Instructions.

Partnerships that operate taxicabs must provide each partner with the number of gallons of gasoline used in the taxicabs, and other information as required by Form 4136–T, Computation of Credit or Refund for Federal Tax on Gasoline, Diesel Fuel, and Special Fuels Used in Qualified Taxicabs.

d. Enter the wages paid or incurred by the partnership under a Work Incentive (WIN) program. Attach to Form 1065 a separate schedule showing each WIN program employee's name, social security number, date employment began, and the qualified first-year or second-year WIN program salaries and wages paid or incurred. Give all partners a copy of this schedule and their allocation for each WIN program employee. For more information on claiming this credit and related wage reduction, see Form 4874, Credit for Work Incentive (WIN) Program Expenses.

e. Show the gross non-farm income from Schedule F (Form 1040) to be used by an individual partner to figure self-employment income under the optional method.

f. On Schedule K–1, supply each partner with the partner's share of gross income from the property, share of production for the tax year, etc., needed to figure the partner's depletion deduction for oil and gas wells. The partnership should also allocate to each partner a proportionate share of the adjusted basis of each partnership oil or gas property. The allocation is made as specified in section 613A(c)(7)(D).

g. For any partner that is a corporation, enter on Schedules K and K–1, line 15b: 1. any income allocable to the partner(s) that is "timber preference income" under section 57(e); 2. the corporate partner's share of construction period interest and taxes for construction begun during the year. Corporate partners must add their share of the amortization deduction for these items (from Form 1065, line 21) to their share of partnership income (loss) shown on Schedule K-1, line 1b.

Line 16

Note: The amount on this line is not for the partner's use. See the instructions for line 15b, item f, for information on the partner's depletion deduction.

Enter on this line the total amount of depletion on all partnership oil and gas properties calculated as follows:

- For each partnership property for which cost depletion would be required, enter the depletion that would be allowed to the partner, taking into account the partner's proportionate share of the adjusted basis for each partnership property.
- For each partnership property for which percentage depletion would be required, enter the percentage depletion that would be allowed to the partner using the "applicable percentage" of 22%.

For making this entry only, assume that no limitations imposed by section 613A are operative. Do not write in the "amount" column.

Line 17

Enter any items of income, gain, loss, deduction, or credit subject to a special allocation under the partnership agreement that are different from the allocation of partnership income or loss.

Do not include amounts from line 17 anywhere else on Schedule K or K-1 as an item of income, deduction, or credit. Show income or gain as a positive number; show losses with the number in parentheses; label a credit as "CR."

Partners must include specially allocated items in determining the limitations on losses discussed earlier. A partnership that is a partner in another partnership must include on Form 4797 its share of specially allocated ordinary gains (losses) from sales, exchanges, or involuntary or compulsory conversions of the other partnership's assets.

Line 18

Enter items of income and deductions which are tax preference items. (See **Form 4625**, Computation of Minimum Tax—Individuals, and Publication 525, Taxable and Nontaxable Income, for details.)

Line 18a, General Rule. On the appropriate line(s), enter the amount you get (never less than zero) by subtracting the depreciation that would have been allowable for the year if you had used the straight-line method, from the depreciation actually allowable. Figure this amount separately for each property.

Line 18a(1). If you amortized certain rehabilitation expenditures for certified historic structures over a 5-year period, enter on line 18a(1) the amount you get by subtracting the straight-line depreciation over the normal useful life of the improvement, from the amount of this amortization.

Line 18a(3). On line 18a(3), enter the excess depreciation on property described in section 1250(a)(1)(B) other than amounts shown on line 18a(2).

Line 18a(4). On line 18a(4), enter any amounts not listed in lines 18a(1), 18a(2), or 18a(3).

Lines 18c through f. Enter the excess of the amortization allowable over the depreciation deduction otherwise allowable for each of the following facilities: line 18c, certified pollution control facility; line 18d, units of railroad rolling stock; line 18e, on-the-job training facility; and line 18f, child-care facility.

Line 18h. Do not include any depletion on oil and gas wells. The partners must compute their depletion deductions separately under section 613A.

Line 18i. On line 18i(1), enter the excess intangible drilling costs from oil, gas, and geothermal wells under section 57(a)(11). On line 18i(2), enter the net income (loss) from oil, gas, and geothermal properties of the partnership.

Line 19

Enter the interest on investment indebtedness and items of investment income and expenses, and gains and losses from the sale or exchange of investment property. The interest reported on line 19a(1) may also be taken as a deduction on Form 1065, line 16. However, the interest reported on lines 19a(2) and 19a(3) must not appear as a deduction elsewhere on the return.

The amounts reported on lines 19b, 19c and 19d will be used on each partner's Form 4952, Investment Interest Expense Deduction, to determine the limitation on the investment interest expense deduction. The income and expenses included on these lines may be reported elsewhere on Form 1065 or Schedules K and K-1. For example, interest income included on line 19b may be reported on Form 1065, line 6.

Allocate investment interest expense to the period in which the indebtedness was incurred. The periods are: before December 17, 1969; before September 11, 1975, but after December 16, 1969; and after September 10, 1975. For more information, see Form 4952. Notify the partners of any part of the investment interest expense that is nonbusiness interest.

For more information and the special provisions that apply to "out of pocket" expenses and rental income from property subject to a net lease, see section 163(d) and **Publication 550**, Investment Income and Expenses. (Individuals, estates, and trusts, also see Form 4952.)

Line 20

Enter the partnership's investment in qualifying depreciable property by new and used categories and life-years on Schedule K. Enter each partner's share of the partnership's investment on Schedule K-1. Partners are allowed a tax credit based on their pro rata shares of this investment, as shown on Schedule K-1, by filing Form 3468, Computation of Investment Credit. (For information on whether property qualifies for the credit and for other information, see Form 3468 and related instructions.)

Attach a separate schedule showing the partnership's investment in qualified energy credit property. See Schedule B of Form 3468 for information needed.

Line 21a

Effective for tax years ending after September 30, 1980, a credit is allowed for sale after September 30, 1980, of alcohol fuel or the use of alcohol as a fuel by the partnership after September 30, 1980. The credit is figured at the partnership level and then apportioned to persons who are partners in the partnership on the last day of the partnership's tax year.

Use Form 6478 to figure the credit. Enter the credit on line 21a.

The amount shown on this line must be included in the partnership's income. Report this credit on line 11 of Form 1065.

Line 21b

Effective for tax years ending after December 31, 1979, a credit is allowed for the sale of qualified fuels produced from nonconventional sources. Section 44D contains a definition of qualified fuels, provisions for figuring the credit, and other special rules. The credit is figured at the partnership level and then is apportioned to persons who are partners in the partnership on the last day of the partnership's tax year.

Attach a separate schedule to the return to show the computation of the credit. Enter the credit on line 21b.

Line 21c

If the partnership is a member of a cooperative that passes an unused regular investment credit, unused energy investment credit, or unused WIN credit through to its members, enter the partnership's share of the unused credits on line 21c and identify the types of unused credits. If the partnership receives an unused jobs credit from a cooperative, it combines the credit with any other jobs credit it figures on Form 5884 and passes the combined credit through to the partners.

The unused credits are apportioned to persons who are partners in the partnership on the last day of the partnership's tax year. Attach a statement to Schedule K-1 (Form 1065) to show each partner's share of each unused credit.

Line 22

(Schedule K-1 only.)

When regular or energy investment credit property is disposed of or ceases to qualify before the end of the "life-years category" assigned, notify each partner on line 22 of Schedule K-1. The partners must refigure their investment credit using as the useful life the period the property was actually held. In refiguring the credit, the partners must use the life-years categories of 0–3 years; 3–5; 5–7; and 7 or more. If the credit taken (including carrybacks and carryovers) is more than the refigured credit, the partner's income tax for the year of disposition must be increased by the excess. For more information, see **Form 4255**, Recapture of Investment Credit, and **Publication 572**, Investment Credit.

Schedule L

Balance Sheets

The balance sheets that are filed should agree with the partnership's books and records. Explain any differences in an attached statement.

Partnerships reporting to the Interstate Commerce Commission or to any national, State, municipal, or other public officer may send copies of their balance sheets prescribed by the Commission or State or municipal authorities, as of the beginning and

end of the tax year instead of completing Schedule L. However, statements filed under this procedure must contain sufficient information to enable the IRS to reconstruct a balance sheet similar to that contained on Form 1065 without contacting the taxpayer during processing.

Schedule M

Reconciliation of Partner's Capital Accounts

On Schedule M, show what caused the changes in the partners' capital accounts during the tax year.

The amounts shown should agree with the partnership's books and records. These amounts must also agree with the balance sheet amounts. If these amounts do not agree, attach an explanation of the difference.

Column d should include capital gains, tax-exempt interest income, and dividends qualifying for the exclusion. Column e should include capital losses, investment interest expense not allowed as a deduction, charitable contributions, and other itemized deductions, and additional first-year depreciation. Complete the reconciliation of each partner's capital account on Schedule K-1, item M, for each partner.

The amounts reported here should equal the total of the amounts reported in item M of all the partners' Schedules K-1.

Schedule N

Computation of Net Earnings (Loss) from Self-Employment

Limited Partners

Limited partners may treat as self-employment income only guaranteed payments for services they actually rendered to, or on behalf of, the partnership to the extent that those payments are established as payment for those services. Show only these amounts on line 9 of Schedule K-1 for a limited partner.

Do not show any amount on line 9 of Schedule K-1 for a trust or corporation that is a partner.

General Partners

General partners' net earnings (loss) from self-employment do not include:

- Interest on bonds, debentures, notes, certificates, or other evidences of indebtedness, issued with interest coupons or in registered form by a corporation, government, or political subdivision, unless received in the course of a trade or business as a dealer in stocks or securities.
- Rentals from real estate, except rentals received in the course of a trade or business as a real estate dealer.

However, receipts for the use or occupancy of rooms or other space where services are also rendered to the occupant (such as rooms in hotels, boarding houses, apartment houses furnishing hotel services, tourist camps, tourist homes, or space in parking lots, trailer parks, warehouses, or storage garages) are not rentals from real estate for this purpose. General partners should include these amounts in determining net earnings (loss) from self-employment.

Guaranteed Payments

Include in the amount on line 2 any guaranteed payments to partners reported on Schedule K, lines 1a(1) and 1a(2). Also include other ordinary income and expense items reported on Schedule K that are self-employment income or expenses under section 1402.

Additional Information Required

Form 1065, page 4

Question M. Partnership Information on International Boycotts. All partnerships must answer the questions on International boycotts. See **Form 5713**, International Boycott Report, for additional information.

Under section 999(a), you may be required to file Form 5713 if you are:

- a partnership,
- a partner in a partnership, or
- a partnership which is a U.S. shareholder in a foreign corporation,

AND you have operations in or with

- a country,
- the government of a country,
- a company, or
- a national of a country

that requires participation in, or cooperation with, an international boycott as a condition of doing business.

Further, if the partnership participates in, or cooperates with, an international boycott (as defined in section 999(b)(3)) during the tax year, part of the foreign tax credit will be denied the partners. Anyone subject to the reporting requirements of section 999(a) must file Form 5713. The partnership must furnish each partner a copy of Form 5713 filed by the partnership if there has been participation in or cooperation with an international boycott.

If you answer any of the questions "Yes," you must give each partner a statement showing that you had operations in a boycotting country, that you participated in or cooperated with an international boycott, and that you fileo Form 5713.

Questions O. and P. Foreign Financial Accounts and Foreign Trusts

Fill in this part if you had a foreign account or were the grantor of, or transferor to, a foreign trust.

Question O. Check "Yes" if either a. OR b. below applies to you.

a. At any time during the year the partnership had an interest in or signature or other authority over a bank account, securities account, or other financial account in a foreign country.

Exception: Check "No" if either of the following applies to the partnership:

- The combined value of the accounts was $1,000 or less during the whole year.
- The accounts were with a U.S. military banking facility operated by a U.S. financial institution.

b. The partnership owns more than 50% of the stock in any corporation that owns one or more foreign bank accounts.

Get Form 90–22.1, Report of Foreign Bank and Financial Accounts, to see if the partnership is considered to have an interest in or signature or other authority over a bank account, securities account, or other financial account in a foreign country.

If you check "Yes" for Question O, file Form 90–22.1 by June 30, 1981. File it with the Department of the Treasury at the address shown on the form. Form 90–22.1 is not a tax return, so do not file it with the IRS. But be sure to file Form 1065 with IRS.

The partnership can get Form 90–22.1 from many IRS offices.

Question P. Check "Yes" if the partnership was a grantor of, or a transferor to, a foreign trust that existed during the tax year.

A U.S. partnership that ever transferred property to a foreign trust may have to include the income from that property in the partnership's taxable income if the trust had a U.S. beneficiary during 1980. (See section 679.)

If the partnership transfers property to a foreign corporation as paid-in surplus or as a contribution to capital, or to a foreign trust or partnership, an excise tax is imposed under section 1491 (see **Form 926**, Return by a Transferor of Property to a Foreign Corporation, Foreign Estate or Trust, or Foreign Partnership). To avoid this excise tax, the partnership may choose to treat the transfer as a taxable sale or exchange as specified in section 1057.

Codes for Principal Business Activity and Principal Product or Service

These industry titles and definitions, for use on Form 1065 partnership returns, are based on the Standard Industrial Classification system developed by the Office of Federal Statistical Policy and Standards, Department of Commerce, to classify enterprises and establishments by type of activity in which engaged.

Using the list below, enter on page 1, under C, the code for the specific industry group for which the largest percentage of "total assets" is used. "Total assets" means the amount entered on Schedule L, line 13, column (D). On page 1, under A, state the principal business activity and under B, state the principal product or service which accounts for the largest percentage of total assets. For example, if the principal business activity is "Retail food store," the principal product or service may be "dairy products."

Agriculture, Forestry, and Fishing

Code

Farms:

0120 Field crop.
0160 Vegetable and melon farms.
0170 Fruit and nut tree farms.
0180 Horticultural specialty.
0211 Beef cattle feedlots.
0212 Beef cattle, except feedlots.
0215 Hogs, sheep, and goats.
0240 Dairy farms.
0250 Poultry and eggs.
0260 General livestock (except animal specialty).
0270 Animal specialty.

Agricultural services and forestry:

0740 Veterinary services.
0753 Livestock breeding.
0754 Animal services, except livestock breeding and veterinary.
0780 Landscape and horticultural services.
0790 Other agricultural services.
0800 Forestry.

Fishing, hunting, and trapping:

0930 Commercial fishing, hatcheries and preserves.
0970 Hunting, trapping, and game propagation.

Mining

1000 Metal mining.
1150 Coal mining.
1300 Oil and gas extraction.
1400 Nonmetallic minerals except fuel.

Construction

General building contractors and operative builders:

1510 General building contractors.
1531 Operative builders.

Heavy construction contractors:

1611 Highway and street construction.
1620 Heavy construction, except highway.

Special trade contractors:

1711 Plumbing, heating, and air conditioning.
1721 Painting, paperhanging, and decorating.
1731 Electrical work.
1740 Masonry, stonework, and plastering.
1750 Carpentering and flooring.
1761 Roofing and sheet metal work.
1771 Concrete work.
1781 Water well drilling.
1790 Miscellaneous special trade contractors.

Manufacturing

2000 Food and kindred products.
2200 Textile mill products.
2300 Apparel and other textile products.
2400 Lumber and wood products except furniture.
2500 Furniture and fixtures.
2700 Printing, publishing, and allied industries.
2800 Chemicals and allied products.
3100 Leather and leather products.
3200 Stone, clay, and glass products.
3300 Primary metal industries.
3400 Fabricated metal products.
3500 Machinery, except electrical.
3600 Electrical and electronic equipment.
3700 Transportation equipment.
3970 Other manufacturing industries.

Transportation, Communication, Electric, Gas, and Sanitary Services

Local and interurban passenger transit:

4121 Taxicabs.

Code

4189 Other passenger transportation.

Trucking and warehousing:

4210 Trucking, local and long distance.
4289 Public warehousing and trucking terminals.

Other transportation including transportation services:

4400 Water transportation.
4540 Transportation by air.
4722 Passenger transportation arrangement.
4723 Freight transportation arrangement.
4799 Other transportation services.
4800 Communication.
4900 Electric and gas services.
4950 Sanitary services.

Wholesale Trade

Durable:

5010 Motor vehicles and automotive equipment.
5030 Lumber and construction materials.
5060 Electrical goods.
5070 Hardware, plumbing, and heating equipment.
5083 Farm machinery, and equipment.
5089 Other machinery, equipment, and supplies.
5095 Other durable goods.

Nondurable:

5129 Drugs, chemicals, and allied products.
5130 Apparel, piece goods, and notions.
5140 Groceries and related products.
5150 Farm-product raw materials.
5180 Alcoholic beverages.
5195 Other nondurable goods.

Retail Trade

Building materials, hardware, garden supply, and mobile home dealers:

5211 Lumber and other building materials dealers.
5231 Paint, glass, and wallpaper stores.
5251 Hardware stores.
5261 Retail nurseries and garden stores.
5271 Mobile home dealers.

General merchandise:

5331 Variety stores.
5398 Other general merchandise stores.

Food stores:

5411 Grocery stores.
5420 Meat and fish markets freezer provisioners.
5431 Fruit stores and vegetable markets.
5441 Candy, nut, and confectionery stores.
5451 Dairy products stores.
5460 Retail bakeries.
5490 Other food stores.

Automotive dealers and service stations:

5511 New car dealers (franchised).
5521 Used car dealers.
5531 Auto and home supply stores.
5541 Gasoline service stations.
5551 Boat dealers.
5561 Recreational vehicle dealers.
5571 Motorcycle dealers.
5599 Aircraft, and other automotive dealers.

Apparel and accessory stores:

5611 Men's and boys' clothing and furnishings.
5621 Women's ready-to-wear stores.
5631 Women's accessory and specialty stores.
5641 Children's and infants' wear stores.
5651 Family clothing stores.
5661 Shoe stores.
5681 Furriers and fur shops.

Code

5699 Other apparel and accessory stores.

Furniture, home furnishings, and equipment stores:

5712 Furniture stores.
5713 Floor covering stores.
5714 Drapery, curtain, and upholstery stores.
5719 Home furnishings, except appliances.
5722 Household appliance stores.
5732 Radio and television stores.
5733 Music stores.

Eating and drinking places:

5812 Eating places.
5813 Drinking places.

Miscellaneous retail stores:

5912 Drug stores and proprietary stores.
5921 Liquor stores.
5931 Used merchandise stores.
5941 Sporting goods stores and bicycle shops.
5942 Book stores.
5943 Stationery stores.
5944 Jewelry stores.
5945 Hobby, toy, and game shops.
5946 Camera and photographic supply stores.
5947 Gift, novelty, and souvenir shops.
5948 Luggage and leather goods stores.
5949 Sewing, needlework, and piece goods stores.
5961 Mail order houses.
5962 Merchandising machine operators.
5963 Direct selling organizations.
5982 Fuel and ice dealers (except fuel oil and bottled gas dealers).
5983 Fuel oil dealers.
5984 Liquefied petroleum gas (bottled gas) dealers.
5992 Florists.
5993 Cigar stores and stands.
5994 News dealers and newsstands.
5996 Other miscellaneous retail stores.

Finance, Insurance, and Real Estate

6000 Banking.
6100 Credit agencies other than banks.

Security and commodity brokers, dealers, exchanges and services:

6212 Security underwriting syndicates.
6218 Security brokers and dealers, except underwriting syndicates.
6299 Commodity contracts brokers and dealers; security and commodity exchanges; and allied services.

Real estate:

6411 Insurance agents, brokers, and services.
6511 Real estate operators (except developers) and lessors of buildings.
6520 Lessors of real property other than buildings.
6531 Real estate agents, brokers, and managers.
6541 Title abstract offices.
6552 Subdividers and developers, except cemeteries.
6553 Cemetery subdividers and developers.
6611 Combined real estate, insurance, loans, law offices.

Holding and other investment companies:

6746 Investment clubs.
6747 Common trust funds.
6748 Other holding and investment companies.

Services

Hotels and other lodging places

7012 Hotels.
7013 Motels, motor hotels, and tourist courts.

Code

7021 Rooming and boarding houses.
7032 Sporting and recreational camps.
7033 Trailer parks and camp sites.
7041 Organizational hotels and lodging houses on a membership basis.

Personal services:

7215 Coin-operated laundries and dry cleaning.
7219 Other laundry, cleaning, and garment services.
7221 Photographic studios, portrait studios.
7231 Beauty shops.
7241 Barber shops.
7251 Shoe repair and hat cleaning shops.
7261 Funeral services and crematories.
7299 Miscellaneous personal services.

Business services:

7310 Advertising.
7340 Services to buildings.
7370 Computer and data processing services.
7392 Management, consulting, and public relations services.
7394 Equipment rental and leasing.
7398 Other business services.

Automotive repair and services:

7510 Automotive rentals and leasing, without drivers.
7520 Automobile parking.
7531 Automobile top and body repair shops.
7538 General automobile repair shops.
7539 Other automotive repair shops.
7540 Automotive services, except repair.

Miscellaneous repair services:

7622 Radio and TV repair shops.
7628 Electrical repair shops, except radio and TV.
7641 Reupholstery and furniture repair.
7680 Other miscellaneous repair shops.

Motion picture:

7812 Motion picture and video tape production, distribution, and services.
7830 Motion picture theaters.

Amusement and recreation services:

7920 Producers, orchestras, and entertainers.
7932 Billiard and pool establishments.
7933 Bowling alleys.
7941 Professional sports clubs and promoters.
7948 Racing, including track operation.
7980 Other amusement and recreation services.

Medical and health services:

8011 Offices of physicians.
8021 Offices of dentists.
8031 Offices of osteopathic physicians.
8041 Offices of chiropractors.
8042 Offices of optometrists.
8048 Registered and practical nurses.
8050 Nursing and personal care facilities.
8060 Hospitals.
8071 Medical laboratories.
8072 Dental laboratories.
8098 Other medical and health services.

Other services:

8111 Legal services.
8200 Educational services.
8911 Engineering and architectural services.
8932 Certified public accountants.
8933 Other accounting, auditing, and bookkeeping services.
8999 Other services, not elsewhere classified.

SCHEDULE F (Form 1040)
Department of the Treasury Internal Revenue Service

Farm Income and Expenses

▶ Attach to Form 1040, Form 1041, or Form 1065.
▶ See Instructions for Schedule F (Form 1040).

1980
17

Name of proprietor(s) | Social security number

Farm name and address ▶ | Employer identification number

Part I Farm Income—Cash Method

Do not include sales of livestock held for draft, breeding, sport, or dairy purposes; report these sales on Form 4797.

Sales of Livestock and Other Items You Bought for Resale

a. Description	b. Amount	c. Cost or other basis
1 Livestock ▶		
2 Other items ▶		
3 Totals		
4 Profit or (loss), subtract line 3, column c, from line 3, column b ▶

83 State gasoline tax refund

84 Other farm income (specify) ▶

85 Add lines 78 through 84

86 Inventory of livestock, crops, and products at beginning of year (line 77, column b)

87 Cost of livestock and products purchased during year (line 77, column c)

88 Total (add lines 86 and 87)

89 Gross profits* (subtract line 88 from line 85)

90 Total deductions from Part II, line 57 ▶

91 Net farm profit or (loss) (subtract line 90 from line 89). If a profit, individuals enter on Form 1040, line 19, and on Schedule SE, Part I, line 1a. If a loss, go on to line 92. (Fiduciaries and partnerships, see the Instructions.) 91

92 If you have a loss, do you have amounts for which you are not "at risk" in this farm (see Instructions)? ☐ Yes ☐ No

*Use amount on line 89 for optional method of computing net earnings from self-employment. (See Schedule SE, Part I, line 3.)

U.S. GOVERNMENT PRINTING OFFICE: 1980—313-431 23-188-5979

You may use this optional method if you are:

a. regularly self-employed, or

b. regularly a member of a partnership.

This requirement is met if you had actual net earnings from self-employment of $400 or more (including your distributive share of the income or loss from any partnership of which you are a member) from nonfarm and farm businesses in at least 2 of the 3 years immediately before the year for which you use the nonfarm option.

In this optional method, you may report two-thirds of your gross nonfarm profits (but not more than $1,600) as your net earnings from self-employment. The nonfarm optional method does not allow you to report less than your actual net earnings from nonfarm self-employment.

The limit for the optional method for nonfarm self-employment is 5 years. The 5 years need not be consecutive.

If both nonfarm and farm businesses are involved, the nonfarm option may be used only if your actual net earnings from nonfarm self-employment are less than $1,600. In all combined cases, your net nonfarm earnings must be less than two-thirds of your gross nonfarm profits to use the nonfarm option. If you qualify to use both options, you may report less than actual total net earnings but not less than actual net earnings from nonfarm self-employment alone.

If you use both options in figuring net earnings from self-employment, your maximum combined total of net earnings from self-employment for any tax year cannot be more than $1,600.

For the nonfarm optional method, figure your share of gross profits from a nonfarm partnership according to the partnership agreement. With guaranteed payments, your share of the partnership's gross profits is your guaranteed payment plus your share of the gross profits after the gross profits are reduced by all guaranteed payments of the partnership.

For more information, please get Publication 533, Self-Employment Tax.

Line-By-Line Instructions

Name of self-employed person. Please enter the name and social security number of the self-employed person as it appears on that person's social security card.

We have provided specific instructions for most of the lines on the schedule. Those lines that do not appear in the instructions are self-explanatory.

Part I

Computation of Net Earnings from Farm Self-Employment

Line 2

Exclude from line 2, any income or expense not included in figuring net earnings from farm self-employment and attach an explanation. Also exclude from line 2 any additional first-year depreciation or unreimbursed expenses from farm partnership income.

Line 3a

If you elect the farm optional method and if the total of the amount from Schedule F, line 32, or line 89, and the amount from Form 1065, Schedule K–1, line 3, is not more than $2,400, enter two-thirds of the total of the amount from Schedule F, line 32 or 89, and Form 1065, Schedule K–1, line 3.

Line 3b

If the total of the amount from Schedule F, line 32, or line 89, and Form 1065, Schedule K–1, line 3, is more than $2,400, and line 1a is less than $1,600, enter $1,600.

The items taken from these lines may be subject to adjustment. See Publication 533, Self-Employment Tax.

Line 4

If you elect the Farm Optional Method, enter the amount from line 3; otherwise, enter the amount from line 2.

If you have only farm income, skip Part II and go to Part III.

Part II

Computation of Net Earnings from Nonfarm Self-Employment

Line 5b

Enter the amount of your net profit or (loss) from partnerships, joint ventures, etc. Do not include farming. If you have a loss enter only your deductible loss.

Line 5e

Enter the amount of your net profit or (loss) from other self-employment not covered in the previous items.

Line 7

Use line 7 to exclude any amounts reported in Schedule C that should not be taken into account in figuring your nonfarm self-employment income. Deduct additional first-year depreciation from nonfarm partnerships on this line.

If you deposited earnings into a capital construction fund established under the Merchant Marine Act of 1936, see Publication 595, Tax Guide for Commercial Fishermen.

If you are a duly ordained minister who is an employee of a church and if you are subject to self-employment tax, the unreimbursed business expenses that you incurred in performing your services as an employee of the church (allowed only as an itemized deduction) are deducted on this line in figuring self-employment tax. For more information see Publication 517, Social Security for Members of the Clergy and Religious Workers.

Line 10

Enter the smaller of:

- $1,600, or
- ⅔ of the total of gross profits from Schedule C, line 3, plus the distributive share of gross profits from nonfarm partnerships (Schedule K–1, line 15b). Also include gross profits from services reported on lines 5c, 5d, and 5e, as adjusted by line 7.

Instructions for

Schedule F

Farm Income and Expenses

Purpose

Use Schedule F to report farm income and expenses if you file Forms 1040, 1041, or 1065. Please get Publication 225, Farmer's Tax Guide, for additional information. It has samples of filled-in forms and schedules. You may also want to get Publication 534, Depreciation.

Do not report the following income on Schedule F:

- Rent you received that was based on farm production or crop shares, if you did not run the farm yourself. Report this income on Form 4835 and Schedule E (Form 1040). It is not subject to self-employment tax.
- Rent from your pasture land. Report this income in Part II of Schedule E (Form 1040). However, report pasture income received from taking care of someone else's livestock on line 30 of Schedule F.
- Sales, exchanges, or involuntary conversions (other than casualty or theft) of certain trade or business property. Report this income on Form 4797.
- Sales of livestock held for draft, breeding, sport, or dairy purposes. Report this income on Form 4797.

Which Parts to Use

- Schedule F has 5 parts. Your accounting method used to record your farm income determines which parts you must fill in.

Under the cash method, you include all of your income in the year you actually get it. Generally, you deduct your expenses when you pay them. If you use the cash method, fill in Parts I, II, and III.

Under the accrual method, you include your income in the year you earned it. It does not matter when you get it. You deduct your expenses when you incur them. If you use the accrual method, fill in Parts II, III, IV, and V.

Employer Identification Number

You need an employer identification number only if:

- you had a Keogh (H.R. 10) plan, or
- you were required to file an employment tax, excise tax, or alcohol, tobacco or firearms tax return.

Part I

Farm Income

Cash Method

In Part I show the income you received for the items listed on lines 1 through 29. Count both the cash you received and the fair market value of goods or other property you received for these items.

If you ran the farm yourself and received rents based on farm production or crop shares, report these rents as income on the line for the crop, or on line 30.

(34)

Line 1

In column (b) show the amount you received from sales of livestock you bought for resale. In column (c) show the cost or other basis of the livestock.

Line 2

In column (b) show the amount you received from sales of other items you bought for resale. In column (c) show the cost or other basis of those items.

Line 4

If you sold livestock because of a drought, you can choose to count the income from the sale in the year after the drought, instead of the year of the sale. You can do this IF:

- your main business is farming, AND
- you can show that you sold the livestock only because of the drought, AND
- your area qualified for Federal aid.

You may include crop insurance proceeds and certain disaster payments in income in the tax year after the year of damage if you can show that it is your practice to report income from these crops in the later tax year.

Lines 5 through 21

Show the amount you got from the sale of livestock and produce you raised.

Line 22

Show the amount you were paid for the use of your farm machinery.

Line 23

Show patronage dividends you received in cash, and the dollar amount of qualified written notices of allocation. If you received property as patronage dividends, report the fair market value of the property as income. Include cash advances you received from a marketing cooperative.

You do not have to include as income patronage dividends from buying:

- personal or family items.
- capital assets.
- depreciable assets you use in your business.

Enter these amounts on line 23b.

If you do not report patronage dividends from these items as income, you must subtract the amount of the dividend from the cost or other basis of these items.

Line 24

If you get per-unit retains in cash, show the amount of cash. If you get qualified per-unit retain certificates, show the stated dollar amount of the certificate.

Line 26

Enter on line 26a cash you got as price support payments, diversion payments and cost-share payments (sight drafts).

On line 26b, show the amounts the Department of Agriculture paid for materials such as fertilizer or lime, or services such as grading or constructing dams.

Line 27

Report Commodity Credit Corporation loans you received as income if:

- the commodities are delivered or forfeited to the Corporation instead of sold in the market, OR
- you choose to report the loan as income when you receive it. If you do this, attach a statement showing the details of the loan. You must continue to report these loans as income unless the IRS permits you to change your accounting method.

Line 28

If you took a credit for Federal gasoline tax on your 1979 Form 1040, enter the amount of the credit here.

Line 29

Enter the amount of any State gasoline tax refund you got in 1980.

Line 30

Use this line to report income other than that shown on lines 1 through 29.

Report the sale of commodity futures contracts on this line if they were made to protect you from price changes. These are a form of business insurance and are considered hedges. Enter any profit on line 30. If you had a loss in a closed futures contract, show it as a minus amount.

Purchase or sales contracts are not true hedges if they offset losses that already happened. If you bought or sold commodity futures with the hope of making a profit due to favorable price changes, do not report the profit or loss on this line. Report the gain or loss on Schedule D, (Form 1040, 1041, or 1065).

Report as income the amount of the credit for alcohol used as a fuel that was entered on Form 6478, line 13.

Part II

Farm Deductions

Cash and Accrual Method

Do not deduct:

- personal or living expenses (such as taxes, insurance, or repairs on your home) that do not produce farm income.
- expenses of raising anything you or your family used.
- the value of animals you raised that died.
- loss of inventory
- personal losses.
- the cost of planting and growing citrus or almond groves for the first four years after you plant them. You must treat these items as part of the cost of the grove. However, you may depreciate the cost of an irrigation system used in connection with the citrus grove, beginning in the year the system is placed in service.

If you were repaid for any part of an expense, you must subtract the amount you were repaid from the deduction.

Farming Syndicates

A farming syndicate may be:

- a partnership, or
- any other noncorporate group, or
- a small business corporation, if

a. the interests in the business have ever been for sale in a way that would require registration with any Federal or State agency, or

b. more than 35 percent of the loss during any tax year is spread between limited partners or limited entrepreneurs.

(A limited partner or limited entrepreneur is a person who does not take any active part in managing the business, and who can lose only the amount he or she has invested.)

If you are a farming syndicate, your deductions are limited as follows:

- Generally, you can deduct feed, seed, fertilizers and other farm supplies only in the year you actually use them (or only in the year you can deduct them under your accounting method). However, if you bought supplies you could not use because of fire, storm, flood, disease, or other casualty, then you may deduct them in the year you bought them.
- You must spread the cost of poultry you bought to use in business (or to resell) over 12 months, or the useful life, whichever is less.
- You cannot deduct the cost of planting, cultivating, maintaining or developing groves, orchards or vineyards, which produce fruit or nuts, before the tax year in which they produce commercial quantities. You must treat these costs as part of the cost of the grove.

Line 33

Enter the amount you paid for farm labor. You can count the cost of boarding farm labor but not the value of any products they used from the farm. You can count only what you paid household help to care for farm laborers. Do not count the value of your own or your family's labor.

Enter on line 33b the jobs credit from Form 5884 and on line 33c, the WIN credit from Form 4874. Subtract the total of these credits from labor hired on line 33a and enter the balance on 33e.

For more details, please get Publication 906, Targeted Jobs and WIN Credits.

Line 34

Enter what you paid for repairs and upkeep of farm buildings (but not your home), machinery and equipment. You can also include what you paid for tools of short life or small cost, such as shovels and rakes. If you use the Class Life Asset Depreciation Range (CLADR) system, include the total amount of the repair allowance under that system on this line.

Line 35

Show the interest you paid on your farm (but not your home) mortgage. Also include interest on other loans related to this farm. If you prepaid interest in 1980 for years after 1980, include only the part that applies to 1980.

Line 36

If you are a tenant farmer and pay the owner of the land a share of the crop rather than cash, show the cost of raising the crop. Do not enter the value of the crop.

Line 37

If you use the cash method, show what you paid for feed to be consumed by your livestock in the year of payment. If the feed is to be consumed by your livestock in a later tax year, however, the expense might not be deductible in the year paid. See Publication 225 for more information on advance payments for feed.

Line 40

Show what you paid to rent machinery used on your farm.

Line 46

You can deduct the following taxes:

- real estate and personal property taxes on farm business assets.
- social security taxes you paid to match what you are required to withhold from farm employees' wages.

Do not deduct:

- Federal income taxes.
- estate and gift taxes.
- taxes assessed to pay for improvements such as paving, sewers, etc.
- taxes on your home or personal property.
- other taxes not related to the farm business.

Line 47

Show only the amount of premiums for fire, storm, crop, and theft insurance for this year for your farm business assets. Do not include insurance on personal assets, or medical, health or disability insurance on yourself or your family.

Line 48

Show what you paid for gas, electricity, water, etc. for business use on the farm. Do not include personal utilities.

Line 49

Do not include as freight paid the cost of transportation incurred in purchasing livestock held for resale. Instead, add these costs to the cust of the livestock, and deduct them when the livestock are sold.

Line 50

You can deduct what you spent to conserve soil or water, or to prevent erosion of your land. You can also deduct what you paid to a soil or water district for conservation expenses. Do not deduct more than 25% of your gross income from farming (excluding certain gains from selling assets such as farm machinery and land). If your conservation expenses are more than the limit, you can carry the excess over to following years.

Line 51

Show what you paid to clear land so you could farm it. Do not enter more than $5,000 or 25% of your taxable income from farming, whichever is less.

Line 52

Enter the amount you paid to pension, profit-sharing, or annuity plans for your employees. If the plan included you as an owner-employee, see the instructions for Form 1040, line 26. Enter the amount you paid for yourself on that line.

Line 53

Enter any amounts you paid to programs for your employees that are not a part of the plans on line 52. Examples are insurance, health and welfare programs. Do not include here amounts paid for yourself or your family.

Line 54

Enter expenses not listed on another line, such as:

- office supplies.
- advertising.
- car and truck expenses. You can deduc what it cost you to run your car or truck, or you can use a fixed mileage rate. The rate is 20 cents a mile for the first 15,000 miles, and 11 cents a mile for each mile after that. However, if the car or truck is fully depreciated, you must use 11 cents a mile for all miles. If you use more than one vehicle for business, you must use the actual cost and not the mileage rate. If you use the car for both personal and farm purposes, show only the miles (or costs) which apply to farming.
- Any loss from this activity that was not allowed as a deduction last year because of the "at risk" provisions, is treated as a deduction allocable to this activity in 1980.

Line 58

If you have a profit, stop here. Enter the amount here and on Form 1040, line 19, and Schedule SE, Part I, line 1a (or Form 1041, line 6). Partnerships should stop here and enter the profit or loss on this line and on Form 1065, line 9.

If you have a loss, go on to line 59 before entering your loss on line 58.

Line 59

Deductions for losses by persons who are engaged in farming as a trade or business, or for the production of income, are limited to the amount they have "at risk" in the farm. You are "at risk" for an activity for the cash and adjusted basis of property you contributed to the activity and any amount borrowed for use in the activity for which you are personally liable. You are also "at risk" to the extent of the fair market value of your own property (not used in the activity) which secures borrowed amounts for which you are not liable.

Answer the question "YES" if you have any loans for this farm that:

- you borrowed from a person who is related to you under section 267(b); OR
- you borrowed from a person who has an interest in the business (other than as a creditor); OR
- you are protected against loss by a guarantee, stop-loss agreement or similar arrangement; OR
- you are not personally required to pay back the money.

If you do not have any of these kinds of loans, or other amounts for which you are not "at risk" in this business, then answer the question "NO." Enter the full loss on line 58 and on Form 1040, line 19, and Schedule SE, Part I, line 1a (or Form 1041, line 6).

If you answered "YES" to the question on line 59, enter on line 58 either the amount of your loss or the amount for which you are considered "at risk", whichever is smaller. For example, if your loss is $1,000 and your amount "at risk" is $400, you would enter ($400) on line 58. Or, if your loss is $1,000 and your amount "at risk" is $1,200, enter ($1,000) on line 58.

If your "at risk" amount is smaller than zero, enter zero.

Also enter this amount as your loss from farming on Form 1040, line 19, and Schedule SE, Part I, line 1a (or Form 1041, line 6).

If you sell or otherwise dispose of (1) an asset used in an activity to which the "at risk" rules apply or (2) any part of your interest in an activity to which the "at risk" rules apply (see section 465 of the I.R. Code), combine the gain or loss on the disposition with the profit or loss from the activity.

If you have a net loss, you may be subject to the "at risk" provisions.

Part III

Depreciation

You can deduct depreciation of buildings, improvements, cars and trucks, machinery, and other farm equipment of a permanent nature. You may list each asset separately, or you may group assets into depreciation accounts. You must figure the depreciation separately for each asset or group. Please see Publication 534, Depreciation, for more information on depreciation methods, grouping assets, limitations and special rules.

Do not include depreciation on:

- your home, furniture, or other personal items,
- land,
- livestock you bought or raised for resale, or
- other property in your inventory.

Line 60

You can choose to deduct an additional allowance for first-year depreciation on certain assets that have a useful life of 6 years or more. If you choose this additional allowance, enter the amount on line 60. You must subtract this amount from the cost or other basis of the asset on which you are taking the additional depreciation. This will reduce the cost or other basis amount on line 61.

Note: Your total additional first-year depreciation deduction from all sources is limited to $2,000 ($4,000 if married filing a joint return).

Line 61

Be sure to reduce the cost or other basis of assets by any additional first-year depreciation taken on line 60.

If you need more space, use Form 4562.

Line 62

Add line 60 and line 61, column g. Enter the total on line 62 and in Part II, line 56.

Part IV

Farm Income

Accrual Method

If you used the accrual method, report farm income when you earned it, not when you received it. Generally, you must inventory your animals and crops if you used this method. See Publication 225, Farmer's Tax Guide, for exceptions, inventory methods, and how to change from accrual to cash methods of accounting.

Lines 63 through 76

For each item listed, fill in columns (b), (c), (d) and (e) across. See the line-by-line instructions for Part I for more information.

Part V

Summary of Income and Deductions

Accrual Method

Lines 80 and 81

See instructions for Part I, lines 26 and 27.

Line 82

If you take a credit for Federal gasoline tax on your 1980 income tax return, enter the amount of the credit on this line.

Line 83

If you are due a refund of State gasoline tax for 1980, enter the amount here.

Line 84

See instructions for Part I, line 30.

Lines 91 and 92

See instructions for Part I, lines 58 and 59.
